- (c) **(Claims against the Developer)**: Clauses 6.5(b), 6.7(a) and 6.7(b) are without prejudice to the rights of the Builder to pursue any Claims against the Developer following the end of the Step-In Period or termination of the Building Contract.
- (d) **(Disputes)**: For the avoidance of doubt, the Builder Statement will not prevent any State from disputing the amount of any Claim or other relief sought by the Builder or the existence of any default by the Developer under the Building Contract (but the State cannot dispute an amount that has been certified under the Building Contract or determined in accordance with the Building and Construction Industry Security of Payment Act 2002). In the case of any such dispute:

For the avoidance of doubt, on and from the Additional Obligor Step-Out Date, the Builder will continue to owe their obligations under the Building Contract to:

8 State's option to novate to the State or third party

8.1 Option

- (a) **(Novation Notice)**: The State may require a novation of the Building Contract upon the termination of the Commercial Development Agreement by giving a notice **(Novation Notice)** to the Builder. The Novation Notice must specify the person to whom the State intends to novate the Building Contract whether this be the State or another person **(Substitute Party)**.
- (b) **(Builder's obligations to continue)**: If the State issues a Novation Notice then (without prejudice to the Builder's rights under clauses 6.2 and 6.3) the Builder, until the Novation Notice Date, must continue to perform their respective obligations under the Building Contract.
- (c) **(Builder to continue work)**: If the Builder has exercised any rights it has to suspend the performance of any of its obligations under the Building Contract, the Builder must recommence performance of those obligations from the Novation Notice Date or the date on which the cause of the suspension is remedied (whichever is the earlier).
- (d) **(Novation Notice not a Default Event)**: The Builder acknowledges that the giving of a Novation Notice by the State will not of itself contravene, or constitute a Default Event under, the Building Contract, or entitle the Builder to exercise any power (including termination) under it.

8.2 Novation to Substitute Party

- (a) **(Effect of novation):** Subject to clause 8.3, with effect from the Novation Notice Date:
- (1) the Substitute Party will assume (and if the Substitute Party is not the State, the State will procure that the Substitute Party assumes):
 - (A) any obligation of the Developer under the Building Contract arising before the Novation Notice Date insofar as it relates to the payment of an amount of money that:
 - 1) is due and payable under the terms of the Building Contract; and
 - 2) is not the subject of a dispute under the Building Contract (or is the subject of a dispute under the Building Contract in which case the Substitute Party will, on the determination of such dispute, assume such obligations in accordance with that determination); and
 - (B) the obligations of the Developer under the Building Contract arising on and from the Novation Notice Date (including obligations in relation to the payment of amounts which become due and payable in respect of work performed before the Novation Notice Date) subject to any amendments to the Building Contract agreed in accordance with clause 8.2(a)(6);
 - (2) without prejudice to any then accrued rights against the Developer (other than termination), any Builder's right to suspend under the Building Contract which exists at the Novation Notice Date will be of no further effect;
 - (3) subject to any amendments agreed to the Building Contract in accordance with clause 8.2(a)(6), the Substitute Party will have all the rights of the Developer under the Building Contract (excluding any accrued rights of the Developer in respect of any damage, loss, cost, charge, expense, outgoing or payment to the extent that those rights arose prior to the Novation Notice Date and are the subject of any unresolved dispute referred to in clause 8.2(a)(1)(A));
 - (4) subject to clause 8.2(a)(3) and any amendments agreed to the Building Contract in accordance with clause 8.2(a)(6), the Builder will:
 - (A) be bound by and must comply with the provisions of the Building Contract as if the Substitute Party were the Developer; and
 - (B) be entitled to any extensions of time and other entitlements which accrued to the Builder prior to the Novation Notice Date;
 - (5) the Developer is released from all of its obligations and Liabilities under the Building Contract, excluding any accrued obligations or Liabilities of the Developer to the extent that those accrued obligations or Liabilities:
 - (A) arose in connection with events occurring prior to the Novation Notice Date; and

- (B) are not obligations and Liabilities assumed by the Substitute Party under clause 8.2(a)(1);
 - (6) the Builder and the Substitute Party will promptly negotiate in good faith, any amendments to the Building Contract that are necessary to reflect the termination of the Commercial Development Agreement; and
 - (7) for the avoidance of doubt, any caps on Liability in the Building Contract will continue to apply, but so that any Liability of the Builder incurred to the Developer prior to the Novation Notice Date is taken into account in respect of any ongoing Liability of the Builder to the Substitute Party.
- (b) **(No set off):** The Builder is not entitled to exercise any right of set off, deduction, abatement or counterclaim against the Substitute Party if, and to the extent that, such right arose prior to the Novation Notice Date.
- (c) **(Novation Deed):** Subject to clause 8.3(b), the Developer, the Builder and the Substitute Party must enter into an agreement in form and substance reasonably requested by the Substitute Party reflecting the novation of the Building Contract as contemplated in clause 8.2(a) and take such other action as is required to vest in the Substitute Party full legal and equitable title to any retention account, bank guarantee, performance bond, letter of credit or other security held by the Developer to secure the obligations of the Builder under the Building Contract.
- (d) **(Attorney):** For valuable consideration, the Developer and the Builder each irrevocably appoint the State, on its behalf and in its name or otherwise, as its attorney to do anything which the Developer or the Builder is obliged to do (but has not done within 5 Business Days of request) under clause 8.2(c). Each of the Developer and the Builder ratifies and confirms and agrees to ratify and confirm whatever any such attorney lawfully does in the exercise of the power of attorney in this clause 8.2(d). This clause 8.2(d) does not apply where the Builder objects on reasonable grounds to the proposed novation.

8.3 Novation to a Substitute Party other than the State

- (a) **(Information to be provided by the State):** If the State gives a Novation Notice that states that the Developer must novate the Building Contract Documents to a Substitute Party other than the State or a State Associate, the State must, at the time it gives the Novation Notice, provide to the Builder the following particulars of the Substitute Party:
- (1) its name, place of incorporation and identity of shareholder(s) (including, unless a shareholder is listed on a securities exchange, the ultimate shareholders);
 - (2) if available, its most recent published audited accounts; and
 - (3) sufficient particulars of the finance available to the Substitute Party to enable the Builder to decide whether to grant its consent to the Substitute Party.
- (b) **(Consent by the Builder):** A novation to, and the giving of a Novation Notice with respect to, a Substitute Party other than the State or a State Associate in accordance with this clause 8 will only be effective, and the Builder will only be required to enter into a novation agreement under clause 8.2(c), if the Builder consents to that novation (such consent not to be unreasonably withheld or delayed) or are deemed to have consented in accordance with clause 8.3(d).

- (c) **(Further information):** The State must as soon as practicable supply the Builder with such additional information to that provided under clause 8.3(a) as the Builder reasonably requires to enable it to decide whether to grant consent under clause 8.3(b), and the Builder must consider such information expeditiously and inform the State promptly if it reasonably requires further information.
- (d) **(Deemed consent):** The Builder's consent to the novation will be deemed to be given if the Builder have not notified the State under clause 8.3(e)(2) within 15 Business Days of the later of:
- (1) the receipt of the Novation Notice; and
 - (2) the receipt of the State's response to the Builder' request for information under clause 8.3(c).
- (e) **(Unreasonably withholding consent):** The Builder is not entitled to refuse consent to the novation unless:
- (1) the grounds for refusal are reasonable and are based on:
 - (A) the proposed novation deed referred to in clause 8.2(c) for the Substitute Party to assume the rights and obligations of the Developer under the Building Contract not being effective to substitute the Substitute Party for the Developer;
 - (B) the Substitute Party not having the legal capacity, power and authorisation to become a party to and perform the obligations of the Developer in accordance with the Building Contract including any necessary authorisations and consents;
 - (C) the technical competence or financial standing of the Substitute Party being insufficient for it to meet the obligations of the Developer in accordance with the Building Contract; or
 - (D) the Builder being placed in breach of any Laws by the proposed novation; and
 - (2) it has notified the State of such reasons.
- (f) **(If the Builder withholds consent):** If the Builder withholds its consent to a Novation Notice under this clause 8.3, this will not prejudice the ability of the State to give one or more subsequent Novation Notices, and information under clause 8.3(a), containing changed particulars relating to the same Substitute Party or particulars relating to another Substitute Party.

8.4 Accrued obligations and liabilities

Clause 8.2 does not operate to:

- (a) **(State not to assume):** require the State to assume any obligations or Liabilities arising from, or which are required to be performed in connection with the Building Contract prior to the Novation Notice Date unless expressly required to do so in clause 8.2; or
- (b) **(Release the Developer):** release the Developer from such obligations or Liabilities unless expressly provided for in clause 8.2.

 - (3) thirdly, if:
 - (A) the dispute remains unresolved (in whole or in part) after the expiration of the period for negotiation referred to in clause 9.2(c)(1) and irrespective of whether the Disputing Parties failed to meet as required by that clause or whether having so met the Disputing Parties failed to agree whether the Dispute should be referred to an expert or to arbitration within 20 Business Days after the expiration of the period for negotiation referred to in clause 9.2(c)(1);
 - (B) the dispute has been referred to expert determination and a determination is not made by the expert within 30 days after the expert's acceptance of appointment; or

- (2) any agreement reached between the Representatives will be reduced to writing, signed by or on behalf of each Disputing Party and will be contractually binding on the Disputing Parties.

- (b) **(referral to expert)**: the Disputing Parties agree within 20 Business Days after the expiration of the period for negotiation referred to in clause 9.2(c)(1), that the dispute be referred to an expert for determination,

- (a) **(Exchange of lists of 3 preferred experts)**: Within 7 Business Days after the date on which the Disputing Parties agree to refer a dispute to an expert for determination under clause 9.3, the Disputing Parties must exchange lists of 3 persons (in order of preference) who, if appointed, would satisfy the requirements of clause 9.4(d), from whom the expert is to be chosen.
- (b) **(Appointment of person who appears on both lists)**: Any person who appears on the list of all Disputing Parties exchanged under clause 9.4(a) will be appointed as the expert to determine a dispute and if more than one person appears on the list of all Disputing Parties, the person given the highest order of priority by the party who gave the notice under clause 9.2(a) will be appointed.

within 7 Business Days of the exchange of notices under clause 9.4(a).

9.6 Expert finding

- (a) **(Notification):** The determination of the expert must be in writing and will be final and binding on the Disputing Parties unless, within 10 Business Days of receipt of the determination, a Disputing Party gives notice to each other Disputing Party of its dissatisfaction and intention to refer the matter to arbitration in accordance with clause 10.

10 Arbitration

10.1 Reference to Arbitration

- (a) **(Dispute)**: If:
 - (1) a dispute:

10.2 Arbitration

- (a) **(ACICA Rules)**: Arbitration in accordance with this clause 10 will be conducted in accordance with the arbitration rules of the Australian Centre for International Commercial Arbitration (known as the ACICA Rules) as current at the date the Dispute is referred to arbitration and as otherwise set out in this clause 10 with this clause 10 having priority to the extent of any inconsistency.

- (1) they have chosen arbitration for the purposes of achieving a just, quick and cost-effective resolution of any dispute;
 - (2) any arbitration conducted in accordance with this clause 10 will not necessarily mimic court proceedings of the seat of the arbitration or the place where hearings take place (if different), and the practices of those courts will not regulate the conduct of the proceedings before the arbitrator; and
 - (3) in conducting the arbitration, the arbitrator must take into account the matters set out in clauses 10.4(a)(1) and 10.4(a)(2).
- (b) **(Evidence in writing):** All evidence in chief must be in writing unless otherwise ordered by the arbitrator.

 - (4) the oral hearing must be conducted on a stop clock basis with the effect that the time available to the Disputing Parties must be split equally between the Disputing Parties so that each party has the same time to conduct its case unless, in the opinion of the arbitrator, such a split would breach the rules of natural justice or is otherwise unfair to one of the Disputing Parties;
 - (5) not less than 28 days prior to the date fixed for oral hearing each of the Disputing Parties must give notice of those witnesses (both factual and expert) of each other Disputing Party that it wishes to attend the hearing for cross examination;

- (7) a Disputing Party will not be bound to accept the written evidence of a witness submitted on behalf of an opposing Disputing Party which is not challenged in cross examination; and
 - (8) each Disputing Party is expected to put its case on significant issues in cross examination of a relevant witness called by the other Disputing Party or, where it seeks to challenge the evidence of a witness not called for cross-examination by reference to other evidence, to identify that evidence in its written opening submissions so that the other Disputing Party may know the nature of and basis for the challenge to the witness' written evidence.
- (e) **(Experts):** Unless otherwise ordered each Disputing Party may only rely upon one expert witness in connection with any recognised area of specialisation.

10.5 Proportional liability

To the extent permitted by Law, the arbitrator will have no power to apply or to have regard to the provisions of any proportional liability legislation which might, in the absence of this clause 10.5, have applied to any dispute referred to arbitration in accordance with this clause 10.

10.9 Governing law of arbitration agreement

The Law governing this arbitration agreement is the law of Victoria, Australia.

10.10 Interlocutory relief

- (b) **(Not to prejudice):** The Developer and the Builder must each ensure that it does not do or omit to do anything or does not permit anything to be done or omitted to be done whereby any insurance policy required under the Building Contract may be prejudiced.
- (c) **(Void or Voidable):** If any default occurs by the Builder in effecting or maintaining such insurance policy or if any such insurance policy becomes void or voidable, the State may (but is not obliged to) effect or maintain that Insurance policy at the cost of the Builder or, failing it, the Developer.
- (d) **(State to be covered):** If required by the Commercial Development Agreement, in respect of any insurance contract entered into by the Builder as contemplated by clause 12(a), the Builder must ensure that the State and the State's Associates are specified as a person to whom the insurance cover provided by that contract extends.
- (e) **(All documents, evidence and information):** The Developer and the Builder must each do all things necessary and provide all documents, evidence and information necessary to enable the State to collect or recover any moneys due or to become due to the State in respect of any insurance policy required under the Building Contract at the cost of the Builder or, failing it, the Developer.
- (f) **(Cancellation, lapse or material change):** Without prejudice to clauses 12(a) to 12(e), neither the Developer nor the Builder will cause or take any steps to bring about the cancellation, lapse, material change, reduction or any rescinding of any such insurance policy unless it has first obtained the consent of the State.

- (g) **(Notify the State):** The Developer and the Builder must each immediately notify the State of any cancellation, lapse, material change, reduction, or any rescinding of any such insurance policy, and of the occurrence of any event giving rise to any claim under any such insurance policy in respect of the Oversight Development.
- (h) **(Several obligations):** Notwithstanding clause 1.3(o), but subject to the obligations of the Developer under the terms of the Commercial Development Agreement, the obligations of the Developer and the Builder in this clause 12 are several.

- (a) **(GST exclusive amounts):** Unless otherwise expressly stated, all amounts referred to in this Deed, the Building Contract, or any Commercial Development Agreement are exclusive of GST.
- (b) **(GST payable by Supplier):** If GST becomes payable on any Taxable Supply made by a party (**Supplier**) under or in connection with this Deed:
 - (1) any amount payable or consideration to be provided in accordance with any other provision of this Deed for that supply (**Agreed Amount**) is exclusive of GST;
 - (2) an additional amount will be payable by the party which is the recipient of the Taxable Supply (**Recipient**), equal to the amount of GST payable on that Taxable Supply as calculated by the Supplier in accordance with the GST Law, payable at the same time and in the same manner as for the Agreed Amount; and
 - (3) the Supplier will provide a Tax Invoice to the Recipient in connection with that supply, either at the time expressly set out in any other provision of this Deed or no later than the time at which the Agreed Amount for that Taxable Supply is to be provided in accordance with this Deed. The Recipient is not obliged to pay any amount in accordance with this clause 13(b) unless and until a Tax Invoice is received by the Recipient in connection with the Taxable Supply except where the Recipient is required to issue the Tax Invoice.
- (c) **(Variation in GST payable):** If for any reason, the GST payable by the Supplier in connection with a supply it makes under or in connection with this Deed (incorporating any increasing adjustments or decreasing adjustments relating to that supply) varies from the additional amount it received from the Recipient under clause 13(b) in connection with that supply, the Supplier will provide a refund or credit to, or will be entitled to receive from, the Recipient (as appropriate) the amount of this variation. Where an adjustment event occurs in relation to a supply and except where the Recipient is required to issue the Adjustment Note:
 - (1) the Supplier will issue an Adjustment Note to the Recipient in connection with that supply within 14 days after becoming aware of that adjustment event occurring; and
 - (2) no additional amount will be payable by the Recipient unless and until an Adjustment Note is received by the Recipient.
- (d) **(GST ceasing to be payable):** No amount is payable by a party in accordance with clause 13(b) or 13(c) to the extent that the GST to which the amount

relates has ceased to be payable by or refundable to the Supplier by the Commissioner of Taxation under the GST Law.

- (e) **(Expert determination):** If the Recipient is dissatisfied with any calculation to be made by the Supplier in accordance with this clause 13 the Recipient may, at its own expense and after notifying the Supplier accordingly, refer the matter to an independent expert nominated by the President of the Institute of Chartered Accountants for expert determination, which will be final and binding on all parties (except in the case of manifest error on the face of the expert determination). The expert will act as an expert and not as an arbitrator and must take into account the terms of this Deed, the matters required to be taken into account by the Supplier in accordance with this clause 13 and any other matter considered by the expert to be relevant to the determination. The parties release the expert from any liability in acting as an expert, except in the case of fraud on the part of the expert.
- (f) **(Revenue net of GST):** Any reference in this Deed to price, value, sales, revenue, profit or a similar amount (**Revenue**) is a reference to the GST exclusive component of that Revenue, unless the contrary intention is expressed.
- (g) **(Cost net of GST):** Any reference in this Deed to cost, expense, liability or other similar amount (**Cost**) of a party is a reference to that Cost reduced by the Input Tax Credits to which the party is entitled in respect of such Cost, unless the contrary intention is expressed.

- (i) **(GST Groups):** For the purposes of this Deed, a reference to GST payable on a Taxable Supply made by a party includes any corresponding GST payable by the representative member of any GST group of which that party is a member and a reference to an input tax credit entitlement of a party includes any corresponding input tax credit entitlement of the representative member of any GST group of which that party is a member.
- (j) **(Definitions):** In this clause 13 unless otherwise defined in this Deed, terms used have the meanings given to them in the GST Law.

The Station Land Management Agreement will contain a set of rules that regulate the management and operation of the Station and the OSD. The Station Land Management Agreement is intended to facilitate the efficient and cost effective management and operation of the Controlled Parts of the Station and the OSD and the use and payment of the Controlled Parts amongst the State and the OSD Owner.

1.2 Management Committee

The Station Land Management Agreement will require the parties (other than Project Co) to form a Management Committee. The Management Committee is responsible for overseeing the operation and management of the Controlled Parts of the Station and the OSD on behalf of the State and the OSD Owner.

1.3 Project Co

Except as otherwise expressly set out in this term sheet as an obligation of Project Co (and excluding all of the more general references to other parties in this term sheet), Project Co will be a party to the Station Land Management Agreement for the purpose only of deriving the benefit of the obligations imposed on the OSD Owner contemplated by the following paragraphs:

- (a) 2.2(e), which contemplates an obligation on the OSD Owner to provide Project Co and its subcontractors with access to the OSD and Public Realm Areas to:
 - (i) inspect, maintain and repair the Maintained Assets and to reattach and maintain Station lighting, sprinklers and the like which are attached to the OSD; and
 - (ii) undertake the Permitted Commercial Opportunities and carry out the Maintenance Services;
- (b) 6.1(c), which contemplates the State and the OSD Owner being required to prepare and agree with Project Co a protocol for the use and maintenance of any facilities shared by the Station and the OSD which each party must comply with;
- (c) 6.1(d), which contemplates an obligation on the OSD Owner not to damage the Maintained Assets or the Commercial Opportunities Works, not to interfere with or disrupt the carrying out by Project Co of the Maintenance Services or the pursuit of the Permitted Commercial Opportunities;
- (d) 6.1(e), which contemplates an obligation on the OSD Owner to rectify any damage it causes to the Maintained Assets or Commercial Opportunities Works (and if not rectified by a time agreed by the parties (acting reasonably) to reimburse Project Co for the cost and loss of doing so itself);
- (e) 6.1(h), which contemplates an obligation on the OSD Owner to progressively contribute to the cost to Project Co of maintaining and repairing those areas and elements within the Station that constitute Shared Infrastructure; and

To the extent possible, the Developer must advise the State of an impending delay in sufficient time to enable action to be taken to avoid the delay to the extent practicable.

21.2 Information

As soon as practicable but not later than 10 Business Days after a Delay Notice is given to the State, the Developer must give further notice to the State with supporting evidence (including details of the activities affected by any Extension Event which impacts Construction Commencement or the achievement of Final Completion) stating:

- (a) a fair and reasonable period by which, in the Developer's opinion:

the Developer must (if it wishes to claim an extension of time to the Construction Commencement Deadline or the Oversight Development Sunset Date, as applicable) as soon as practicable and, in any event, not later than 10 Business Days after the Developer first becomes aware of the delay or likely delay, give notice in writing (**Delay Notice**) to the State and the Independent Certifier stating the nature, cause and the extent of the Extension Event and the

- (c) Where there are several causes of a delay and at least one cause is not an Extension Event (unless that cause is immaterial), then to the extent that the delays resulting from those causes are concurrent, the Developer will not be entitled to any extension of time in accordance with this clause 21.
- (d) A delay caused by any act or omission of the State or any of its Associates, or any failure by the State to comply with this clause 21 will not cause the Construction Commencement Deadline or the Oversight Development Sunset Date to be set at large but nothing in this paragraph will prejudice any right of the Developer to damages for breach of this Agreement by the State.

21.5 Approval of Extension

If an Extension Event occurs and the Independent Certifier determines in accordance with clause 21.4(a) that the Construction Commencement Deadline and/or the Oversight Development Sunset Date should be extended then:

- (a) the Developer will, subject to clause 21.7, be entitled to an extension;
- (b) the Construction Commencement Deadline and/or the Oversight Development Sunset Date (as applicable) will be extended as determined by the Independent Certifier pursuant to clause 21.4(a); and
- (c) the Developer must provide to the State upon request an updated Coordination Plan which details the changes to the construction program included in the Coordination Plan as a result of the Extension Event.

- (a) **(GST exclusive amounts):** Unless otherwise expressly stated, all amounts referred to in this Agreement or any other Oversight Development Agreement are exclusive of GST.

 - (1) any amount payable or consideration to be provided in accordance with any other provision of this Agreement for that supply (**Agreed Amount**) is exclusive of GST;
 - (2) an additional amount will be payable by the party which is the recipient of the Taxable Supply (**Recipient**), equal to the amount of GST payable on that Taxable Supply as calculated by the Supplier in accordance with the GST Law, which will be payable at the same time and in the same manner as for the Agreed Amount; and

- (3) the Supplier will provide a Tax Invoice to the Recipient in connection with that supply, either at the time expressly set out in any other provision of this Agreement or no later than the time at which the Agreed Amount for that Taxable Supply is to be provided in accordance with this Agreement. - (c) **(Variation in GST payable):** If for any reason, the GST payable by the Supplier in connection with a supply it makes under or in connection with this Agreement (incorporating any increasing adjustments or decreasing adjustments relating to that supply) varies from the additional amount it received from the Recipient under clause 33(b) in connection with that supply, the Supplier will provide a refund or credit to, or will be entitled to receive from, the Recipient (as appropriate) the amount of this variation. The expert will act as an expert and not as an arbitrator and must take into account the terms of this Agreement, the matters required to be taken into account by the Supplier in accordance with this clause 60 and any other matter considered by the expert to be relevant to the determination. The parties release the expert from any liability in acting as an expert, except in the case of fraud on the part of the expert.

- (g) **(Cost net of GST):** Any reference in this Agreement or any Oversight Development Agreement Document to cost, expense, liability or other similar amount (**Cost**) of a party, is a reference to that Cost reduced by the Input Tax Credits to which the party is entitled in respect of such Cost, unless the contrary intention is expressed.

 - (j) **(GST Groups):** For the purposes of this Agreement, a reference to GST payable on a Taxable Supply made by a party includes any corresponding GST payable by the representative member of any GST group of which that party is a member and a reference to an Input Tax Credit entitlement of a party includes any corresponding Input Tax Credit entitlement of the representative member of any GST group of which that party is a member, and if a party to this Agreement makes a Taxable Supply by virtue of entering into or performing this Agreement and the 'recipient' of that Taxable Supply (within the meaning of the GST Act) is an Associate of another party to this Agreement (which for this purpose includes, in relation to the State, the Secretary), that other party to this Agreement will be obliged either to pay the amount referred to in clause 33(b)(2) or procure that the actual recipient pays the relevant amount, and the payer of that amount shall be the 'Recipient' for the purposes of this clause 33 in relation to the relevant Taxable Supply.
 - (k) **(Agreement to prevail):** If, but for this clause 33(k), a GST clause in another Oversight Development Agreement Document would apply in connection with a Taxable Supply to which this clause 33 also applies, then this clause 33 will apply in connection with that supply and the GST clause in the other Oversight Development Agreement Document will not apply.

LEASE

The parties covenant with each other as follows:

1 Term and Overholding

1.1 Expiry Date

Each party is authorised to insert:

- (a) the date in the definition of Final Completion Date; and
- (b) the Expiry Date,

into this Lease once Final Completion (as defined in the Development Agreement) has occurred.

1.2 Holding Over

- (a) The Lessee becomes a monthly lessee if the Lessee continues to occupy the Land after the end of the Lease without protest by the Lessor and other than pursuant to the grant of a further lease.
- (b) Subject to clause 1.2(a), the monthly tenancy is on the terms and at the rent the Lessor specifies but if the Lessor does not specify the terms or the rent, the monthly tenancy is on the same terms as apply during the Term of this Lease (so far as those terms are applicable to a monthly tenancy) with a monthly rent that is one twelfth of the Rent.

2 Payments

2.1 Rent

- (a) The Lessee must pay the Rent to the Lessor if demanded.
- (b) In addition to the Rent, the Lessee must pay to the Lessor the Capital Sum in accordance with the terms of the Development Agreement.

2.2 Outgoings

- (a) The Lessee must pay to the Relevant Authority or reimburse the Lessor all rates, charges, State and Federal land tax and other property taxes, assessments, charges, costs and expenses which are assessed or may at any time be payable in respect of the Land so that there is no cost to the Lessor in owning the Land and as if the Land was owned by the Lessee. The Lessor must promptly refer to the Lessee any notices, rates, assessments the Lessor receives in relation to the Land as promptly as reasonably possible in order that the Lessee may meet its obligations under this clause.

- (b) To the extent that the rates and taxes referred to in clause 2.2(a) are separately assessed in respect of the Land, the Lessee must pay to the Relevant Authority or reimburse the Lessor on demand all such rates and taxes.
- (c) If the Land is not separately assessed the Lessee must pay the Lessor the proportion of the rates and taxes referred to in clause 2.2(a) that the area of the Land bears to the total area assessed.

2.3 Objection to valuation

- (a) The Lessor must promptly notify the Lessee in writing of all valuations of the Land made by a Relevant Authority which are issued in the name of the Lessor to enable the Lessee to assess whether it wishes to object to the valuation.
- (b) If the Lessee (acting reasonably) wishes to object to the valuation, the Lessee must give the Lessor a notice which includes reasonable details of the basis of the Lessee's objection, within 20 Business Days of receiving a notice under clause 2.3(a).
- (c) The Lessor must permit the Lessee to object to any valuation identified in a notice from the Lessee under clause 2.3(b), and for that purpose use the Lessor's name provided that:
 - (1) the Lessee will be responsible for all costs payable by the Lessor as a result of the Lessee's objection; and
 - (2) the Lessee must neither propose any compromise agreement to the Relevant Authority, nor reach any compromise agreement with the Authority, without the prior consent in writing of the Lessor, which will be not unreasonably withheld.

- (b) Any amount referred to in this Lease which is relevant in determining a payment to be made by one of the parties to the other is, unless indicated otherwise, a reference to that amount expressed on a GST exclusive basis.
- (c) If GST is imposed on a supply made under or in connection with this Lease the consideration for the supply is increased by an amount equal to the consideration otherwise payable for the supply multiplied by the rate at which the GST is imposed under the GST Act. The additional consideration is, subject to the supplier issuing a tax invoice to the recipient, payable at the same time and in the same manner as the consideration to which it relates.
- (d) If a party refunds to the other party any consideration for a taxable supply, that party must also refund an amount in respect of any amount paid on account of GST in respect of that taxable supply.
- (e) If one of the parties to this Lease is entitled to be reimbursed or indemnified for a loss, cost, expense or outgoing incurred in connection with this Lease, then

the amount of the reimbursement or indemnity payment must be reduced by an amount equal to any input tax credit to which the party being reimbursed or indemnified (or its representative member) is entitled in relation to that loss, cost, expense or outgoing.

3.2 Lessee's assumption of responsibilities

The Lessee uses and occupies the Land and the Lessee's improvements at the Lessee's own risk and agrees to take and be subject to the same responsibilities to which it would be subject in respect of persons and property if, during the Term, it was the owner and occupier of the freehold of the Land and the Lessee indemnifies and will keep the Lessor indemnified in that regard.

Urban Design Principles

1 Purpose

A large body of design guidance is available for developments similar to the Oversight Development. The Metro Tunnel Urban Design Strategy has sought to consolidate and distil this advice into something that address the particular and site specific needs of the Project, while relevant to the integration elements of Oversight Development, specifically relate to transport infrastructure.

The *Metro Tunnel Project Urban Context Report, CBD South Oversight Development* (Jones and Whitehead) (16 October 2017) CBD provides the similarly consolidated and distilled urban design guidance for the Oversight Development.

The Oversight Development must comply with the *Metro Tunnel Project Urban Context Report, CBD South Oversight Development* (Jones and Whitehead) (16 October 2017).

The following statements are provided to articulate the architectural design principles and aspirations, specific to the Oversight Development.

2 Architectural principles

The Oversight Development's architectural design will set a new quality benchmark for urban renewal. The design must reinforce the character values of the precinct providing a high quality and defining architectural legacy, through contemporary built form and expression and an innovative program.

3 Precinct vision - CBD South

The Swanston Street and Flinders Street corner is framed by CBD South station precinct. It is one of Melbourne's most significant and well known corners with the station entrance hugging both sides of the famous Young and Jackson's hotel. This location is in the 'heart' of the CBD, in the vicinity of Flinders Street Station's clocks - a celebrated meeting place for generations of Melburnians - and at the nexus of access to the neighbouring arts, sports, entertainment, commercial and retail precincts.

The Oversight Development will be embedded into the local laneway network to the northwest of the intersection of Swanston and Flinders Streets, and will be flanked by the vibrant laneway culture of Degraeves Street and Centre Place.

Here, historically and architecturally significant buildings, such as the Manchester Unity Building, Federation Square, Flinders Street Station, St Paul's Cathedral, Melbourne Town Hall and the Capitol Theatre, meet Melbourne's famous, vibrant laneways lined with bars, cafes, restaurants, shops and street art.

The cultural and architectural significance of this location merits a thoughtful urban

response that successfully integrates the CBD South station entry and Oversight Development with its laneway setting and culture while being cognisant of the vistas and view lines to and from Melbourne's heritage buildings, landmarks and icons.

The Oversight Development's architectural design quality must:

- respond to and celebrate the significance of its location;
- work to maximise the legibility of the station entry and contribute to the quality of the public realm;
- support the diversity and vitality of the precinct and contribute to Melbourne as Victoria's foremost commercial centre; and
- recognise, respond to and positively influence the civic qualities and street culture, of this vital, heart of the city.

The Oversight Development's architecture must work to support the legibility of the station entries and the efficient workings of all aspects of the Station, and will consider how future renewal of the Oversight Development site may occur beyond the economic life of the Oversight Development without compromising vital station operations.

The design for the Oversight Development must enhance the experience of the public realm and the vitality of the city. In this sensitive, vibrant, central Melbourne location where space is limited and civic expectations and demand are high, a successful design response will be thoughtful, creative and holistic in its approach to the challenge of integrating high density, mixed-use development with significant public transport infrastructure.

1. What is the Station Land Management Agreement?

1.1 Management of Station and the Oversight Development

The Station Land Management Agreement will contain a set of rules that regulate the management and operation of the Station and the OSD. The Station Land Management Agreement is intended to facilitate the efficient and cost effective management and operation of the Controlled Parts of the Station and the OSD and the use and payment of the Controlled Parts amongst the State and the OSD Sub-landlord.

1.2 Management Committee

The Station Land Management Agreement will require the parties (other than Project Co) to form a Management Committee. The Management Committee is responsible for overseeing the operation and management of the Controlled Parts of the Station and the OSD on behalf of the State and the OSD Sub-landlord.

1.3 Project Co

Except as otherwise expressly set out in this term sheet as an obligation of Project Co (and excluding all of the more general references to the parties in this term sheet), Project Co will be a party to the Station Land Management Agreement for the purpose only of deriving the benefit of the obligations imposed on the OSD Sub-landlord contemplated by the following paragraphs:

- (a) 2.2(e), which contemplates an obligation on the OSD Sub-landlord to provide Project Co and its subcontractors with access to the OSD and Public Realm Areas to:

5.9 Step-In by the State

- (a) **(Rights):** Subject to the Finance Direct Deed, the State may at any time during a Step-In Period, exercise all or any of its rights and carry out all or any of the obligations of the Developer in connection with the Building Contract, as if it were the Developer to the exclusion of the Developer.
- (b) **(No Liability):** The Developer and the Builder each agree that, subject to clause 5.10(b):

 - (A) entitled to exercise the rights of the Developer under the Building Contract (excluding any accrued rights of the Developer in respect of any damage, loss, cost, charge, expense, outgoing or payment to the extent that the rights arose prior to the Assumption Date) (**Developer's Rights**); and
 - (B) liable for the performance or non-performance of all the Developer's obligations under the Building Contract arising on or after the Assumption Date except as released in accordance with clause 5.10(e);
 - (2) as between the Developer, the Builder and the Additional Obligor, only the Additional Obligor is authorised to deal with the Builder and to exercise the Developer's Rights;

For the avoidance of doubt, on and from the Additional Obligor Step-Out Date, the Builder will continue to owe their obligations under the Building Contract to:
- (1) the Developer; or
 - (2) if a Novation Notice has been given, to the Substitute Party.

- (b) **(Builder's obligations to continue):** If the State issues a Novation Notice then (without prejudice to the Builder's rights under clauses 5.2 and 5.3) the Builder, until the Novation Notice Date, must continue to perform their respective obligations under the Building Contract.
- (c) **(Novation Notice not a Default Event):** The Builder each acknowledge that the giving of a Novation Notice by the State will not of itself contravene, or constitute a Default Event under, the Building Contract, or entitle the Builder to exercise any power (including termination) under it.

6.2 Novation to Substitute Party

- (a) **(Effect of novation):** Subject to clause 6.3, with effect from the Novation Notice Date:
- (1) the Substitute Party will assume (and if the Substitute Party is not the State, the State will procure that the Substitute Party assumes):
 - (A) any obligation of the Developer under the Building Contract arising before the Novation Notice Date insofar as it relates to the payment of an amount of money that:

- 1) is due and payable under the terms of the Building Contract; and
 - 2) is not the subject of a dispute under the Building Contract (or is the subject of a dispute under the Building Contract in which case the Substitute Party will, on the determination of such dispute, assume such obligations in accordance with that determination); and
- (B) the obligations of the Developer under the Building Contract arising on and from the Novation Notice Date (including obligations in relation to the payment of amounts which become due and payable in respect of work performed before the Novation Notice Date) subject to any amendments to the Building Contract agreed in accordance with clause 6.2(a)(6);
- (2) without prejudice to any then accrued rights against the Developer (other than termination), any Builder's right to suspend under the Building Contract which exists at the Novation Notice Date will be of no further effect;
- (3) subject to any amendments agreed to the Building Contract in accordance with clause 6.2(a)(6), the Substitute Party will have all the rights of the Developer under the Building Contract (excluding any accrued rights of the Developer in respect of any damage, loss, cost, charge, expense, outgoing or payment to the extent that those rights arose prior to the Novation Notice Date and are the subject of any unresolved dispute referred to in clause 6.2(a)(1)(A)2));
- (4) subject to clause 6.2(a)(3) and any amendments agreed to the Building Contract in accordance with clause 6.2(a)(6), the Builder will:

 - (B) be entitled to any extensions of time and other entitlements which accrued to the Builder prior to the Novation Notice Date;
- (5) the Developer is released from all of its obligations and Liabilities under the Building Contract, excluding any accrued obligations or Liabilities of the Developer to the extent that those accrued obligations or Liabilities:
 - (A) arose in connection with events occurring prior to the Novation Notice Date; and
 - (B) are not obligations and Liabilities assumed by the Substitute Party under clause 6.2(a)(1);
- (6) the Builder and the Substitute Party will promptly negotiate in good faith, any amendments to the Building Contract that are necessary to reflect the termination of the Commercial Development Agreement; and
- (7) for the avoidance of doubt, any caps on Liability in the Building Contract will continue to apply, but so that any Liability of the Builder incurred to the Developer prior to the Novation Notice Date is taken

into account in respect of any ongoing Liability of the Builder to the Substitute Party.

- (b) **(No set off):** The Builder is not entitled to exercise any right of set off, deduction, abatement or counterclaim against the Substitute Party if, and to the extent that, such right arose prior to the Novation Notice Date.

- (d) **(Attorney):** For valuable consideration, the Developer and the Builder each irrevocably appoint the State, on its behalf and in its name or otherwise, as its attorney to do anything which the Developer or the Builder is obliged to do (but has not done within 5 Business Days of request) under clause 6.2(c). Each of the Developer and the Builder ratifies and confirms and agrees to ratify and confirm whatever any such attorney lawfully does in the exercise of the power of attorney in this clause 6.2(d).

6.3 Novation to a Substitute Party other than the State

- (a) **(Information to be provided by the State):** If the State gives a Novation Notice that states that the Developer must novate the Building Contract Documents to a Substitute Party other than the State or a State Associate, the State must, at the time it gives the Novation Notice, provide to the Builder the following particulars of the Substitute Party:
 - (1) its name, place of incorporation and identity of shareholder(s) (including, unless a shareholder is listed on a securities exchange, the ultimate shareholders);
 - (2) if available, its most recent published audited accounts; and

- (b) **(Consent by the Builder):** A novation to, and the giving of a Novation Notice with respect to, a Substitute Party other than the State or a State Associate in accordance with this clause 6 will only be effective, and the Builder will only be required to enter into a novation agreement under clause 6.2(c), if the Builder each consent to that novation (such consent not to be unreasonably withheld or delayed) or are deemed to have consented in accordance with clause 6.3(d).
- (c) **(Further information):** The State must as soon as practicable supply the Builder with such additional information to that provided under clause 6.3(a) as the Builder each reasonably require to enable it to decide whether to grant consent under clause 6.3(b), and the Builder must each consider such information expeditiously and inform the State promptly if it reasonably requires further information.
- (d) **(Deemed consent):** The Builder' consent to the novation will be deemed to be given if the Builder have not notified the State under clause 6.3(e)(2) within 15 Business Days of the later of:

 - (2) the receipt of the State's response to the Builder' request for information under clause 6.3(c).
- (e) **(Unreasonably withholding consent):** The Builder is not entitled to refuse consent to the novation unless:

 - (B) the Substitute Party not having the legal capacity, power and authorisation to become a party to and perform the obligations of the Developer in accordance with the Building Contract including any necessary authorisations and consents;
 - (C) the technical competence or financial standing of the Substitute Party being insufficient for it to meet the obligations of the Developer in accordance with the Building Contract; or
 - (D) the Builder being placed in breach of any Laws by the proposed novation; and
 - (2) it has notified the State of such reasons.
- (f) **(If the Builder withholds consent):** If either Builder withholds its consent to a Novation Notice under this clause 6.3, this will not prejudice the ability of the State to give one or more subsequent Novation Notices, and information under clause 6.3(a), containing changed particulars relating to the same Substitute Party or particulars relating to another Substitute Party.

Clause 6.2 does not operate to:

- (b) **(GST payable by Supplier):** If GST becomes payable on any Taxable Supply made by a party (**Supplier**) under or in connection with this Deed:
- (1) any amount payable or consideration to be provided in accordance with any other provision of this Deed for that supply (**Agreed Amount**) is exclusive of GST;
 - (2) an additional amount will be payable by the party which is the recipient of the Taxable Supply (**Recipient**), equal to the amount of GST payable on that Taxable Supply as calculated by the Supplier in accordance with the GST Law, payable at the same time and in the same manner as for the Agreed Amount; and
 - (3) the Supplier will provide a Tax Invoice to the Recipient in connection with that supply, either at the time expressly set out in any other provision of this Deed or no later than the time at which the Agreed Amount for that Taxable Supply is to be provided in accordance with this Deed. The Recipient is not obliged to pay any amount in accordance with this clause 11(b) unless and until a Tax Invoice is received by the Recipient in connection with the Taxable Supply except where the Recipient is required to issue the Tax Invoice.
- (c) **(Variation in GST payable):** If for any reason, the GST payable by the Supplier in connection with a supply it makes under or in connection with this Deed (incorporating any increasing adjustments or decreasing adjustments relating to that supply) varies from the additional amount it received from the Recipient under clause 11(b) in connection with that supply, the Supplier will provide a refund or credit to, or will be entitled to receive from, the Recipient (as appropriate) the amount of this variation. Where an adjustment event occurs in relation to a supply and except where the Recipient is required to issue the Adjustment Note:
- (1) the Supplier will issue an Adjustment Note to the Recipient in connection with that supply within 14 days after becoming aware of that adjustment event occurring; and

- (e) **(Expert determination):** If the Recipient is dissatisfied with any calculation to be made by the Supplier in accordance with this clause 11 the Recipient may, at its own expense and after notifying the Supplier accordingly, refer the matter to an independent expert nominated by the President of the Institute of Chartered Accountants for expert determination, which will be final and binding

on all parties (except in the case of manifest error on the face of the expert determination). The expert will act as an expert and not as an arbitrator and must take into account the terms of this Deed, the matters required to be taken into account by the Supplier in accordance with this clause 11 and any other matter considered by the expert to be relevant to the determination. The parties release the expert from any liability in acting as an expert, except in the case of fraud on the part of the expert.

- (f) **(Revenue net of GST):** Any reference in this Deed to price, value, sales, revenue, profit or a similar amount (**Revenue**) is a reference to the GST exclusive component of that Revenue, unless the contrary intention is expressed.
- (g) **(Cost net of GST):** Any reference in this Deed to cost, expense, liability or other similar amount (**Cost**) of a party is a reference to that Cost reduced by the Input Tax Credits to which the party is entitled in respect of such Cost, unless the contrary intention is expressed.
- (h) **(General obligation):** Each party agrees to do all things, including providing Tax Invoices and other documentation, that may be necessary or desirable to enable or assist the other party in determining its GST payable on any supply made by that other party in connection with this Deed, or any input tax credits, adjustments or refunds in relation to any amount of GST paid or payable in connection with any supply made in connection with this Deed.
- (i) **(GST Groups):** For the purposes of this Deed, a reference to GST payable on a Taxable Supply made by a party includes any corresponding GST payable by the representative member of any GST group of which that party is a member and a reference to an input tax credit entitlement of a party includes any corresponding input tax credit entitlement of the representative member of any GST group of which that party is a member.
- (j) **(Definitions):** In this clause 11 unless otherwise defined in this Deed, terms used have the meanings given to them in the GST Law.

 - (ii) the date and duration of the oral hearing must be fixed by the arbitrator at the first preliminary conference. The arbitrator must have regard to the principles set out in clause 14.4(a) when determining the duration of the oral hearing;
 - (iii) oral evidence in chief at the hearing will be permitted only with the permission of the arbitrator for good cause;
 - (iv) the oral hearing must be conducted on a stop clock basis with the effect that the time available to the parties must be split equally between the parties so that each party has the same time to conduct its case unless in the opinion of the arbitrator, such a split would breach the rules of natural justice or is otherwise unfair to one of the parties;
 - (v) not less than 28 days prior to the date fixed for oral hearing each of the Disputing Parties must give notice of those witnesses (both factual and expert) of each other Disputing Party that it wishes to attend the hearing for cross examination;

- (vi) in exceptional circumstances the arbitrator may amend the date of hearing and extend the time for the oral hearing set in accordance with clause 14.4(d)(ii);
 - (vii) a Disputing Party will not be bound to accept the written evidence of a witness submitted on behalf of the opposing party which is not challenged in cross examination; and
 - (viii) each Disputing Party is expected to put its case on significant issues in cross examination of a relevant witness called by the other Disputing Party or, where it seeks to challenge the evidence of a witness not called for cross-examination by reference to other evidence, to identify that evidence in its written opening submissions so that the other Disputing Party may know the nature of and basis for the challenge to the witness' written evidence.
- (e) (**Experts**): Unless otherwise ordered each Disputing Party may only rely upon one expert witness in connection with any recognised area of specialisation.

14.5 Proportional liability

To the extent permitted by Law, the arbitrator will have no power to apply or to have regard to the provisions of any proportional liability legislation which might, in the absence of this clause 14.5, have applied to any dispute referred to arbitration in accordance with this clause 14.

14.6 Extension of ambit of arbitration proceedings

- (a) (**Extending Disputes**): Where:
- (i) a dispute between the Disputing Parties to this Deed is referred to arbitration in accordance with this clause 14; and
 - (ii) there is some other dispute also between the Disputing Parties to and in accordance with this Deed (whenever occurring),
- (b) the arbitrator may, upon application being made to the arbitrator by one or more of the Disputing Parties at any time before a final award is made in relation to the first-mentioned dispute, make an order directing that the arbitration be extended so as to include the other dispute.
- (c) (**Arbitrator's order**): An arbitrator may make an order in accordance with clause 14.6(a) on such terms and conditions (if any) as the arbitrator thinks fit.

14.7 Award final and binding

- (a) (**Final and binding**): Subject to clause 14.7(b), any award will be final and binding on the Disputing Parties.
- (b) (**Appeal**): Each Disputing Party consents to any appeal to a court where that appeal is made under the *Commercial Arbitration Act 2011* (Vic) on a question of law arising in connection with an arbitral award made in accordance with this clause 14.

14.8 Continue to perform

Notwithstanding the existence of a dispute, each Disputing Party must continue to carry out its obligations in accordance with this Deed.

17. Confidentiality

- (a) The Provisions of clause [48] of the Commercial Development Agreement apply to this Deed as if set out in full.
- (b) The Investor agrees to be bound by clause [48] of the Commercial Development Agreement as if the Investor were the Developer in that document.

 - (ii) any Party as the general agent or any representative of any other Party.
- (b) No Party has the authority to pledge the credit of any other Party.

19. GST

19.1 Interpretation

- (a) Expressions which are not defined in this clause but which have a defined meaning in the GST Law have the same meaning in this Deed unless there is a contrary indication.
- (b) If a person is a member of a GST group, references to GST for which the person is liable and to input tax credits to which the person is entitled include GST for which the

representative member of the GST group is liable and input tax credits to which the representative member is entitled.

- (c) GST, input tax credit or adjustment includes notional equivalents applying to the Commonwealth, a State, Territory, local government and any other relevant government body, body corporate or other entity.
- (d) Any part of a supply that is treated as a separate supply for GST purposes (including attributing GST payable to tax periods) will be treated as a separate supply for the purposes of this clause 19.
- (e) A reference to something done (including a supply made) by a Party includes a reference to something done by any entity through which that Party acts.
- (f) **GST Amount** means an amount equal to the GST payable on a supply;

The Parties agree that:

- (a) unless otherwise expressly stated and except to the extent that clause 19.4 applies to the non-monetary consideration for a supply, all Payments have been calculated without regard to GST;
- (b) if the whole or any part of any Payment is the consideration for a taxable supply for which the payee (**Supplier**) is liable to GST, the payer (**Recipient**) must pay to the Supplier an additional amount equal to the GST Amount. Any GST Amount is payable concurrently with the Payment, subject to the Supplier issuing a tax invoice;
- (c) any reference to a cost or expense in this Deed excludes any amount in respect of GST forming part of the relevant cost or expense when incurred by the relevant Party for which that Party can claim an input tax credit.

19.3 Variation

- (a) If the GST Amount properly payable in relation to a supply varies from the additional amount paid by the Recipient under clause 19.2, then the Supplier will provide a corresponding refund or credit to, or will be entitled to receive the amount of that variation from, the Recipient. Any payment, credit or refund under this clause 19.3 is deemed to be a payment, credit or refund of the GST Amount payable under clause 19.2.
- (b) The Supplier must issue an adjustment note to the Recipient in respect of any adjustment event occurring in relation to a supply made under or in connection with this Deed as soon as reasonably practicable after the Supplier becomes aware of the adjustment event.

19.4 Exchange of non-monetary consideration

- (a) To the extent that the consideration provided for the Supplier's taxable supply to which clause 19.2 applies is a taxable supply made by the Recipient attributed to the same tax period (**Recipient Supply**), the GST Amount payable by the Recipient to the Supplier in accordance with clause 19.2 shall be set off against the amount of GST Amount payable by the Supplier in respect of the Recipient Supply.
- (b) The Recipient must issue to the Supplier a tax invoice for any Recipient Supply on or before the time at which the Recipient must pay the GST Amount in accordance with clause 19.2.

19.5 Reimbursements

Any payment or reimbursement required to be made under this Deed that is calculated by reference to a cost or other amount paid or incurred will be limited to the total cost or amount less the amount of any input tax credit to which an entity is entitled for the acquisition to which the cost or amount relates.

19.6 The margin scheme

- (a) The Parties agree that unless a notice is served by the Investor to the State under clause 19.6(b), the margin scheme, as set out in Division 75 of the GST Act, will not be applied to work out the GST payable on the supply of real property under or in connection with this Deed.
- (b) If no later than 30 business days prior to the Lease Commencement Date, and providing that the Investor has satisfied all of the conditions imposed on the Developer under clause 26.4 of the Commercial Development Agreement, the Investor provides written notice to the State that the Investor requires that the margin scheme be used in calculating the State' GST liability in relation to a supply of the Property under or in connection with this Deed, the State will apply the margin scheme to that supply.
- (c) If and to the extent that the State is required to obtain an Approved Valuation for the purposes of applying the margin scheme, the Investor agrees to obtain or procure, at its own cost, the Approved Valuation. The Investor will provide the State with a copy of any Approved Valuation no later than 20 Business Days prior to the day that the GST payable under the margin scheme is required to be calculated.

20.3 Duty

Without in any way limiting the State's Rights and Obligations under the Commercial Development Agreement, any duty or stamp duty (including fines, penalties and interest) payable on or in connection with this Deed must:

- (a) if the State is responsible for that duty or stamp duty in accordance with terms of the Commercial Development Agreement, be borne by the State; or
- (b) if clause 20.3(a) does not apply, be borne by the Investor.

21. General

21.1 Amendment

This Deed may only be amended by another written agreement executed by all the Parties.

21.2 No Waiver

A failure to exercise or a delay in exercising any right, power or remedy under this Deed does not operate as a waiver. A single or partial exercise or waiver of the exercise of any right, power or remedy does not preclude any other or further exercise of that or any other right, power or remedy. A waiver is not valid or binding on the party granting that waiver unless made in writing.

21.3 Further actions

Each Party must, at its own expense, do all things reasonably necessary to give full effect to this Deed and the transactions contemplated by this Deed.

21.4 Remedies cumulative

The rights, powers and remedies provided in this Deed are in addition to other rights, powers and remedies given by a Law independently of this Deed.

21.5 No Merger

- (b) Any Right or Obligation under this Deed which is capable of taking effect after termination of this Deed takes effect on termination of the Deed.

21.6 Jurisdiction

This Deed is governed by the laws of Victoria. Each Party submits to the jurisdiction of courts exercising jurisdiction there, and waives any right to claim that those courts are an inconvenient forum.

21.7 Counterparts

This Deed may be executed in any number of counterparts. All counterparts together will be taken to constitute one instrument.

21.8 Provisions can be severed

- (a) If a provision of this Deed is illegal or unenforceable then that provision must be severed from this Deed and the remaining provisions of this Deed continue in force, unless this would materially change the intended effect of this Deed.
- (b) If only part of a provision is illegal or unenforceable then this clause applies to that part.

21.9 Provisions limiting or excluding Liability, rights or obligations

- (a) A right of the State or an obligation of a party other than the State under this Deed will not limit or exclude any other right of the State or obligation of a party other than the State under this Deed unless expressly stated.
- (b) Any provision of this Deed which seeks, either expressly or by implication, to limit or exclude any liability of a party is to be construed as doing so only to the extent permitted by Law.

21.10 Approvals, directions and notices in writing

Unless otherwise expressly provided in this Deed or agreed between the parties, all approvals, consents, directions, requirements, requests, claims, notices, agreements and demands must be given in writing.

21.11 Prior approval or consent

Where the Investor is required by this Deed to obtain the State's consent or approval to an action, document or thing, unless otherwise expressly stated, that consent or approval must be obtained prior to the actions, document or thing occurring or coming into effect.

21.12 Action without delay

Unless there is a provision in this Deed which specifies a period of time in which something must be done by the parties, all things must be done without undue delay.

21.13 Inconsistency between Oversight Development Agreements

Where there is an inconsistency, ambiguity or discrepancy between this Deed and any other Oversight Development Agreement, or within or between any of the Oversight Development Agreements (excluding the Commercial Development Agreement), then the following order of precedence applies:

The Investor acknowledges that it has received a copy of the Oversight Development Agreements.

- (a) **(Acknowledgement):** The parties acknowledge the substance, operation and potential effect and consequences of clause 1.9 of the Commercial Development Agreement in relation to this Deed.
- (b) **(Liability for breach):** Clause 21.15(a) does not limit any Liability which the State would have had to the Developer or the Investor under any Oversight Development Agreement as a result of a breach by the State of a term of any Oversight Development Agreement to which it is a party but for clause 21.15(a).

- (2) The Franchisee or the State (as applicable) may:

the State will reimburse, or procure that PTV reimburses, the Franchisee for all costs reasonably incurred by the Franchisee in complying with its obligations under clause 3.2 and clause 22(b) of the Franchisee Cooperation Agreement, except where the Step-In Right is exercised by the State as a direct consequence of a breach by the Franchisee of its obligations under the Franchisee Cooperation Agreement.

 - (4) the Additional Obligor will be bound by any earlier decision, directions, approvals, notices or consents given or made prior to the Assumption Date;
 - (5) clause 12 will apply to the Franchisee and the Additional Obligor as if the address and email address of the Additional Obligor (as notified to the Franchisee and Project Co) were set out in addition to those of Project Co; and
 - (6) the Franchisee will owe its obligations under the Franchisee Cooperation Agreement to Project Co and the Additional Obligor jointly but the performance by the Franchisee in favour of either Project Co or the Additional Obligor will be a good discharge of the relevant obligations under the Franchisee Cooperation Agreement.

- (e) **(Unreasonably withholding consent):** The Franchisee is not entitled to refuse consent to a novation to a Substitute Party other than the State or a State Associate unless:
 - (1) the grounds for refusal are reasonable and are based on:

 - (3) thirdly, if:
 - (A) the Dispute remains unresolved (in whole or in part) after the expiration of the period for negotiation referred to in clause 8.2(c)(1) and irrespective of whether the Disputing Parties failed to meet as required by that clause or whether having so met the Disputing Parties failed to agree whether the

Dispute should be referred to an expert or to arbitration within 20 Business Days after the expiration of the period for negotiation referred to in clause 8.2(c)(1);

- (B) the dispute has been referred to expert determination and a determination is not made by the expert within 30 days after the expert's acceptance of appointment; or

the matter will be a dispute to be resolved by the Franchisee, Project Co and the State under clause 8 and clause 9 of this Deed which matter may include resolution of whether the Franchisee was entitled to issue the relevant direction and whether the direction gives rise to a Modification under the Project Agreement.

then those parts of the dispute which remain unresolved will be referred to an expert for determination under clauses 8.4 to 8.9. For the avoidance of doubt, a dispute may only be referred to an expert for determination by agreement of the Disputing Parties.

8.4 Selection of expert

- (a) **(Exchange of lists of 3 preferred experts)**: Within 7 Business Days after the date on which the Disputing Parties agree to refer a dispute to an expert for determination under clause 8.3, the Disputing Parties must exchange lists of 3 persons (in order of preference) who, if appointed, would satisfy the requirements of clause 8.4(d), from whom the expert is to be chosen.
- (b) **(Appointment of person who appears on both lists)**: Any person who appears on all lists exchanged under clause 8.4(a) will be appointed as the expert to determine a dispute and if more than one person appears on all lists, the person given the highest order of priority by the party who gave the notice under clause 8.2(a) will be appointed.

- (e) **(No entitlement to challenge appointment):** No Disputing Party will be entitled to challenge the appointment of an expert under this clause 8.4 on the basis that the expert does not satisfy the requirements of clause 8.4(d).
- (f) **(Not an arbitration agreement):** Any agreement for expert determination under this Deed will not constitute an arbitration agreement for the purposes of the *Commercial Arbitration Act 2011* (Vic).

 - (8) each Disputing Party is expected to put its case on significant issues in cross examination of a relevant witness called by the other Disputing Party or, where it seeks to challenge the evidence of a

witness not called for cross-examination by reference to other evidence, to identify that evidence in its written opening submissions so that the other Disputing Party may know the nature of and basis for the challenge to the witness' written evidence.

- (e) **(Experts):** Unless otherwise ordered each Disputing Party may only rely upon one expert witness in connection with any recognised area of specialisation.

9.5 Proportionate liability

 - (2) an additional amount will be payable by the party which is the recipient of the Taxable Supply (**Recipient**), equal to the amount of GST payable on that Taxable Supply as calculated by the Supplier in accordance with the GST Law, which will be payable at the same time and in the same manner as for the Agreed Amount; and
 - (3) the Supplier will provide a Tax Invoice to the Recipient in connection with that supply, either at the time expressly set out in any other provision of this Deed or no later than the time at which the Agreed Amount for that Taxable Supply is to be provided in accordance with this Deed. The Recipient is not obliged to pay any amount in accordance with this clause 11(b) unless and until a Tax Invoice is received by the Recipient in connection with the Taxable Supply except where the Recipient is required to issue the Tax Invoice.
- (c) **(Variation in GST payable):** If for any reason, the GST payable by the Supplier in connection with a supply it makes under or in connection with this Deed (incorporating any increasing adjustments or decreasing adjustments relating to that supply) varies from the additional amount it received from the Recipient under clause 11(b) in connection with that supply, the Supplier will provide a refund or credit to, or will be entitled to receive from, the Recipient (as appropriate) the amount of this variation. Where an adjustment event occurs in relation to a supply and except where the Recipient is required to issue the Adjustment Note:

- (d) **(GST ceasing to be payable):** No amount is payable by a party in accordance with clause 11(b) or 11(c) to the extent that the GST to which the amount

relates has ceased to be payable by or refundable to the Supplier by the Commissioner of Taxation under the GST Law.

The expert will act as an expert and not as an arbitrator and must take into account the terms of this Deed, the matters required to be taken into account by the Supplier in accordance with this clause 11 and any other matter considered by the expert to be relevant to the determination. The parties release the expert from any liability in acting as an expert, except in the case of fraud on the part of the expert.

- (i) **(GST Groups):** For the purposes of this Deed, a reference to GST payable on a Taxable Supply made by a party includes any corresponding GST payable by the representative member of any GST group of which that party is a member and a reference to an input tax credit entitlement of a party includes any corresponding input tax credit entitlement of the representative member of any GST group of which that party is a member.
- (j) **(Project Agreement to prevail):** If clause 59 (Taxes) of the Project Agreement would apply in respect of a Taxable Supply to which this clause 11 also applies then clause 59 (Taxes) of the Project Agreement will apply in respect of that supply and the provisions of this clause 11 (but for this clause 11(j)) will not apply.
- (k) **(Definitions):** In this clause 11 unless otherwise defined in this Deed, terms used have the meanings given to them in the GST Law.

- (b) **(Effect of Novation Notice)**: If the State issues a Novation Notice then, until the Novation Notice Date, the Franchisee must continue to perform its obligations under the Franchisee Cooperation Agreement.
- (c) **(Acknowledgement)**: The Franchisee acknowledges that the giving of a Novation Notice by the State will not of itself contravene, or constitute a Default

Event under, the Franchisee Cooperation Agreement or entitle the Franchisee to exercise any power under it.

7.2 Novation to Substitute Party

- (a) **(Effect of novation):** Subject to clause 7.3, with effect from the Novation Notice Date:
- (1) the Substitute Party will (and if the Substitute Party is not the State, the State will procure that the Substitute Party does) assume:
 - (A) any obligation of Project Co under the Franchisee Cooperation Agreement arising before the Novation Notice Date insofar as it relates to the payment of an amount of money that:
 - (I) is due and payable under the terms of the Franchisee Cooperation Agreement; and
 - (II) is not the subject of a dispute under the Franchisee Cooperation Agreement (or is the subject of a dispute under the Franchisee Cooperation Agreement in which case the Substitute Party will, on the determination of such dispute, assume such obligations in accordance with that determination); and
 - (B) the obligations of Project Co under the Franchisee Cooperation Agreement arising on and from the Novation Notice Date (including in relation to payment of amounts for any obligations under the Franchisee Cooperation Agreement performed before the Novation Notice Date that become due and payable on or after the Novation Date notwithstanding that such amounts relate to work performed before the Novation Notice Date) subject to any amendments to the Franchisee Cooperation Agreement agreed in accordance with clause 7.2(a)(5);
 - (2) subject to any amendments agreed to the Franchisee Cooperation Agreement in accordance with clause 7.2(a)(5), the Substitute Party will have all the rights of Project Co under the Franchisee Cooperation Agreement (excluding any accrued rights of Project Co in respect of any damage, loss, cost, charge, expense, outgoing or payment to the extent that those rights arose prior to the Novation Notice Date or are the subject of any unresolved dispute referred to in clause 7.2(a)(1)(A)(II));
 - (3) subject to clause 7.2(a)(2) and any amendments agreed to the Franchisee Cooperation Agreement in accordance with clause 7.2(a)(5), the Franchisee will be:
 - (A) bound by and must comply with the provisions of the Franchisee Cooperation Agreement binding on it for the benefit of the Substitute Party as if the Substitute Party were Project Co; and
 - (B) entitled to any extensions of time and other entitlements which accrued to the Franchisee prior to the Novation Notice Date;

- (4) Project Co is released from all of its obligations and Liabilities under the Franchisee Cooperation Agreement, excluding any accrued obligations or Liabilities of Project Co to the extent that those accrued obligations or Liabilities:
 - (A) arose in connection with events occurring prior to the Novation Notice Date; and
 - (B) are not obligations and Liabilities assumed by the Substitute Party under clause 7.2(a)(1); and
- (5) the Franchisee and the Substitute Party will promptly negotiate in good faith any amendments to the Franchisee Cooperation Agreement that are necessary to reflect the termination of the Project Agreement.
- (b) **(No set off)**: The Franchisee is not entitled to exercise any right of set off, deduction, abatement or counterclaim against the Substitute Party if, and to the extent that, such right arose prior to the Novation Notice Date.
- (c) **(Novation Deed)**: Subject to clause 7.3(c), Project Co, the Franchisee and the Substitute Party must enter into an agreement, in form and substance reasonably requested by the Substitute Party, reflecting the novation of the Franchisee Cooperation Agreement as contemplated in clause 7.2(a).
- (d) **(Attorney)**: For valuable consideration, Project Co and the Franchisee each irrevocably appoint the State, on its behalf and in its name or otherwise, as its attorney to do anything which Project Co or the Franchisee is obliged to do (but has not done within 5 Business Days of request) under clause 7.2(c). Each of Project Co and the Franchisee ratifies and confirms and agrees to ratify and confirm whatever any such attorney lawfully does in the exercise of the power of attorney in this clause 7.2(d).

7.3 Additional requirements where Substitute Party is not the State

- (a) **(Information to be provided by the State)**: If the Novation Notice specifies that the Substitute Party is a person other than the State or a State Associate, the State must, at the time it gives the Novation Notice, provide to the Franchisee the following particulars of the Substitute Party:
 - (1) its name, place of incorporation and identity of shareholder(s) including, unless a shareholder is listed on a securities exchange, the ultimate shareholders; and
 - (2) if available, its most recent published audited accounts.
- (b) **(Consent by Franchisee)**: A novation to, and the giving of a Novation Notice with respect to, a Substitute Party other than the State or a State Associate under this clause 7 will only be effective, and the Franchisee will only be required to enter into a novation agreement under clause 7.2(c), if the Franchisee consents to that novation (such consent not to be unreasonably withheld or delayed) or is deemed to have consented in accordance with clause 7.3(d).
- (c) **(Additional information)**: The State must as soon as practicable supply the Franchisee with such additional information to that provided under clause 7.3(a) as the Franchisee reasonably requires to enable it to decide whether to grant consent under clause 7.3(b), and the Franchisee must consider such information expeditiously and inform the State promptly if it requires further information.

- (d) **(Deemed consent):** Unless the Franchisee notifies the State of its earlier consent or refusal to a novation, the Franchisee will be deemed to have consented to a novation to a Substitute Party other than the State or a State Associate if it has not notified the State under clause 7.3(e)(2) within 10 Business Days of the later of the receipt of the Novation Notice and the information required under clause 7.3(a) and clause 7.3(c).
- (e) **(Unreasonably withholding consent):** The Franchisee is not entitled to refuse consent to a novation to a Substitute Party other than the State or a State Associate unless:
 - (1) the grounds for refusal are reasonable and are based on:
 - (A) the proposed novation deed referred to in clause 7.2(c) for the Substitute Party to assume the rights and obligations of Project Co under the Franchisee Cooperation Agreement not being effective to substitute the Substitute Party for Project Co;
 - (B) the Substitute Party not having the legal capacity, power and authorisation to become a party to and perform the obligations of Project Co in accordance with the Franchisee Cooperation Agreement including any necessary authorisations and consents; or
 - (C) the Franchisee being placed in breach of any Laws by the proposed novation; and
 - (2) it has notified the State of such reasons.
- (f) **(If the Franchisee withholds consent):** If the Franchisee withholds its consent to a Novation Notice under this clause 7.3, this will not prejudice the ability of the State to give one or more subsequent Novation Notices, and information under clause 7.3(a), containing changed particulars relating to the same Substitute Party or particulars relating to another Substitute Party.

7.4 Accrued obligations and liabilities

Clause 7.2 does not operate to:

- (a) **(State to assume obligations or Liabilities):** require the State to assume any obligations or Liabilities arising from, or which are required to be performed in connection with, the Franchisee Cooperation Agreement prior to the Novation Notice Date unless expressly required to do so in clause 7.2; or
- (b) **(release):** release Project Co from such obligations or Liabilities unless expressly provided for in clause 7.2.

8 Dispute Resolution

8.1 Procedure for resolving disputes

- (a) **(Procedure):** Any dispute arising under this Deed must be resolved by the parties to that dispute (**Disputing Parties**) in accordance with this clause 8 and clause 9.
- (b) **(Dispute resolution procedure):** The procedure that is to be followed to resolve a dispute is as follows:

- (1) firstly, the dispute must be the subject of negotiation as required by clause 8.2;
- (2) secondly, if the dispute remains unresolved (in whole or in part) after the expiration of the period for negotiation referred to in clause 8.2(c)(1) the Disputing Parties may agree that the dispute will be referred to an expert for determination under clauses 8.4 to 8.9 or to arbitration under clause 9; and
- (3) thirdly, if:
 - (A) the Dispute remains unresolved (in whole or in part) after the expiration of the period for negotiation referred to in clause 8.2(c)(1) and irrespective of whether the Disputing Parties failed to meet as required by that clause or whether having so met the Disputing Parties failed to agree whether the Dispute should be referred to an expert or to arbitration within 20 Business Days after the expiration of the period for negotiation referred to in clause 8.2(c)(1);
 - (B) the dispute has been referred to expert determination and a determination is not made by the expert within 30 days after the expert's acceptance of appointment; or
 - (C) the dispute is referred to expert determination and a notice of dissatisfaction is given under clause 8.6(a),

then the dispute must be referred to arbitration under clause 9.

(c) **(Rail Safety Directions):** The parties agree that where:

- (1) the Franchisee issues a direction under clause 9.8 of the Franchisee Cooperation Agreement, which requires the consent of the State under the Project Agreement in order for Project Co to implement the direction and such consent is not received within the timeframe specified in the Project Agreement; and
- (2) the Franchisee and Project Co cannot agree an appropriate course of action under clause 9.10(b)(3) of the Franchisee Cooperation Agreement and the State has not issued a Modification Order in response to notification from Project Co in accordance with clause 9.9(b) of the Franchisee Cooperation Agreement,

the matter will be a dispute to be resolved by the Franchisee, Project Co and the State under clause 8 and clause 9 of this Deed which matter may include resolution of whether the Franchisee was entitled to issue the relevant direction and whether the direction gives rise to a Modification under the Project Agreement.

To the extent it is determined under clause 8 and clause 9 of this Deed that:

- (3) the Franchisee was entitled to issue the relevant direction; and
- (4) the direction will give rise to a Modification under the Project Agreement,

the State must issue a Modification Order (which will reflect the restrictions on Project Co's entitlements set out in clause 38.9(k) of the Project Agreement).

8.2 Negotiation

- (a) **(Notification):** If a dispute arises then a party may give notice to each other party requesting that the dispute be referred for resolution by negotiation

between the Chief Executive Officers (or equivalent) of the Disputing Parties (Representatives).

- (b) **(Contents of Notice)**: A notice under clause 8.2(a) must:

 - (2) include or be accompanied by particulars of the matters which are the subject of the dispute.
- (c) **(Attempt to resolve Dispute)**: If a dispute is referred for resolution by negotiation under clause 8.2(a), then:
 - (1) the Representatives must meet and attempt in good faith to resolve the dispute (in whole or in part) within 10 Business Days of the date on which the notice under clause 8.2(a) is received (or such later date as the Disputing Parties may agree); and
 - (2) any agreement reached between the Representatives will be reduced to writing, signed by or on behalf of each Disputing Party and will be contractually binding on the Disputing Parties.

8.3 Expert determination

If:

- (a) **(dispute unresolved by Representatives)**: a dispute which has been referred to the Representatives for negotiation in accordance with clause 8.2(a) remains unresolved (in whole or in part) after the expiration of the period for negotiation referred to in clause 8.2(c)(1); and
- (b) **(referral to expert)**: the Disputing Parties agree within 20 Business Days after the expiration of the period for negotiation referred to in clause 8.2(c)(1), that the dispute be referred to an expert for determination,

then those parts of the dispute which remain unresolved will be referred to an expert for determination under clauses 8.4 to 8.9. For the avoidance of doubt, a dispute may only be referred to an expert for determination by agreement of the Disputing Parties.

8.4 Selection of expert

- (a) **(Exchange of lists of 3 preferred experts)**: Within 7 Business Days after the date on which the Disputing Parties agree to refer a dispute to an expert for determination under clause 8.3, the Disputing Parties must exchange lists of 3 persons (in order of preference) who, if appointed, would satisfy the requirements of clause 8.4(d), from whom the expert is to be chosen.
- (b) **(Appointment of person who appears on both lists)**: Any person who appears on all lists exchanged under clause 8.4(a) will be appointed as the expert to determine a dispute and if more than one person appears on all lists, the person given the highest order of priority by the party who gave the notice under clause 8.2(a) will be appointed.
- (c) **(Appointment if no person appears on both lists)**: If no person appears on all lists, the party which gave the notice under clause 8.2(a) must procure:
 - (1) the president (or the senior non-executive officer, howsoever described) of the institute or governing body for the technical or professional discipline the subject of the relevant dispute to nominate the expert, having regard to, but not being bound by, those persons proposed by the Disputing Parties under clause 8.4(a); or

- (2) if there is no governing body for the technical or professional discipline the subject of the relevant dispute or the Disputing Parties do not agree the technical or professional discipline relevant to the dispute or such governing body advises that it will not nominate an expert, the Australian Centre for International Commercial Arbitration to nominate a person to act as the expert, having regard to, but not being bound by, those persons proposed by the Disputing Parties under clause 8.4(a),

within 7 Business Days of exchange of notices under clause 8.4(a).

- (d) **(Appropriate skills):** It is the intention of the parties that the expert appointed to determine a dispute will be an independent person with appropriate skills having regard to the nature of the matters in dispute.
- (e) **(No entitlement to challenge appointment):** No Disputing Party will be entitled to challenge the appointment of an expert under this clause 8.4 on the basis that the expert does not satisfy the requirements of clause 8.4(d).
- (f) **(Not an arbitration agreement):** Any agreement for expert determination under this Deed will not constitute an arbitration agreement for the purposes of the *Commercial Arbitration Act 2011* (Vic).
- (g) **(Agreement):** Once an expert is appointed, the Disputing Parties must enter into an agreement with the expert on the terms of the Expert Determination Agreement or such other reasonable terms as the expert may require.

8.5 Rules of expert determination

The expert determination process will be administered, and the expert will be required to act, under the terms of the Expert Determination Agreement.

8.6 Expert finding

- (a) **(Notification):** The determination of the expert must be in writing and will be final and binding on the Disputing Parties unless, within 10 Business Days of receipt of the determination, a Disputing Party gives notice to each other Disputing Party of its dissatisfaction and intention to refer the matter to arbitration in accordance with clause 9.
- (b) **(Amendment to determination):** Upon submission by any Disputing Party, the expert may amend the determination to correct:
- (1) a clerical mistake;
 - (2) an error from an accidental slip or omission;
 - (3) a material miscalculation of figures or a material mistake in the description of any person, thing or matter; or
 - (4) a defect in form.

8.7 Liability of expert

- (a) **(Liability of expert):** The Disputing Parties agree:
- (1) that the expert will not be Liable in connection with the expert determination, except in the case of fraud on the part of the expert; and

- (2) to indemnify the expert against any Claim or Liability in connection with the expert determination, except in the case of fraud on the part of the expert, in which case a Claim may be made against him or her by any person who is party to the dispute.
- (b) **(Engagement)**: The Disputing Parties will jointly engage the expert services in connection with the expert determination proceedings and each Disputing Party will seek a separate Tax Invoice equal to its share of the cost of the expert.

8.8 Costs

The Disputing Parties must:

- (a) **(own costs)**: bear their own costs in connection with the expert determination proceedings; and
- (b) **(expert costs)**: pay an equal portion of the costs of the expert.

8.9 Proportionate Liability

To the extent permitted by Law, the Expert will have no power to apply or to have regard to the provisions of any proportionate liability legislation which might in the absence of this clause 8.9, have applied to any dispute referred to the Expert in accordance with this clause 8.

9 Arbitration

9.1 Reference to Arbitration

- (a) **(Dispute)**: If:
 - (1) a dispute:
 - (A) which has been referred to the Disputing Parties' Representatives for negotiation in accordance with clause 8.2(a) remains unresolved (in whole or in part) after the expiration of the period for negotiation referred to in clause 8.2(c)(1); and
 - (B) the Disputing Parties do not agree to refer the dispute to an expert for determination; or
 - (2) in the case of a dispute which the Disputing Parties agree to refer to expert determination under clause 8.3:
 - (A) a determination is not made within 30 days of the expert's acceptance of the appointment; or
 - (B) a notice of dissatisfaction is given in accordance with clause 8.6,

then any Disputing Party may notify the other Disputing Parties that it requires the dispute to be referred to arbitration.
- (b) **(Referral)**: Upon receipt by a Disputing Party of a notice under clause 9.1(a), the dispute will be referred to arbitration.

9.2 Arbitration

- (a) **(ACICA Rules):** Arbitration in accordance with this clause 9 will be conducted in accordance with the arbitration rules of the Australian Centre for International Commercial Arbitration (known as the ACICA Rules) as current at the date the dispute is referred to arbitration and as otherwise set out in this clause 9, with this clause 9 having priority to the extent of any inconsistency.
- (b) **(Seat):** The seat of the arbitration will be Melbourne, Victoria.
- (c) **(Language):** The language of the arbitration will be English.

9.3 Appointment of arbitrator

The Disputing Parties will endeavour to agree on the arbitrator or arbitrators (if the parties agree to appoint three arbitrators), but if no such agreement is reached within 14 Business Days of the dispute being referred to arbitration in accordance with clause 9.1(b), the arbitrator or arbitrators will be appointed in accordance with the ACICA Rules.

9.4 General Principles for conduct of arbitration

- (a) **(Conduct of arbitration):** The Disputing Parties agree that:
 - (1) they have chosen arbitration for the purposes of achieving a just, quick and cost-effective resolution of any dispute;
 - (2) any arbitration conducted in accordance with this clause 9 will not necessarily mimic court proceedings of the seat of the arbitration or the place where hearings take place (if different), and the practices of those courts will not regulate the conduct of the proceedings before the arbitrator; and
 - (3) in conducting the arbitration, the arbitrator must take into account the matters set out in clauses 9.4(a)(1) and 9.4(a)(2).
- (b) **(Evidence in writing):** All evidence in chief must be in writing unless otherwise ordered by the arbitrator.
- (c) **(Evidence and discovery):** The rules for evidence and discovery will be the IBA Rules on the Taking of Evidence in International Arbitration current at the date of arbitration (or if there are no current rules, the most recent version of those rules).
- (d) **(Oral hearing):** The oral hearing must be conducted as follows:
 - (1) any oral hearing must take place in Melbourne, Victoria and all outstanding issues must be addressed at the oral hearing;
 - (2) the date and duration of the oral hearing must be fixed by the arbitrator at the first preliminary conference. The arbitrator must have regard to the principles set out in clause 9.4(a) when determining the duration of the oral hearing;
 - (3) oral evidence in chief at the hearing will be permitted only with the permission of the arbitrator for good cause;
 - (4) the oral hearing must be conducted on a stop clock basis with the effect that the time available to the Disputing Parties must be split equally between the Disputing Parties so that each party has the same time to conduct its case unless, in the opinion of the arbitrator,

such a split would breach the rules of natural justice or is otherwise unfair to one of the Disputing Parties;

- (5) not less than 28 days prior to the date fixed for oral hearing each of the Disputing Parties must give notice of those witnesses (both factual and expert) of each other Disputing Party that it wishes to attend the hearing for cross examination;
 - (6) in exceptional circumstances the arbitrator may amend the date of hearing and extend the time for the oral hearing set in accordance with clause 9.4(d)(2);
 - (7) a Disputing Party will not be bound to accept the written evidence of a witness submitted on behalf of an opposing Disputing Party which is not challenged in cross examination; and
 - (8) each Disputing Party is expected to put its case on significant issues in cross examination of a relevant witness called by the other Disputing Party or, where it seeks to challenge the evidence of a witness not called for cross-examination by reference to other evidence, to identify that evidence in its written opening submissions so that the other Disputing Party may know the nature of and basis for the challenge to the witness' written evidence.
- (e) **(Experts):** Unless otherwise ordered each Disputing Party may only rely upon one expert witness in connection with any recognised area of specialisation.

9.5 Proportionate liability

To the extent permitted by Law, the arbitrator will have no power to apply or to have regard to the provisions of any proportional liability legislation which might, in the absence of this clause 9.5, have applied to any dispute referred to arbitration in accordance with this clause 9.

9.6 Extension of ambit of arbitration proceedings

- (a) **(Extending Disputes):** Where:
- (1) a dispute between the Disputing Parties to this Deed is referred to arbitration in accordance with this clause 9; and
 - (2) there is some other dispute also between the Disputing Parties to and in accordance with this Deed (whenever occurring),
- the arbitrator may, upon application being made to the arbitrator by one or more of the Disputing Parties at any time before a final award is made in relation to the first-mentioned dispute, make an order directing that the arbitration be extended so as to include the other dispute.
- (b) **(Arbitrator's order):** An arbitrator may make an order in accordance with clause 9.6(a) on such terms and conditions (if any) as the arbitrator thinks fit.

9.7 Award final and binding

- (a) **(Final and binding):** Subject to clause 9.7(b), any award will be final and binding on the Disputing Parties.
- (b) **(Appeal):** Each Disputing Party consents to any appeal to a court where that appeal is made under the *Commercial Arbitration Act 2011* (Vic) on a question

of law arising in connection with an arbitral award made in accordance with this clause 9.

9.8 Continue to perform

Notwithstanding the existence of a dispute, each Disputing Party must continue to carry out its obligations in accordance with this Deed.

9.9 Governing law of arbitration agreement

The Law governing this arbitration agreement is the law of Victoria, Australia.

9.10 Interlocutory relief

This clause 9 does not prevent a Disputing Party from seeking urgent interlocutory relief from a court of competent jurisdiction where, in that Disputing Party's reasonable opinion, that action is necessary to protect that Disputing Party's rights.

10 Termination of this Deed

- (a) **(Satisfaction of obligations under the Franchisee Cooperation Agreement):** This Deed will terminate upon the performance and satisfaction of all of the obligations under the Franchisee Cooperation Agreement.
- (b) **(Does not affect rights of parties):** The termination of this Deed does not affect the rights of any party which have accrued to that party before the date of termination.

11 Goods and Services Tax (GST)

- (a) **(GST exclusive amounts):** Unless otherwise expressly stated, all amounts referred to in this Deed or any Project Document are exclusive of GST.
- (b) **(GST payable by Supplier):** If GST becomes payable on any Taxable Supply made by a party (**Supplier**) under or in connection with this Deed:
 - (1) any amount payable or consideration to be provided in accordance with any other provision of this Deed for that supply (**Agreed Amount**) is exclusive of GST;
 - (2) an additional amount will be payable by the party which is the recipient of the Taxable Supply (**Recipient**), equal to the amount of GST payable on that Taxable Supply as calculated by the Supplier in accordance with the GST Law, which will be payable at the same time and in the same manner as for the Agreed Amount; and
 - (3) the Supplier will provide a Tax Invoice to the Recipient in connection with that supply, either at the time expressly set out in any other provision of this Deed or no later than the time at which the Agreed Amount for that Taxable Supply is to be provided in accordance with this Deed. The Recipient is not obliged to pay any amount in accordance with this clause 11(b) unless and until a Tax Invoice is

received by the Recipient in connection with the Taxable Supply except where the Recipient is required to issue the Tax Invoice.

- (c) **(Variation in GST payable):** If for any reason, the GST payable by the Supplier in connection with a supply it makes under or in connection with this Deed (incorporating any increasing adjustments or decreasing adjustments relating to that supply) varies from the additional amount it received from the Recipient under clause 11(b) in connection with that supply, the Supplier will provide a refund or credit to, or will be entitled to receive from, the Recipient (as appropriate) the amount of this variation. Where an adjustment event occurs in relation to a supply and except where the Recipient is required to issue the Adjustment Note:
- (1) the Supplier will issue an Adjustment Note to the Recipient in connection with that supply within 14 days after becoming aware of that adjustment event occurring; and
 - (2) no additional amount will be payable by the Recipient unless and until an Adjustment Note is received by the Recipient.
- (d) **(GST ceasing to be payable):** No amount is payable by a party in accordance with clause 11(b) or 11(c) to the extent that the GST to which the amount relates has ceased to be payable by or refundable to the Supplier by the Commissioner of Taxation under the GST Law.
- (e) **(GST ceasing to be payable):** If the Recipient is dissatisfied with any calculation to be made by the Supplier in accordance with this clause 11 the Recipient may, at its own expense and after notifying the Supplier accordingly, refer the matter to an independent expert nominated by the President of the Institute of Chartered Accountants for expert determination, which will be final and binding on all parties (except in the case of manifest error on the face of the expert determination). The expert will act as an expert and not as an arbitrator and must take into account the terms of this Deed, the matters required to be taken into account by the Supplier in accordance with this clause 11 and any other matter considered by the expert to be relevant to the determination. The parties release the expert from any liability in acting as an expert, except in the case of fraud on the part of the expert.
- (f) **(Revenue net of GST):** Any reference in this Deed to price, value, sales, revenue, profit or a similar amount (**Revenue**), is a reference to the GST exclusive component of that Revenue, unless the contrary intention is expressed.
- (g) **(Cost net of GST):** Any reference in this Deed to cost, expense, liability or other similar amount (**Cost**) of a party, is a reference to that Cost reduced by the Input Tax Credits to which the party is entitled in respect of such Cost, unless the contrary intention is expressed.
- (h) **(General obligation):** Each party agrees to do all things, including providing Tax Invoices and other documentation, that may be necessary or desirable to enable or assist the other party in determining its GST payable on any supply made by that other party in connection with this Deed, or any input tax credits, adjustments or refunds in relation to any amount of GST paid or payable in connection with any supply made in connection with this Deed.
- (i) **(GST Groups):** For the purposes of this Deed, a reference to GST payable on a Taxable Supply made by a party includes any corresponding GST payable by the representative member of any GST group of which that party is a member and a reference to an input tax credit entitlement of a party includes any corresponding input tax credit entitlement of the representative member of any GST group of which that party is a member.

- (j) **(Project Agreement to prevail):** If clause 59 (Taxes) of the Project Agreement would apply in respect of a Taxable Supply to which this clause 11 also applies then clause 59 (Taxes) of the Project Agreement will apply in respect of that supply and the provisions of this clause 11 (but for this clause 11(j)) will not apply.
- (k) **(Definitions):** In this clause 11 unless otherwise defined in this Deed, terms used have the meanings given to them in the GST Law.

- (b) **(GST payable by Supplier)**: If GST becomes payable on any Taxable Supply made by a party (**Supplier**) under or in connection with this Deed:
 - (1) any amount payable or consideration to be provided in accordance with any other provision of this Deed for that supply (**Agreed Amount**) is exclusive of GST;
 - (2) an additional amount will be payable by the party which is the recipient of the Taxable Supply (**Recipient**), equal to the amount of GST payable on that Taxable Supply as calculated by the Supplier in accordance with the GST Law, which will be payable at the same time and in the same manner as for the Agreed Amount; and
 - (3) the Supplier will provide a Tax Invoice to the Recipient in connection with that supply, either at the time expressly set out in any other provision of this Deed or no later than the time at which the Agreed Amount for that Taxable Supply is to be provided in accordance with this Deed. The Recipient is not obliged to pay any amount in accordance with this clause 14(b) unless and until a Tax Invoice is received by the Recipient in connection with the Taxable Supply except where the Recipient is required to issue the Tax Invoice.
- (c) **(Variation in GST payable)**: If for any reason, the GST payable by the Supplier in connection with a supply it makes under or in connection with this Deed (incorporating any increasing adjustments or decreasing adjustments relating to that supply) varies from the additional amount it received from the Recipient under clause 14(b) in connection with that supply, the Supplier will provide a refund or credit to, or will be entitled to receive from, the Recipient (as appropriate) the amount of this variation. Where an Adjustment Event occurs in relation to a supply and except where the Recipient is required to issue the Adjustment Note:
 - (1) the Supplier will issue an Adjustment Note to the Recipient in connection with that supply within 14 days after becoming aware of that Adjustment Event occurring; and
 - (2) no additional amount will be payable by the Recipient unless and until an Adjustment Note is received by the Recipient.
- (d) **(GST ceasing to be payable)**: No amount is payable by a party in accordance with clauses 14(b) or 14(c) to the extent that the GST to which the amount relates has ceased to be payable by or refundable to the Supplier by the Commissioner of Taxation under the GST Law.

The expert will act as an expert and not as an arbitrator and must take into account the terms of this Deed, the matters required to be taken into account by the Supplier in accordance with this clause 14 and any other matter considered by the expert to be relevant to the determination. The parties release the expert from any Liability in acting as an expert, except in the case of fraud on the part of the expert.

- (g) **(Cost net of GST):** Any reference in this Deed or any Project Document to cost, expense, Liability or other similar amount (**Cost**) of a party, is a reference to that Cost reduced by the Input Tax Credits to which the party is entitled in respect of such Cost, unless the contrary intention is expressed.
- (h) **(General obligation):** Each party agrees to do all things, including providing Tax Invoices and other documentation, that may be necessary or desirable to enable or assist the other party in determining its GST payable on any supply made by that other party in connection with this Deed, or any Input Tax Credits, adjustments or refunds in relation to any amount of GST paid or payable in connection with any supply made in connection with this Deed.
- (i) **(GST groups):** For the purposes of this Deed, a reference to GST payable on a Taxable Supply made by a party includes any corresponding GST payable by the representative member of any GST group of which that party is a member and a reference to an Input Tax Credit entitlement of a party includes any corresponding Input Tax Credit entitlement of the representative member of any GST group of which that party is a member.
- (j) **(Project Agreement to prevail):** If, but for this clause 14(j), a GST clause in another Project Document would apply in connection with a Taxable Supply to which this clause 14 also applies, then clause 59 (*Taxes*) of the Project Agreement will apply in connection with that supply and the GST clause in the other Project Document will not apply.
- (k) **(Definitions):** In this clause 14 unless otherwise defined in this Deed, terms used have the meanings given to them in the GST Law.

the amount of the minimum limit of indemnity required under that policy of insurance as specified in the Contract Particulars,

9.2 Share of Liability Cap

As between:

- (a) **(State)**: the State, the Rail Franchisees and their respective Associates (on the one hand); and

- (c) **(Non-Capped Party not exhausted)**: the other party (the **Non-Capped Party**) has not exhausted its share of the Liability Cap;

then:

- (d) **(Release unused portion)**: the Capped Party may request the Non-Capped Party to release all or a portion of its unused portion of the Liability Cap to the Capped Party for the purposes of its contemplated claim (and must provide the Non-Capped Party with reasonable particulars of such claim);

9.10 Indemnity

- (a) **(Breach and negligent act or omission)**: Subject to clause 9.1 the Independent Reviewer is liable for and must indemnify each Project Party and Rail Franchisee against any Claim or loss brought against, suffered or incurred by a Project Party or a Rail Franchisee in respect of:

- (b) **(Reduction in Liability)**: The Independent Reviewer's Liability to a Project Party or Rail Franchisee under this clause 9.10 is reduced proportionally to the extent to which any action, proceeding, claim or demand arises out of any negligence or wrongful act or omission of that Project Party or Rail Franchisee, or their Associates.

9.11 Proportionate Liability

- (a) **(No reduction in insurance covers)**: Subject to clause 9.11(b), the Independent Reviewer must ensure that all insurances required under clause 9.5 do not reduce or exclude the insurance cover in connection with liabilities governed by Part IVAA of the *Wrongs Act 1958* (Vic) or any corresponding legislation of another Australian jurisdiction, by reason of the manner in which

that legislation operates or does not operate, as the case may be, in light of any of the provisions of this Deed and the obligations undertaken by the Independent Reviewer in connection with it.

- (b) **(Reasonable endeavours)**: To the extent that the Insurance is not specific to the Project, the Independent Reviewer is only required to use its reasonable endeavours to procure insurance on the terms referred to in clause 9.11(a).

- (a) **(Notice of change to Services)**: The Project Parties (and, to the extent the relevant Services are for the benefit of the Rail Franchisees as contemplated by clause 6.9, the relevant Rail Franchisees) may, by joint notice to the Independent Reviewer, instruct the Independent Reviewer to carry out a change to the Services (including an addition or omission) which is within the general scope of this Deed. The Independent Reviewer must comply with any such instruction. For the avoidance of doubt, neither a Resource Adjustment nor a delay to the Date of Final Acceptance are of themselves a change to the Services, however:
- (1) a Modification Order issued by the State under the Project Agreement, other than a Modification Order issued under clause 38.1(b) of the Project Agreement; or
 - (2) a Modification Order under the D&C Subcontract arising out of a Modification Order described in clause 11.1(a)(1):
- which results in:
- (3) a Resource Adjustment; or

- (4) a delay to the Date of Final Acceptance,
(Relevant Modification) will constitute a change to the Services for the purpose of clause 11.1(b).
- (b) **(Adjustment to Fee Caps):** The relevant Initial Fee Cap, DLP Fee Cap, Alliance Services Fee Cap or Disbursement Cap will be adjusted to reflect the change to the Services referred to in clause 11.1(a) in accordance with the Schedule of Rates and Disbursements. If the adjustment to the relevant Initial Fee Cap, DLP Fee Cap, Alliance Services Fee Cap or Disbursements Cap for the change to the Services cannot be determined by reference to the Schedule of Rates and Disbursements, the adjustment will be a reasonable amount determined by the State and Project Co.
- (c) **(Modification-related Fees):** The parties agree that, in respect of a Relevant Modification:
- (1) notwithstanding anything to the contrary in this Deed or the Project Agreement, Project Co will not be required to reimburse the State for any part of the Fee paid to the Independent Reviewer as a direct result of an increase in the Fee directly arising out of a Relevant Modification;
 - (2) where that Relevant Modification leads to a change in the “Sub-IR Services” under the Sub-Independent Reviewer Deed, the State will pay Project Co the increase in the “Fee” (as those terms are defined under the Sub-Independent Reviewer Deed) directly arising out of that Relevant Modification within 20 Business Days after the provision to the State of a Tax Invoice (as that term is defined in the GST Law) received by Project Co from the Sub-Independent Reviewer in connection with that increase in the “Fee”;
 - (3) any claim for an increase in the Fee under this Deed or the Sub-Independent Reviewer Deed directly arising from a Relevant Modification must be provided on an “open book basis”;
 - (4) for the purposes of this clause 11.1, “open book basis” includes the Independent Reviewer providing (or procuring from the Sub-Independent Reviewer to the extent necessary) a breakdown of the calculation of all relevant labour, equipment, materials, subcontract and other costs in a clear and transparent manner and other information reasonably requested by the State including reasonably available source documents required to verify such calculation. If required by the State, the Independent Reviewer will make available the appropriate personnel to explain the basis on which a particular calculation has been made; and
 - (5) no amounts will be double counted.

11.2 Appointment of Substitute Reviewer

- (a) **(Appointment of Substitute Reviewer):** The Independent Reviewer acknowledges that the Project Parties (and, to the extent the relevant Services are for the benefit of the Rail Franchisees as contemplated by clause 6.9, the relevant Rail Franchisees) may appoint another reviewer (**Substitute Reviewer**) to carry out those Services which are omitted as referred to in clause 11.1(a).

- (b) **(Rights and powers):** The Substitute Reviewer will have all of the rights and powers of the Independent Reviewer under the Project Documents in connection with those Services.
- (c) **(Decisions):** Any decision of a Substitute Reviewer so appointed will be treated (between the Project Parties and the Rail Franchisees, but not as between the Project Parties, the Rail Franchisees and the Independent Reviewer) as if it is a decision of the Independent Reviewer.
- (d) **(No responsibility for performance):** Without prejudice to any Claim which any Project Party or Rail Franchisee may have in respect of the performance of the Independent Reviewer, the Independent Reviewer is not responsible for the performance of the Substitute Reviewer.

11.3 Independent Reviewer must continue to perform

Notwithstanding a change to the Services or the appointment of a Substitute Reviewer, the Independent Reviewer must continue to perform its Services, as changed in accordance with clause 11.1, in accordance with this Deed.

11.4 Suspension of Services

- (a) **(Suspension of Services):** The Project Parties (and, to the extent the relevant Services are for the benefit of the Rail Franchisees as contemplated by clause 6.9, the relevant Rail Franchisees) may, by joint notice to the Independent Reviewer, instruct the Independent Reviewer to suspend and, after a suspension has been instructed, to recommence, the performance of any or all of the Services.
- (b) **(Payment during suspension):** During the period which the Independent Reviewer's performance of the Services are suspended in accordance with clause 11.4(a), the State (on behalf of the Project Parties and the Rail Franchisees) will pay the Independent Reviewer:
 - (1) subject to the provisions of this Deed, for the Services that are not suspended (if any); and
 - (2) subject to the Independent Reviewer using all reasonable endeavours to mitigate, minimise or avoid the effects and consequences of the costs associated with the suspension of any or all of the Services, such unavoidable costs incurred arising in connection with the suspension of the Services or costs incurred by the Independent Reviewer in anticipation of their Services not being suspended.

11.5 Meeting of all Project Parties and Rail Franchisees

- (a) **(Project Party or Rail Franchisee may call meeting):** If a Project Party or Rail Franchisee is of the opinion that the Independent Reviewer is not performing its duties in accordance with this Deed, that Project Party or Rail Franchisee may call a meeting of the Project Parties' Representatives and any relevant Rail Franchisee's Representative(s) who must attend within 2 Business Days (or such other period as requested by that Project Party or Rail Franchisee) to decide an appropriate action to resolve the issue.
- (b) **(Resolutions to be considered):** Without limiting the scope of the Project Parties' decision, the Project Parties and any relevant Rail Franchisee will consider at such a meeting whether to resolve the issue referred to in clause 11.5(a) by:

- (1) requesting that the Independent Reviewer comply with this Deed;
- (2) changing the Services of the Independent Reviewer in accordance with clause 11.1 and appointing a Substitute Reviewer in accordance with clause 11.2 in connection with the Services which the Independent Reviewer is not performing in accordance with this Deed;
- (3) suspending the Services of the Independent Reviewer in accordance with clause 11.4; or
- (4) terminating the appointment of the Independent Reviewer in accordance with clause 12.

12 Termination

12.1 Notice of default

If the Independent Reviewer is in breach of this Deed and the breach is, in the reasonable opinion of the Project Parties, able to be remedied then the Project Parties may jointly give notice to the Independent Reviewer:

- (a) specifying the breach; and
- (b) requiring that the breach be remedied within 7 days, or such later date as agreed by the State and Project Co.

12.2 Termination for breach

If:

- (a) **(Unable to remedy breach)**: the Independent Reviewer is in breach of this Deed and the breach is not, in the reasonable opinion of the Project Parties, able to be remedied; or
- (b) **(Breach not remedied)**: the Project Parties give a notice in accordance with clause 12.1 and the breach is not remedied within the period of time notified to the Independent Reviewer in accordance with clause 12.1(b),

then, subject to clause 12.6, the Project Parties may immediately terminate the appointment of the Independent Reviewer by joint notice to the Independent Reviewer.

12.3 Termination for insolvency

If an Insolvency Event occurs in respect of the Independent Reviewer then, subject to clause 12.6, the Project Parties may immediately terminate the appointment of the Independent Reviewer by joint notice to the Independent Reviewer, whether or not the Independent Reviewer is then in breach of this Deed.

12.4 Termination for convenience

Subject to clause 12.6, the Project Parties may at any time for their convenience terminate the appointment of the Independent Reviewer upon 21 days joint notice to the Independent Reviewer, and appoint another person to act as the Independent Reviewer.

12.5 No automatic termination upon termination of any State Project Document

The appointment of the Independent Reviewer does not automatically terminate upon the termination of any of the State Project Documents, the Project Alliance Agreements or a Rail Franchisee Cooperation Agreement.

12.6 Prior agreement on replacement

The Sub-Independent Reviewer must comply with any such instruction. For the avoidance of doubt, neither a Resource Adjustment nor a delay to the Date of Final Acceptance are of themselves a change to the Sub-IR Services, however:
- (1) a Modification Order issued by the State under the Project Agreement, other than a Modification Order issued under clause 38.1(b) of the Project Agreement; or
 - (2) a Modification Order under the D&C Subcontract arising out of a Modification Order described in clause 11.1(a)(1):
- which results in:
- (3) a Resource Adjustment; or
 - (4) a delay to the Date of Final Acceptance,
- (Relevant Modification)** will constitute a change to the Sub-IR Services for the purpose of clause 11.1(b).

- (b) **(Adjustment to Fee):** The Fee will be adjusted to reflect the change to the Sub-IR Services referred to in clause 11.1(a) in accordance with the Schedule of Rates. - (c) **(Modification-related Fees):** The parties agree that, in respect of a Relevant Modification:
- (1) where that Relevant Modification leads to a change in the Sub-IR Services:
 - (A) the Sub-Independent Reviewer must provide Project Co with a Tax Invoice (as that term is defined in the GST Law) in connection with any increase in the Fee claimed by the Sub-Independent Reviewer and otherwise comply with payment claim requirements outlined in Schedule 3; and
 - (B) Project Co will pay the increase in the Fee directly arising out of that Relevant Modification promptly upon receipt of such amounts from the State under the Independent Reviewer Deed of Appointment;
 - (2) any claim for an increase in the Fee directly arising from a Relevant Modification must be provided on an “open book basis”;
 - (3) for the purposes of this clause 11.1, “open book basis” includes the Sub-Independent Reviewer providing a breakdown of the calculation of all relevant labour, equipment, materials, subcontract and other costs in a clear and transparent manner and other information reasonably requested by Project Co (or the State under the Independent Reviewer Deed of Appointment) including reasonably available source documents required to verify such calculation. If required by Project Co (or the State under the Independent Reviewer Deed of Appointment), the Sub-Independent Reviewer will make available the appropriate personnel to explain the basis on which a particular calculation has been made; and
 - (4) no amounts will be double counted.

11.2 Appointment of Substitute Reviewer

11.4 Suspension of Sub-IR Services

- (a) **(Suspension of Sub-IR Services):** The D&C Parties may, by joint notice to the Sub-Independent Reviewer, instruct the Sub-Independent Reviewer to suspend and, after a suspension has been instructed, to recommence, the performance of any or all of the Sub-IR Services.
- (b) **(Payment during suspension):** During the period which the Sub-Independent Reviewer's performance of the Sub-IR Services are suspended in accordance with clause 11.4(a), the State (on behalf of the D&C Parties) will pay the Sub-Independent Reviewer:
 - (1) subject to the provisions of this Deed, for the Sub-IR Services that are not suspended (if any); and
 - (2) subject to the Sub-Independent Reviewer using all reasonable endeavours to mitigate, minimise or avoid the effects and consequences of the costs associated with the suspension of any or all of the Sub-IR Services, such unavoidable costs incurred arising in connection with the suspension of the Sub-IR Services or costs incurred by the Sub-Independent Reviewer in anticipation of their Sub-IR Services not being suspended.

11.5 Meeting of D&C Parties

- (a) **(D&C Party may call meeting):** If a D&C Party is of the opinion that the Sub-Independent Reviewer is not performing its duties in accordance with this Deed, that D&C Party may call a meeting of the D&C Parties' Representatives who must attend within 2 Business Days (or such other period as requested by that D&C Party) to decide an appropriate action to resolve the issue.
- (b) **(Resolutions to be considered):** Without limiting the scope of the D&C Parties' decision, the D&C Parties will consider at such a meeting whether to resolve the issue referred to in clause 11.5(a) by:
 - (1) requesting that the Sub-Independent Reviewer comply with this Deed;
 - (2) changing the Sub-IR Services of the Sub-Independent Reviewer in accordance with clause 11.1 and appointing a Substitute Reviewer in accordance with clause 11.2 in connection with the Sub-IR Services which the Sub-Independent Reviewer is not performing in accordance with this Deed;
 - (3) suspending the Sub-IR Services of the Sub-Independent Reviewer in accordance with clause 11.4; or
 - (4) terminating the appointment of the Sub-Independent Reviewer in accordance with clause 12.

12 Termination

12.1 Notice of default

If the Sub-Independent Reviewer is in breach of this Deed and the breach is, in the reasonable opinion of the D&C Parties, able to be remedied then the D&C Parties may jointly give notice to the Sub-Independent Reviewer:

- (a) specifying the breach; and
- (b) requiring that the breach be remedied within 7 days, or such later date as agreed by the D&C Parties.

The expert will act as an expert and not as an arbitrator and must take into account the terms of this Agreement, the matters required to be taken into account by the Supplier in accordance with this clause 12 and any other matter considered by the expert to be relevant to

the determination. The parties release the expert from any liability in acting as an expert, except in the case of fraud on the part of the expert.

- (i) **(GST Groups):** For the purposes of this Agreement, a reference to GST payable on a Taxable Supply made by a party includes any corresponding GST payable by the representative member of any GST group of which that party is a member and a reference to an Input Tax Credit entitlement of a party includes any corresponding Input Tax Credit entitlement of the representative member of any GST group of which that party is a member, and if a party to this Agreement makes a Taxable Supply by virtue of entering into or performing this Agreement and the 'recipient' of that Taxable Supply (within the meaning of the GST Act) is an Associate of another party to this Agreement (which for this purpose includes, in relation to the State, the Secretary), that other party to this Agreement will be obliged either to pay the amount referred to in clause 12(b)(2) or procure that the actual recipient pays the relevant amount, and the payer of that amount shall be the 'Recipient' for the purposes of this clause 12 in relation to the relevant Taxable Supply.
- (j) **(Project Agreement to prevail):** If clause 59 (*Taxes*) of the Project Agreement would apply in respect of a Taxable Supply to which this clause 12 also applies, then clause 59 (*Taxes*) of the Project Agreement will apply in respect of that supply and the provisions of this clause 12 (but for this paragraph) will not apply.
- (k) **(Definitions):** In this clause 12 unless otherwise defined in this Agreement, terms used have the meanings given to them in the GST Law.

- (b) **(Limitations on obligations):** The Escrow Agent has no obligation to verify:

 - (2) that the Escrow Material is sufficient to enable the State to use the Escrow Material as contemplated by the Project Agreement.

15 Termination of Agreement

This Agreement will immediately terminate if both Project Co and the State give 10 Business Days' notice to the Escrow Agent of such termination or, where the Escrow Material has been released to the State under clause 9 upon termination or expiry of the Project Agreement, if the State gives 10 Business Days' notice to the Escrow Agent of such termination.

- (b) **(Procedure):** The procedure that is to be followed to resolve a dispute is as follows:
 - (1) firstly, the dispute must be the subject of negotiation as required by clause 18.2;
 - (2) secondly, if the dispute remains unresolved (in whole or in part) after the expiration of the period for negotiation referred to in clause 18.2(c)(1) the Disputing Parties may agree that the dispute will be referred to an expert for determination in accordance with clauses 18.4 to 18.8 (inclusive) or to arbitration under clause 19; and
 - (3) thirdly, if:
 - (A) the dispute remains unresolved (in whole or in part) and has not been referred to expert determination after the expiration of the period for negotiation referred to in clause 18.2(c)(1) and irrespective of whether the Disputing Parties failed to meet as required by that clause or whether having so met the parties fail to agree whether the Dispute should be referred to an expert or to arbitration within 20 Business Days after the expiration of the period for negotiation referred to in clause 18.2(c)(2);

- (b) **(referral to expert):** the Disputing Parties agree within 20 Business Days after the expiration of the period for negotiation referred to in clause 18.2(c)(1), that the dispute be referred to an expert for determination,

19.5 Proportional liability

 - (2) **(valid and binding)**: each Project Document to which it is a party constitutes its valid and binding obligations enforceable against it in accordance with its terms, subject to applicable bankruptcy, reorganisation, insolvency, moratorium or similar laws affecting creditors' rights generally and subject to the availability of equitable remedies; and
 - (3) **(execution)**: the execution by it of, the performance by it of its obligations under, and the compliance by it with, the provisions of each Project Document to which it is a party does not and will not contravene any existing Law to which it is subject or violate any document or agreement to which it is a party or which is binding on it or any of its assets.
- (b) Finance Co represents and warrants for the benefit of the State that:
 - (1) **(power to execute)**: it has the power to execute, deliver and perform its obligations under the Project Documents;

 - (6) **(no subsidiaries)**: it has no subsidiaries;
 - (7) **(no tax consolidation)**: it is not a member of any tax consolidation group within the meaning of the *Income Tax Assessment Act 1997* (Cth) or GST group within the meaning of the GST Law, except with the consent of the State;

liabilities other than those that have arisen in connection with entering into the Project Documents;

- (9) **(no material change)**: unless otherwise notified and accepted by the State (acting reasonably), there has been no material change in its financial condition (since the later of its date of incorporation and the date of its last accounts) which would prejudice its ability to perform its obligations under the Project Documents;
 - (10) **(information true and correct)**: all information that has been provided to the State by Finance Co is true and correct and Finance Co is not aware of any material facts or circumstances that have not been disclosed to the State and which might, if disclosed, materially adversely affect the decision of a prudent person considering whether or not to enter into this Deed with Finance Co;

- (c) Each representation and warranty given by Finance Co under this Deed:
- (1) **(date of deed)**: is made on the date of this Deed; and
 - (2) **(repetition)**: will be deemed to be repeated each day during the period from the date of this Deed to the Expiry Date,

- (b) **(No Claim)**: Subject to clause 1.18(c), each Project Entity, the Agent and the Security Trustee will not be entitled to make any Claim against the State for any Liability relating to any exercise or failure of the State to exercise its executive or statutory rights or duties.
- (c) **(Liability for breach)**: Clauses 1.18(a) and 1.18(b) do not limit any Liability which the State would have had to any Project Entity, the Agent or the Security Trustee under any State Project Document as a result of a breach by the State of a term of any State Project Document to which it is a party but for these clauses.

1.19 Cost of carrying out obligations

Each party must carry out its obligations under this Deed at its own cost, unless expressly provided otherwise.

2 Conditions precedent

The satisfaction or waiver of the Conditions Precedent in accordance with clause 3 (*Conditions Precedent*) of the Project Agreement, is a condition precedent to the coming into operation of this Deed (other than this clause 2 and clauses 1.1 to 1.3, 1.9, 1.10, 1.12, 1.17, 14, 16, 17, 19 and 20).

3 Consent to Securities

3.1 Consent by the State

- (a) **(Consent)**: The State consents to the Financiers Securities.
- (b) **(Permitted Encumbrance)**: The State acknowledges that each of the Security Interests created under the Financiers Securities is a 'Permitted Encumbrance' for the purposes of the State Security.

- (a) **(Consent)**: The Security Trustee and the Agent each consent to the State Securities.
- (b) **(Permitted Security Interests)**: The Security Trustee and the Agent each acknowledge that the State Securities are 'Permitted Security Interests' for the purposes of the Finance Documents.

3.3 Nature of consents

Neither the State, the Agent nor the Security Trustee by their respective consents given in clauses 3.1 and 3.2, will be deemed to have:

- (a) **(approved)**: approved the terms of any document;
- (b) **(agreed)**: agreed, affirmed, represented or warranted the validity or enforceability or binding nature of any document; or
- (c) **(consented)**: consented to any document granting or creating any interest in any right, title or property other than as set out in this Deed.

4 Order of priorities

4.1 Priority of Securities

Subject to clause 4.3, the parties agree that the order of priority of the Financiers Securities and the State Securities is, at any time:

- (a) **(State Securities)**: firstly, the State Securities for any State Priority Moneys and any Project Co Termination Payment at that time;
- (b) **(Financiers Securities)**: secondly, the Financiers Securities for the aggregate of:
 - (1) the Debt at that time; and

- (2) any fees, costs or expenses then due from a Project Entity under a Finance Document at that time including because of its breach of a Finance Document, including default interest;
- (c) **(other State Securities)**: thirdly, the State Securities for any amounts secured by them at that time, other than the State Priority Moneys and any Project Co Termination Payment; and
- (d) **(other Financiers Securities)**: fourthly, the Financiers Securities for any amount secured by them at that time other than those to which clause 4.1(b) applies.

4.2 Provisions apply despite anything to the contrary

Clause 4.1 applies notwithstanding:

- (a) **(Contents of Financiers Securities and State Securities)**: anything contained in the Financiers Securities or the State Securities;
- (b) **(Date or order of the Securities)**: the date or order of execution or registration of any of the Securities;
- (c) **(Order)**: the order in which any moneys may be or may have been advanced or deemed to be or have been advanced or become or became payable or secured under the respective Securities;
- (d) **(Payment and repayment)**: the payment or repayment in whole or in part from time to time of the money secured by the Financiers Securities or the State Securities;
- (e) **(Fluctuation in secured amounts)**: any fluctuation in the amount secured by the Financiers Securities or the State Securities from time to time;
- (f) **(Date)**: the respective dates on which anything is done or omitted to be done under or in relation to the Financiers Securities or the State Securities;
- (g) **(Contingent payment or moneys not due for payment)**: the moneys secured by the Financiers Securities or the State Securities being contingently payable or not due for payment; or
- (h) **(Contrary rule of law or equity)**: any rule of law or equity to the contrary.

4.3 Application of payments on enforcement

To give effect to the agreed order of priority under clause 4.1, the parties agree that any moneys received by the State, the Security Trustee or any Enforcing Party on enforcement of a Financiers Security or a State Security, as the case may be, will be applied in the following order of priority:

- (a) **(reasonable costs)**: first, *pari passu* towards the reasonable costs, charges and expenses of the State, the Security Trustee and any Enforcing Party appointed under a Security incurred in the enforcement of a Security in accordance with this Deed;
- (b) **(remuneration)**: secondly, towards the remuneration of any such Enforcing Party;
- (c) **(priorities)**: thirdly, to the State and the Security Trustee in accordance with the priorities set out in clause 4.1; and
- (d) **(surplus amount)**: fourthly, any surplus amount is to be paid to an account in the name of Project Co with any bank nominated by Project Co. That surplus

will not carry interest while held by the State, the Security Trustee or the Enforcing Party.

4.4 Contingent liabilities

If a Security secures contingent liabilities to the State or the Security Trustee then, until the State or the Security Trustee (as the case may be) is satisfied that the contingent liability has been extinguished, the State or the Security Trustee may retain from the proceeds of a realisation of the Security an amount consistent with the order and amount of priority established under clause 4.1 which they reasonably estimate to be the amount of the contingent liability.

4.5 Enforcement by the State

(a) **(No enforcement without consent):** Subject to the provisions of this Deed, for so long as there is Actual Debt secured by the Finance Documents, the State must not:

- (1) take any action in or towards exercising any right under or in respect of the State Securities; or
- (2) petition for (or vote in favour of any resolution for) or initiate or support or take steps with a view to any insolvency, liquidation, reorganisation, administration, or dissolution proceedings or any voluntary arrangement or assignment for the benefit of creditors or the termination or dissolution of any Project Entity,

without first obtaining the consent of the Security Trustee, which consent must not be unreasonably withheld or delayed.

(b) **(Priority of enforcement action):** Subject to clause 4.5(c):

- (1) any enforcement action under the Financiers Securities by a Financier Enforcing Party will take precedence over any enforcement action by the State or an Enforcing Party appointed under the State Securities; and
- (2) if an Enforcing Party is appointed in relation to any property under any of the Financiers Securities:
 - (A) the Enforcing Party may (if it notifies the State of its desire to do so) assume possession and control of that property from any Enforcing Party in possession and control of that property under any State Securities; and
 - (B) the State Securities will not preclude or restrict the free dealing with the property by such an Enforcing Party, notwithstanding the security created by any State Securities, or any provision of any State Securities to the contrary.

(c) **(State's superior rights under Project Documents):** Clauses 4.5(a) and 4.5(b) do not:

- (1) prevent the State from exercising its rights at any time under the State Securities to the extent necessary to allow the State to exercise its rights and give effect to Project Co's obligations under clauses 32 (*Handover*), 41 (*Step-in by the State*) and 45 (*Termination*) of the Project Agreement;
- (2) affect the State's right to set off under clause 35.8 (*Set-off*) of the Project Agreement;

- (3) prevent the State from enforcing the State Securities upon the appointment of an administrator to a Project Entity by any person under part 5.3A of the Corporations Act before or during the decision period (as defined in section 9 of the Corporations Act) provided that if the Security Trustee is enforcing or subsequently enforces its claim over all or substantially all of that Project Entity's property (except to the extent that the State is entitled to exercise its rights under this clause 4.5(c)), the State agrees that it will instruct any Enforcing Party to comply with clause 4.5(b); or
- (4) limit the rights of the State in relation to any third party.
- (d) **(Financier Enforcing Parties to co-operate):** Without limiting clause 4.5(c), if the State appoints an Enforcing Party in the circumstances referred to in clause 4.5(c)(1), then the Security Trustee must procure that any Financier Enforcing Party will promptly and fully cooperate with the Enforcing Party appointed by the State to the extent that the State reasonably requires and not do anything to prevent or hinder the Enforcing Party appointed by the State.

4.6 Receipts

If a party receives any payment in cash or in kind or recovers any amount (including by way of set off or combination of accounts) (**Receipt**) which:

- (a) is not a payment required under any Project Document (provided that a payment required to be made following enforcement of a Security is not considered to be a required payment for the purposes of this clause); or
- (b) is a payment required under a Project Document but is not made in the manner and to the person prescribed in the relevant Project Document,

and a Security is enforced, then the party will immediately pay the amount of the Receipt to the other party for distribution in accordance with clauses 4.1 and 4.3.

4.7 Registration and notice

The State and the Security Trustee must co-operate with a view to reflecting the priority of the Securities set out in this Deed in any register or with any filing or registration authority and in giving notice to insurers and debtors liable for obligations covered by the Securities.

4.8 Priority for all moneys

Subject to clause 4.5(c), the order and amount of priority established under this clause 4 operates in respect of all amounts received or realised by way of set off by the State or the Security Trustee on a realisation of any of the Securities.

4.9 Marshalling of securities

Neither the State nor the Security Trustee is obliged to marshal in favour of the other. If any of the Securities becomes unenforceable, each of the State and the Security Trustee may determine the extent (if any) to which it will have recourse to any of its Securities.

4.10 Claims against the Financiers' Certifier

If:

- (a) **(Claim by State):** a Claim has been brought by the State against the Financiers' Certifier; and
- (b) **(Claim by Project Co etc):** a Claim is also brought against the Financiers' Certifier by or on behalf of a Project Entity, the Agent, the Security Trustee, a Financier or an Enforcing Party,

the parties agree that the State's Claim will rank in priority to all other Claims, and that accordingly:

- (c) **(payable to State first):** no amount will be payable to a party other than the State in respect of a Claim against the Financiers' Certifier whilst any Claim by the State remains outstanding;
- (d) **(State to recover amounts first):** to the extent that the State is successful in a Claim against the Financiers' Certifier, the State will be entitled to recover amounts owing by the Financiers' Certifier in respect of that Claim, including from the proceeds of any insurance maintained by the Financiers' Certifier, before any amount is payable by the Financiers' Certifier (or its insurers) to a party other than the State in respect of a Claim by that other party; and
- (e) **(held on trust for State):** to the extent that any party other than the State receives or recovers any amount from the Financiers' Certifier (or its insurers) whilst the State has any Claim outstanding, it will hold such amount on trust for the State until such time as it is to be applied in accordance with clause 4.10(d) or the State confirms that it has no further Claims against the Financiers' Certifier.

5 PA Default Events

5.1 Notice of PA Default Events

The State agrees with the Security Trustee that it will give the Security Trustee a copy of any notice given by the State to Project Co in respect of a PA Default Event at or about the same time as the notice is given to Project Co.

5.2 Security Trustee's right to remedy

- (a) **(Security Trustee's right to remedy):** The Security Trustee may (but is not obliged to), upon providing the State with notice within the timeframe set out in clause 5.5(a) of its intention to do so, take steps to remedy or procure the remedy of a PA Default Event by developing a Financiers' Cure Program in accordance with this clause 5.2.
- (b) **(Additional right):** The right to develop a Financiers' Cure Program is in addition to Project Co's right to remedy a Major Default under the Project Agreement. Any remedy of a PA Default Event effected by the Security Trustee or an Enforcing Party will (as between Project Co and the State) be effective as a remedy of the PA Default Event by Project Co.
- (c) **(Financiers' Cure Program):** If the Security Trustee gives a notice to the State under clause 5.2(a), the State and the Security Trustee must meet as soon as reasonably practicable to agree in good faith a program for the Security Trustee or the Enforcing Party appointed by the Security Trustee (or both) to undertake the Cure Activities and a date by which the relevant PA Default Event must be remedied or its effects overcome (**Financiers' Cure Program**). If the Security Trustee and the State fail to agree on a Financiers' Cure Program, then either

party may refer the matter for resolution in accordance with clause 16. The program agreed or determined in accordance with clause 16 will be the Financiers' Cure Program.

- (d) **(Provision of access and information):** Upon a PA Default Event occurring, the State must, to the extent reasonably requested by a Financier Enforcing Party, and provided it is in accordance with the Financiers' Cure Program:
- (1) provide reasonable assistance to allow any Financier Enforcing Party all necessary access to the Works and the Site, subject to the terms of the State Project Documents; and
 - (2) promptly provide that Financier Enforcing Party with all material information in its possession relevant to the PA Default Event.
- (e) **(Security Trustee Acknowledgement):** Without limiting any rights the Security Trustee can exercise in accordance with this clause 5.2 or clause 6.1, but subject to the acknowledgements in clause 9.1, the Security Trustee acknowledges and agrees that neither it nor any other Enforcing Party will in any way interfere with the performance by the D&C Subcontractor or the Maintenance Subcontractor (as the case may be) of its obligations under the relevant Subcontract, without obtaining the State's prior consent, unless such action is permitted by the terms of the D&C Subcontract or the Maintenance Subcontract (as the case may be) or in accordance with the terms of the D&C Consent Deed or the Maintenance Consent Deed.

5.3 Information regarding action to cure PA Default Event

- (a) **(Obligations of Security Trustee):** After the State notifies the Security Trustee of a PA Default Event, the Security Trustee must:
- (1) in accordance with the Financiers' Cure Program and whenever reasonably requested by the State; and
 - (2) in any event, at least every month,
update and advise the State of the Security Trustee's plans in relation to the PA Default Event including providing details of:
 - (3) material changes to its Financiers' Cure Program from time to time and progress being made in the implementation of the Financiers' Cure Program, where a Financiers' Cure Program has been agreed; or
 - (4) alternative courses of action it is considering in respect of the PA Default Event and its estimates of the timing of such courses of action, where a Financiers' Cure Program has not been agreed,and must expand upon any such details when reasonably requested by the State.
- (b) **(Provision of details):** Details of the plans of the Security Trustee must, when time and circumstances make it appropriate to do so, or when the State so requests, be provided by the Security Trustee in writing.

5.4 Extension of Financiers' Cure Program

- (a) **(Impact of Relief Event):** Subject to clause 5.4(b), if a Financier Enforcing Party is prevented from carrying out its obligations in accordance with a Financiers' Cure Program as a direct result of a Relief Event, then the program to remedy the PA Default Event under the Financiers' Cure Program will be

extended to reflect the period the Financier Enforcing Party is prevented by that Relief Event from carrying out its obligations in accordance with the Financiers' Cure Program, subject to the Financier Enforcing Party demonstrating to the State's satisfaction (acting reasonably) that it has diligently pursued and, to the extent reasonably possible, continues to diligently pursue the Financiers' Cure Program.

- (b) **(Concurrent delays):** The program to remedy the PA Default Event under a Financiers' Cure Program will not be extended to reflect the period that the Financier Enforcing Party is prevented by a Relief Event from carrying out its obligations in accordance with the Financiers' Cure Program to the extent that any period that the Financier Enforcing Party is prevented by a Relief Event from carrying out its obligations in accordance with a Financiers' Cure Program is contemporaneous with any period that the Financier Enforcing Party is prevented from carrying out its obligations in accordance with a Financiers' Cure Program by an event which is not a Relief Event.
- (c) **(When extensions to be given):** Subject to clause 5.4(d) (and other than in the circumstances contemplated in clause 5.4(a)), if a Financier Enforcing Party:
- (1) reasonably considers that the date specified for the Cure Activities in respect of a PA Default Event under the Financiers' Cure Program is no longer appropriate; and
 - (2) is and has been diligently pursuing the Cure Activities in respect of the PA Default Event and complying with the Financiers' Cure Program,
- it may submit an extension request no later than 10 Business Days before the end of the Financiers' Cure Program requesting one extension to that Financiers' Cure Program. Such request must provide evidence why, notwithstanding diligent pursuit, it has been unable to remedy or overcome the effects of the PA Default Event in accordance with the Financiers' Cure Program. If the State is reasonably satisfied with such evidence and that the Financiers' Cure Program has been and continues to be diligently pursued then it will not unreasonably refuse to grant one extension to the date specified in the Financiers' Cure Program for the Cure Activities in respect of that PA Default Event by such period as the State determines is reasonably required to enable the Financier Enforcing Party to remedy the PA Default Event or overcome its effects.
- (d) **(Maximum extension):** The maximum period of time, including any extension under clause 5.4(c), which the Financier Enforcing Party may be given to remedy a PA Default Event will be no longer than the applicable time period specified in clause 5.5(b)(1).
- (e) **(Date for remedy):** Any date set for remedy (or overcoming the effects) of a PA Default Event under the Financiers' Cure Program, and any change to that date in accordance with this clause 5.4, must be consistent with the period reasonably required by the Security Trustee or any other Financier Enforcing Party to remedy (or overcome the effects of) the PA Default Event assuming that the Security Trustee or other Financier Enforcing Party (as applicable) were diligently pursuing the remedy or overcoming its effects.
- (f) **(Negotiation):** If the Security Trustee reasonably considers that the extension determined by the State in accordance with clause 5.4(c) is not sufficient, the Security Trustee:
- (1) may (provided that the Security Trustee or other Financier Enforcing Party has been diligently pursuing the Cure Activities) refer the matter for resolution in accordance with clause 16; and

- (2) whilst the matter is being determined, must continue to diligently pursue or procure that a Financier Enforcing Party continues to diligently pursue the Cure Activities,

and, subject to clause 5.5(b)(2), the State must not terminate the Project Agreement until such dispute is resolved.

- (g) **(Suspension of Financiers' Cure Program):** Where a Financier Enforcing Party has taken action under a Financiers Security, on and from the date on which the State exercises its rights under clause 41 (*Step-in by the State*) of the Project Agreement, the Financiers' Cure Program (and any related cure period) will be suspended to the extent that the State's exercise of those rights prevents the Financiers' Cure Program from being performed, unless the exercise of those rights was caused by an act or omission of the Financier Enforcing Party.
- (h) **(Diligent Pursuit):** The Security Trustee must itself diligently pursue and must ensure that each other Financier Enforcing Party is diligently pursuing any Cure Activities at all relevant times and is complying with the applicable Financiers' Cure Program, and for the purposes of this Deed, in assessing what can be achieved by diligent pursuit and in assessing whether there has been a failure to diligently pursue the Cure Activities, regard is required to be had to the time necessary to enforce the D&C Subcontract or the Maintenance Subcontract, or to engage a substitute D&C Subcontractor, Maintenance Subcontractor, or Parent Guarantor, if to do so would be consistent with the required steps and actions being diligently pursued, recognising that the Security Trustee is not a D&C Subcontractor or Maintenance Subcontractor (as applicable).

5.5 Termination of Project Agreement

The State agrees that it will not terminate, rescind or treat as repudiated the Project Agreement unless it first notifies the Security Trustee of its intention to do so in accordance with clause 5.1 and:

- (a) **(no response):** the Security Trustee has not responded to the notice from the State within 15 Business Days of receipt or has responded that it does not intend to remedy or overcome the effects of the PA Default Event; or
- (b) **(notice given):** the Security Trustee gives a notice to the State under clause 5.2(a) within 15 Business Days of receipt of the notice from the State under clause 5.1 and:
- (1) the PA Default Event has not been remedied (or its effects overcome) by the earlier of the date set out in the Financiers' Cure Program and the date which is:
- (A)
- (I) in respect of any Acceptance Related Major Default, 36 Months;
 - (II) in respect of any Specific Major Default occurring during the D&C Phase or the FAW Phase, 30 Months;
 - (III) in respect of a Major Default occurring during the D&C Phase or the FAW Phase (other than an Acceptance Related Major Default or a Specific Major Default), 24 Months; and
 - (IV) in respect of a Major Default occurring during the Maintenance Phase, 24 Months,

from the date of the first notice given by the State to Project Co in respect of the Major Default (a copy of which will be provided by the State to the Security Trustee under clause 5.1), plus:

- (V) the period (if any) of any extension to the maximum remedy period in clause 44.3(d) (*Project Co to provide Cure Program and comply with Major Default Notice*) of the Project Agreement pursuant to clause 44.4(a) (*Extension of Cure Program*) of the Project Agreement;
- (B) in respect of a Default Termination Event arising under paragraph 3 (*Insolvency Event of Consortium Member*) or paragraph 9 (*Service Failure*) of the definition of Default Termination Event in the Project Agreement, 12 Months from the date of the first notice given by the State to Project Co in respect of the Default Termination Event (a copy of which will be provided by the State to the Security Trustee under clause 5.1); and
- (C) in respect of a Default Termination Event (other than a Default Termination Event arising under paragraph 3 (*Insolvency Event of Consortium Member*) or paragraph 9 (*Service Failure*) of the definition of Default Termination Event in the Project Agreement or resulting from a failure to cure or remedy a Major Default), 6 Months from the date of the first notice given by the State to Project Co in respect of the Default Termination Event (a copy of which will be provided by the State to the Security Trustee under clause 5.1),

plus:

- (D) the period (if any) of any extension granted under clause 5.4(a) in respect of a Relief Event which prevents a Financier Enforcing Party from carrying out its obligations in accordance with a Financiers' Cure Program,

and provided that there is no double counting of the periods referred to in clause 5.5(b)(1)(A)(V) or clause 5.5(b)(1)(D); or

- (2) a Financier Enforcing Party is not:
 - (A) diligently pursuing the Cure Activities; or
 - (B) following the Date of Final Acceptance, continuing to make available and provide, and maintain and repair the Maintained Assets in accordance with the provisions of the Project Agreement,

provided, however, that the State may not terminate, rescind or treat as repudiated the Project Agreement due to a failure to which clause 5.5(b)(2) applies, unless it has given the Security Trustee notice of the failure described in clause 5.5(b)(2)(A) or 5.5(b)(2)(B) and such failure has not been remedied within 15 Business Days of receipt of such notice by the Security Trustee.

5.6 Payments to Subcontractors on PA Default Event

- (a) **(Details of Valid Claims):** Without limiting clause 13.6 (*Payment of amounts owed to Subcontractors*) of the Project Agreement, if a PA Default Event has occurred and is subsisting, Project Co must, immediately upon request by the State, provide to the State details of any Valid Claims then outstanding.
- (b) **(Application of funds):** If:
- (1) a PA Default Event has occurred and is subsisting;
 - (2) there are Valid Claims that have not been paid and which, if a remedy program under clause 44.3 (*Project Co to provide Cure Program and comply with Major Default Notice*) of the Project Agreement is in place and specifies when such Valid Claims are to be paid, have not been paid in accordance with the remedy program; and
 - (3) there are funds standing to the credit of a Project Account at the relevant time,
- the State may from time to time give a notice to the Project Entities, the Agent or the Security Trustee requiring the Project Entities, the Agent or the Security Trustee (as the case may be) to apply funds standing to the credit of a Project Account in or towards payment of any one or more of the Valid Claims specified in that notice subject to the Subcontractor entering into a deed of release and subrogation in respect of such Valid Claims in form and substance satisfactory to the State, acting reasonably.
- (c) **(Compliance by Project Entities, Agent and Security Trustee):** Each of the Project Entities, the Agent and the Security Trustee (as applicable) must comply with a notice issued by the State under clause 5.6(b) within 5 Business Days of receipt.
- (d) **(Compliance by other Financier Enforcing Party):** The Security Trustee and the Agent will ensure that any other Financier Enforcing Party complies with each notice issued by the State under clause 5.6(b) within 5 Business Days of receipt.
- (e) **(Payments from Project Account):** Each Project Entity:
- (1) consents to the Security Trustee and the Agent (or any Financier Enforcing Party) making any payments from time to time from the Project Accounts that they are required to make in order to comply with a notice issued by the State under clause 5.6(b); and
 - (2) agrees that any such payment will be taken to have been made at the request of the Project Entities and the Secured Moneys (as defined in the Facility Agreement) will not be taken to be reduced to the extent of any such payment.
- (f) **(Contrary to law):** No party is required to make any payment under this clause 5.6 if to do so would be contrary to any law.

5.7 Super Majority Financiers

- (a) **(No consent by Relevant Financier):** If:
- (1) a PA Default Event has occurred and is subsisting; and
 - (2) a Financier (**Relevant Financier**) refuses to grant its consent to any amendment, consent or waiver under a Project Document sought by the State or a Project Entity to which the Super Majority Financiers

have consented or would otherwise have consented (including any amendment, consent or waiver for the provision of additional debt financing and the subordination of the existing senior debt) which requires (but has not then received) the consent of all Financiers,

then the Project Entities, the State and the Super Majority Financiers may proceed with such consent, amendment or waiver without the consent of the Relevant Financier.

- (b) **(No obligation or reduction):** Nothing in clause 5.7(a):
- (1) imposes an obligation on any Financier to pay or advance an amount which is more than the amount which it has committed to pay or advance under the Finance Documents; or
 - (2) enables:
 - (A) the reduction of any amount payable to a Financier under the Finance Documents;
 - (B) the extension:
 - (I) to the date for payment of any amount under the Finance Documents; or
 - (II) of availability for utilisation, of any commitment of any Financier;
 - (C) a change to the sharing provisions applicable to, or to the priority of any payment to, a Financier who is a participant in a facility, unless:
 - (I) the change affects the Financier in a manner which is consistent with the treatment of other Financiers who are participants in that facility;
 - (II) the change relates to the introduction of super senior debt incurred in connection with a workout or restructure to remedy the effects of a subsisting PA Default Event; and
 - (III) the change is consented to by Financiers holding in aggregate senior debt commitments equal to or greater than [not disclosed] of all senior debt commitments; or
 - (D) the release of any Financiers Securities or guarantees granted in favour of a Finance Party, other than for the purpose of any restructuring pertaining to Project Co and/or Finance Co undertaken in accordance with the Finance Documents and the Project Documents,

without that Financier's agreement.

6 Enforcement by Security Trustee

6.1 Enforcement by Security Trustee

Without limiting the actions which the Security Trustee may be entitled to take following the occurrence of a PA Default Event (whether in accordance with the Finance Documents or otherwise), a Financier Enforcing Party may:

- (a) exercise some or all of the Project Entities' Rights;
- (b) engage one or more other persons to exercise some or all of the Project Entities' Rights; and
- (c) assign, novate, transfer or otherwise dispose of all or any of the Project Entities' Rights,

subject to the terms of those documents, this Deed and the rights and duties of the Financier Enforcing Party under the Financiers Securities and at Law.

6.2 No liability

- (a) **(No liability)**: Without limiting the liability of each Project Entity (which, subject to clause 6.2(b), continues to be responsible for the performance of its obligations under the Project Documents), none of the Finance Parties nor any Financier Enforcing Party is or will be liable for any obligation or liability of any Project Entity under the Project Documents by reason only of the Financiers Securities or the exercise, in accordance with the Financiers Securities, of any of their rights under the Financiers Securities.
- (b) **(Obligations remain effective)**: The State acknowledges that all money expended by the Finance Parties or any Financier Enforcing Party and all acts, matters or things done or effected by them which would satisfy (had they been expended, done or effected by a Project Entity) any of the obligations of a Project Entity under the Project Documents will be effective, as between the State and that Project Entity, to fully satisfy and discharge the obligations of that Project Entity, in respect of which such payment has been made or act, matter or thing has been done or effected.

6.3 Restriction on set off by Financiers

- (a) Subject to clause 6.3(b) and without limiting the operation of clause 4, each of the Security Trustee and the Agent agrees on its own behalf and on behalf of each Finance Party that it and none of them will exercise:
 - (1) **(set off)**: any right of set off or combination of accounts in relation to a Project Account other than, in respect of set off, amounts standing to the credit of a Project Account which are directly referable to principal amounts advanced by, or net payments made under swap agreements by, a Financier under a Finance Document; or
 - (2) **(insurance proceeds)**: any other right in relation to any of those accounts the effect of which would be to apply money standing to the credit of the account in a way inconsistent with clause 43.12 (*Insurance Proceeds Account*) of the Project Agreement and clause 8.
- (b) Each of the Security Trustee and the Agent agrees on its own behalf and on behalf of each Finance Party that:
 - (1) its rights under clause 6.3(a) are subject to clause 5.6;

- (2) it will not exercise any of its rights under clause 6.3(a) unless clause 5.6 has been fully complied with; and
- (3) its rights under clause 6.3(a)(1) do not extend to any State Construction Contributions standing to the credit of a Project Account.

6.4 Security Trustee not to hinder State under Project Documents

The Security Trustee must not knowingly exercise (and must procure that any other Financier Enforcing Party will not exercise) any rights (whether arising under a Financiers Security or otherwise) in any manner which interferes with, or restricts in any way, the proper and lawful exercise by the State of the State's rights under clauses 32 (*Handover*), 35.8 (*Set-off*) or 41 (*Step-in by the State*) of the Project Agreement, the State Securities, the Direct Deeds, this Deed or any other Direct Deed entered into by the State and a Project Entity, among others, in relation to the Project.

6.5 Third party account bank

Each Project Entity must ensure that no Project Account is held with a party (**Account Bank**) other than the Security Trustee or a Finance Party unless the Project Entity first procures that the Account Bank undertakes to the State in form and substance reasonably satisfactory to the State, to be bound by clause 6.3 in the same terms as the Security Trustee.

6.6 Replacement of D&C Subcontractor or Maintenance Subcontractor

- (a) **(No replacement without consent):** If, at any time, the Security Trustee proposes to remedy a PA Default Event or a Finance Default by appointing a new Subcontractor to replace either the D&C Subcontractor or the Maintenance Subcontractor, or by novating the D&C Subcontract or the Maintenance Subcontract (and other relevant Project Documents) to a replacement Subcontractor, then the Security Trustee must first obtain the State's prior consent, which must not be unreasonably withheld if the State is satisfied the matters set out in clause 6.6(b) are satisfied.
- (b) **(When consent must be given):** The State must not unreasonably withhold its consent if it is satisfied (acting reasonably) that:
 - (1) the State has been provided with written details of the proposed replacement Subcontractor and the terms and conditions on which the proposed replacement Subcontractor is to be engaged;
 - (2) were the same appointment made by Project Co, the appointment of the replacement Subcontractor would comply with the Project Agreement in all respects, including the satisfaction of the State's probity requirements and the financial capacity, experience and capability to perform the obligations of the Subcontractor being replaced;
 - (3) except as otherwise agreed by the State, the proposed terms and conditions of the replacement Subcontractor's engagement are either:
 - (A) not less onerous from the perspective of the Subcontractor than those which apply to the current Subcontractor; or
 - (B) are less onerous from the perspective of the Subcontractor than those which apply to the current Subcontractor but Project Co is reasonably able to satisfy its increased

obligations (including payment obligations) owed to that Subcontractor,

and include a requirement to perform such of the obligations of the current Subcontractor under the relevant Project Document which remain unsatisfied;

- (4) the proposed replacement Subcontractor has agreed to be bound by the terms of the relevant Project Documents (including a relevant Direct Deed) or such other terms as agreed to by the State; and
- (5) a person other than the State bears all of the State's reasonable costs and expenses (including legal costs and expenses) of and incidental to:
 - (A) any enquiries which the State may make for the purposes of determining whether to consent to the replacement Subcontractor;
 - (B) the procurement of a replacement Subcontractor; and
 - (C) the preparation, negotiation and execution of any relevant documentation and any stamp duty or similar charges in relation to such documentation.
- (c) **(Facilitation of appointment of replacement Subcontractor by State and Security Trustee):** To the extent that the appointment of a replacement Subcontractor in accordance with this clause 6 involves the novation of a Project Document:
 - (1) each of the State and the Security Trustee will release those of the Securities as it is necessary to release (but only to the extent necessary) to facilitate the novation; and
 - (2) each party to this Deed and party to the Project Document consents to that novation,

but without prejudice to any rights and claims against the replaced Subcontractor accrued at the time of novation.
- (d) **(Release):** To the extent that the release of a Security is necessary under clause 6.6(c), each party will use reasonable endeavours to ensure that the Project Document (as novated) becomes subject to a Security Interest in favour of the party who granted the release, on terms substantially similar to those of the released Security.

6.7 Disposal of Project Co's interest

- (a) **(No disposal without consent):** If a Financier Enforcing Party proposes to remedy a PA Default Event or a Finance Default by assigning, novating, transferring or otherwise disposing of an interest in Project Co or Project Co's interest in, or obligations under, the Project Documents in accordance with the Enforcing Party's rights or the Financiers' rights under the Finance Documents, the Security Trustee must first obtain the State's prior consent, which must not be unreasonably withheld if the State is satisfied the matters set out in clause 6.7(b) are satisfied.
- (b) **(When consent must be given):** The State must not unreasonably withhold its consent if it is satisfied (acting reasonably) that:
 - (1) the State has been provided with written details of the proposed purchaser and the terms and conditions of the proposed disposal;

- (2) either:
 - (A) the proposed disposal is by way of a Permitted Share Capital Dealing;
 - (B) the State is not permitted to withhold its consent to the proposed disposal under clause 53.5 (*State's right to withhold consent*) of the Project Agreement; or
 - (C) the proposed purchaser:
 - (I) is a Fit and Proper Person (and each person who Controls that person is a Fit and Proper Person);
 - (II) has the necessary financial, commercial and technical capacity, and contractual and financing arrangements with third parties in place, to perform or procure the performance of Project Co's obligations under the State Project Documents;
- (3) the proposed disposal would not result in there being any adverse effect on the rights of, or increase in the Liabilities or obligations of, the State under the State Project Documents than if the relevant interests or obligations were not disposed of;
- (4) the proposed purchaser has agreed to be bound by the terms of the relevant Project Documents; and
- (5) a person other than the State bears all of the State's reasonable costs and expenses (including legal costs and expenses) of and incidental to:
 - (A) any enquiries which the State may make for the purposes of determining whether to consent to the disposal;
 - (B) the procurement of a purchaser; and
 - (C) the preparation, negotiation and execution of any relevant documentation and any stamp duty or similar charges in relation to such documentation.

6.8 Appointment of Enforcing Party

- (a) **(Appointment):** Without derogating from any other rights the Security Trustee may have under this Deed, the State agrees that:
 - (1) if the Security Trustee appoints an Enforcing Party under the Financiers Securities:
 - (A) that appointment will not constitute a PA Default Event; and
 - (B) in respect of an appointment in relation to a Project Entity, that appointment will be taken to remedy any PA Default Event constituted by:
 - (I) the occurrence prior to that appointment of an Insolvency Event in relation to that Project Entity; or
 - (II) an event that would restrict or cancel, or entitle a Financier to restrict or cancel, the obligation to provide finance in accordance with the Finance Documents,

but this does not prevent a PA Default Event from arising if the Enforcing Party does not otherwise perform or procure the performance of the obligations of the relevant Project Entity under the Project Documents; and

- (2) any:
- (A) enforcement action taken by a Financier Enforcing Party in accordance with clause 6.1;
 - (B) replacement of a D&C Subcontractor or the Maintenance Subcontractor in accordance with clause 6.6; or
 - (C) disposal of an interest in Project Co or Project Co's interest in the Project Documents in accordance with clause 6.7,

will not, by itself, provide the State with the right to terminate any State Project Document.

- (b) **(Fit and Proper Person)**: The Security Trustee acknowledges and agrees that it will not appoint any Financier Enforcing Party unless:
- (1) the proposed Enforcing Party is a Fit and Proper Person (and each person who Controls that person is a Fit and Proper Person); and
 - (2) the appointment is otherwise in accordance with this Deed.
- (c) **(Notice)**: The Security Trustee will not, and will ensure that a Financier Enforcing Party does not, exercise or purport to exercise the Project Entities' Rights without first notifying the State.
- (d) **(Minimising disruption)**: The Security Trustee must minimise, and must ensure that a Financier Enforcing Party will minimise, any disruption that may result from it exercising the Project Entities' Rights.

6.9 Documentation

If the State consents to the replacement of the D&C Subcontractor or the Maintenance Subcontractor, or the disposal of Project Co's interest in the Project Documents, in accordance with clause 6.6 or 6.7 respectively, the State, the Financier Enforcing Party and the replacement Subcontractor or purchaser (as the case may be) will execute such documents as are reasonably necessary to give effect to the replacement, novation, assignment, transfer or disposal.

7 Finance Default

7.1 Notice of Finance Default

The Security Trustee and the Agent must each provide notice to the State promptly after it gives notice of a Finance Default to a Project Entity, setting out:

- (a) **(details)**: comprehensive details of the Finance Default; and
- (b) **(exercise of rights)**: whether it intends to exercise its rights under the Finance Documents, and if so, the proposed date for, and proposed method of, such exercise.

7.2 Notice of enforcement action

The Security Trustee must not declare any moneys secured under the Finance Documents due and payable, or take any action to enforce the Financiers Securities or recover any moneys secured under the Financiers Securities, unless the Security Trustee has first provided to the State:

- (a) **(24 hours' prior notice)**: in the case of the appointment of a Financier Enforcing Party where the Security Trustee is of the reasonable opinion that any delay in such appointment would materially adversely affect the Financiers, no less than 24 hours' prior notice; or
- (b) **(10 days prior notice)**: in all other cases, no less than 10 days' prior notice.

7.3 Information to the State

Upon the occurrence of a Finance Default:

- (a) **(all correspondence)**: the Security Trustee and the Agent must each provide to the State copies of all correspondence and documents issued by it to a Project Entity relating to the Finance Default;
- (b) **(measures to remedy Finance Default)**: if the Finance Default is capable of remedy, the Project Entities must keep the State informed of all measures taken or intended to be taken to remedy the Finance Default; and
- (c) **(all measures taken in consequence of Finance Default)**: in any case, the Project Entities, the Agent and the Security Trustee must keep the State informed of all measures taken or intended to be taken by it in consequence of the Finance Default (including details of any action taken by the Security Trustee to enforce the Financiers Securities).

7.4 Payments by State

The parties acknowledge that the State will not be liable for any costs incurred by a party to this Deed in attempting to remedy (or overcome the effects) of a Finance Default or in exercising rights under the Finance Documents.

8 Insurance proceeds

- (a) **(Deposit)**: All Insurance proceeds received, which (were they to have been received by Project Co) would have been required to have been deposited into the Insurance Proceeds Account under the Project Agreement, must be deposited in the Insurance Proceeds Account.
- (b) **(Application)**: The Security Trustee and the Agent each acknowledge and agree with the State that the Insurance proceeds paid or payable in connection with the Project must be applied in accordance with clause 43 (*Insurance*) of the Project Agreement.
- (c) **(Operation of account)**: Without limiting the Finance Parties' rights under clause 6.3, Project Co, the Agent and the Security Trustee must not make any payment (and must take all reasonable and proper steps to ensure that no payment is made) out of the Insurance Proceeds Account except in accordance with the provisions of the Project Agreement and this Deed.

- (d) **(Assistance):** The Security Trustee and the Agent each acknowledge and agree with the State that Project Co will be permitted, and the Security Trustee and the Agent will each use reasonable endeavours to assist Project Co, to take any action as contemplated by clause 43 (*Insurance*) of the Project Agreement.

9 Recognition of rights

9.1 Recognition of the State's step-in rights

- (a) **(State Rights):** The Security Trustee and the Agent each recognise and acknowledge the rights available to the State under:
- (1) clause 32 (*Handover*) of the Project Agreement;
 - (2) clause 41 (*Step-in by the State*) of the Project Agreement; and
 - (3) subject to clause 9.1(c), the Direct Deeds,
- including to require an assignment of the D&C Subcontract or the Maintenance Subcontract if it becomes entitled to terminate the Project Agreement.
- (b) **(Security Trustee and Agent to facilitate):** The Security Trustee and the Agent will each use reasonable endeavours to ensure that rights under the Finance Documents are exercised in a way which facilitates the effective exercise by the State of the rights referred to in clause 9.1(a). To the extent that the exercise of any such rights involves the assignment of the D&C Subcontract or the Maintenance Subcontract, the Security Trustee will release the D&C Subcontract or Maintenance Subcontract (as applicable) from the Financiers Securities to facilitate the assignment. Nothing in this clause 9.1 or the Direct Deeds requires the Security Trustee or the Agent to release or forgo any rights or claims against any Project Entity.
- (c) **(When State may exercise rights):** The State acknowledges and agrees that it will not exercise its rights under clause 6.1 (*Property Committee*) or clause 7 (*Site Conditions*) of a Direct Deed unless:
- (1) a circumstance which entitles the State to appoint an Enforcing Party under the State Securities subsists; or
 - (2) the State is entitled to exercise its rights under clause 41 (*Step-in by the State*) of the Project Agreement.
- (d) **(State acknowledgement):** The State acknowledges and agrees that it will not exercise its rights under clause 41.1(a)(1) or clause 41.1(a)(3) (*State Step-In*) of the Project Agreement in respect of a PA Default Event for so long as a Financier Enforcing Party is diligently pursuing (to the satisfaction of the State) a Financiers' Cure Program in respect of that PA Default Event in accordance with this Deed.

9.2 Release of Security

- (a) **(Obligation to release):** Subject to clause 9.2(b), to the extent that Project Co is required to handover, surrender, transfer, pay or otherwise dispose of property (including rights to Insurance proceeds) to the State or its nominee under the Project Agreement and that property is in whole or part the subject of any Security Interest in favour of the Security Trustee or any Finance Party (including any Security Interest under the Financiers Securities), the Security Trustee will promptly ensure that the Security Interest is released in respect of

that property and will do all things including registering documents as the State may reasonably require or as may be necessary or desirable to give effect to that release.

- (b) **(Security over payment obligation):** Nothing in clauses 9.2(a) or 6.4 requires the Security Trustee to release a Security Interest over the right of Project Co to be paid a Termination Payment.

9.3 Recognition of Security Trustee rights

- (a) **(Rights):** The State acknowledges the right of the Security Trustee under each Consent Deed (**Security Trustee Tripartite Rights**).
- (b) **(State not to hinder Security Trustee):** The State and the Security Trustee agree that if the Security Trustee appoints an Enforcing Party and exercises its rights to step in under any applicable Consent Deed, then subject to the rights of the State under clauses 4.5(c) and 9.1, the Security Trustee Tripartite Rights will take precedence over the rights of the State under the Direct Deeds and the State must not exercise its rights under a Direct Deed in such a manner as to prevent or hinder the Security Trustee in its exercise of the Security Trustee Tripartite Rights. For the avoidance of doubt nothing in this clause limits the State in performing or procuring the normal operation of the Maintained Assets.
- (c) **(Keep informed):** The Security Trustee must keep the State informed of all measures taken and intended to be taken in exercising the Security Trustee Tripartite Rights.

9.4 Novation of Finance Documents

- (a) Subject to clause 9.4(b), the Security Trustee, the Agent and Finance Co each acknowledge the rights of the State under clause 45.8 (*Novation of liabilities to the State*) of the Project Agreement to elect to assume some or all of the obligations of a Project Entity in respect of Actual Debt, consents to each Project Entity procuring the novation of such Actual Debt obligations, and will do all things reasonably required by the State to effect such novation.
- (b) The State undertakes that, if it elects to assume some (but not all) of the obligations of a Project Entity in respect of Actual Debt, it will assume such obligations on a *pro rata* basis across all relevant Financiers.

9.5 State dealings with the Security Trustee and Agent

- (a) **(State may raise queries):** The State may at any time and from time to time raise with the Security Trustee or the Agent any concerns or questions that the State may have regarding any Project Entity, the performance by any Project Entity of its obligations under the Project Documents or Finance Documents, or the Project generally.
- (b) **(Disclosure):** To the extent required, each Project Entity authorises each of the State, the Agent and the Security Trustee to disclose to the others such information relating to the matters referred to in clause 9.5(a) as the State, the Agent or the Security Trustee may consider necessary or appropriate in the context of any discussions or other correspondence contemplated in clause 9.5(a).

9.6 No role for Independent Reviewer

Each of the Security Trustee and the Agent acknowledges and agrees:

- (a) **(Independent Reviewer)**: that Project Co is required under clause 11.7 (*Other Project roles of Independent Reviewer*) of the Project Agreement to ensure that the Financiers do not appoint the Independent Reviewer to act in any role in connection with the Finance Documents, without the prior consent of the State Representative and on such terms approved by the State Representative; and
- (b) **(prior consent)**: that they will not agree to any appointment of the Independent Reviewer by the Financiers without the prior consent of the State Representative.

10 Amendments to Finance Documents

10.1 No amendments without consent

Subject to clauses 10.2 and 10.5, each of the Security Trustee and the Agent undertakes to the State that it will not agree to or permit any variation, amendment, waiver or replacement (**Amendment**) of any Finance Document without the State's prior consent, which consent must not be unreasonably withheld.

10.2 Permitted Amendments

The prior consent of the State is not required for an Amendment that:

- (a) **(novation, assignment or substitution)**: is a novation, assignment or substitution of a Financier or any of the rights or obligations of a Financier if:
 - (1) the novatee, assignee or substitute is:
 - (A) a Financier;
 - (B) has a credit rating of at least [not disclosed] by Standard and Poor's (Australia) Pty Limited or [not disclosed] by Moody's Investors Services, Inc; or
 - (C) for a period of 6 months from Financial Close, an investment fund which is a Permitted Fund; or
 - (2) that Financier has fully funded its commitment under the Finance Documents;
- (b) **(State consent)**: the State has consented to as part of giving its consent to a refinancing under clause 40.1 (*Consent to Refinancing*) of the Project Agreement;
- (c) **(Modification)**: is an Amendment that solely gives effect to Project Co's obligation to proceed with a Modification in accordance with a notice that has been accepted by the State under clause 38 (*Modifications*) of the Project Agreement;
- (d) **(novation or assignment)**: is a novation or assignment under clause 13.1;
- (e) **(consent)**: has otherwise been consented to by the State under the Project Agreement,

(each a **Permitted Amendment**).

10.3 Notice of Permitted Amendment

Each of Project Co, the Agent and the Security Trustee must:

- (a) **(notice)**: give notice to the State of any Permitted Amendment within 5 Business Days after that Permitted Amendment is made, including details of the reasons for the Permitted Amendment and copies of any documents relevant to the Permitted Amendment; and
- (b) **(further information)**: provide any further information reasonably requested by the State regarding the Permitted Amendment within 10 Business Days of receipt of a request from the State.

10.4 Notice of intended Amendment (other than a Permitted Amendment)

In seeking prior consent to an Amendment under clause 10.1, Project Co must give notice to the State of the intended Amendment including:

- (a) **(details)**: full details of:
 - (1) the terms of the Amendment and the reasons for the Amendment;
 - (2) the responses or anticipated response of any other party to the relevant documents regarding the Amendment;
 - (3) the response or anticipated response of any assignee of, or person holding a Security Interest in, the documents relevant to the Amendment; and
 - (4) the impact or potential impact of the Amendment on:
 - (A) delivery of the Project by Project Co;
 - (B) performance of, and the capacity of each Project Entity to perform its obligations under, the Project Documents;
 - (C) the financial structure or business of each Project Entity;
 - (D) the State's interest under or in respect of the Project Documents; and
 - (E) Equity IRR or Distributions; and
- (b) **(copies of Documentation)**: copies of all draft contractual and security documentation relevant to the Amendment.

10.5 Consent to Amendments

Unless the State is a party to the relevant Finance Document, the State must advise Project Co, the Agent and the Security Trustee within 20 Business Days (or such longer period as the State reasonably requests given the nature of the Amendment) of receiving the notice under clause 10.1, that:

- (a) **(consents)**: it consents to the Amendment;
- (b) **(unacceptable)**: the Amendment is unacceptable to it and the reasons why the Amendment is unacceptable; or
- (c) **(further information)**: it requires further information regarding the Amendment. If so, the other parties must provide the additional information sought by the State within a further period of 10 Business Days after which the State must respond in terms of clauses 10.5(a) and 10.5(b) within 10 Business Days of receipt of the additional information.

10.6 No restriction on exercise of existing rights

Subject to clause 10.7, nothing in this clause 10 or clause 53.1 (*Assignment, amendments to Project Documents and other dealings by Project Co*) of the Project Agreement prevents or restricts any person exercising any rights they have under the Finance Documents.

10.7 Consequences of Amending without consent

If any Amendment is made to a Finance Document otherwise than in accordance with this clause 10:

- (a) **(not effective)**: the Amendment will not be effective as between the parties to that Finance Document (and any agreement at any time between any of them which purports to limit the operation of this clause 10.7, including any provision that a Finance Document prevail over this Deed, will be ineffective); and
- (b) **(State liable)**: the State will only be liable under the Project Documents to the extent it would have been had there been no such Amendment.

11 State Contributions

11.1 State Capital Contribution

- (a) **(Payment of State Capital Contribution)**: The Security Trustee, the Agent and each Project Entity each acknowledge and agree:
 - (1) that the State Capital Contribution, when paid by the State into the account specified in a State Capital Contribution Notice, will be, and will be taken to be, applied towards mandatory prepayment of Actual Debt outstanding;
 - (2) without limiting clause 11.1(a)(1), that upon payment of the State Capital Contribution into the account specified in a State Capital Contribution Notice, the amount of Actual Debt for the purposes of the Project Documents will be reduced by the amount of such payment; and
 - (3) that upon prepayment of the Actual Debt in accordance with clause 11.1(a)(1), the relevant facilities under the Finance Documents will be cancelled to the extent of the prepayment and that such prepaid amounts will not be available for redrawing, other than as permitted in clause 11.1(c).
- (b) **(Receipt of State Capital Contribution)**: The Security Trustee and the Agent must notify the State promptly upon receipt of the State Capital Contribution into the relevant account, and confirm in that notice each of the matters referred to in clause 11.1(a).
- (c) **(Redraw)**: Finance Co may redraw the amount of any Actual Debt prepaid utilising the State Capital Contribution provided that:
 - (1) the amount, pricing and tenor of any amounts so redrawn do not exceed those set out in the Financial Model; and

- (2) for the avoidance of doubt, if any Amendment is proposed to be made at the time of the redraw, such Amendment will require the consent of the State under clause 10.

11.2 State Construction Contribution

- (a) **(No prepayments):** Prior to the Date of Provisional Acceptance, Finance Co must not make, and the Agent and Security Trustee must each not permit Finance Co to make, a prepayment of the Construction Facility, except with the prior consent of the State.
- (b) **(Insurance proceeds):** If, notwithstanding clauses 8 and 11.2(a), the Security Trustee applies the amount of any Insurance proceeds to the prepayment of Actual Debt, other than as permitted under the Project Agreement, the State will not be required to pay any further State Construction Contributions.
- (c) **(Equity Proceeds):** The parties agree that prior to the Expiry Date, all amounts of Equity (as defined in the Facility Agreement) and any drawings under the 'Equity Support' (as defined in the Facility Agreement) must be deposited in the Construction Proceeds Account (as required under the Finance Documents).

11.3 State Construction Contribution Withdrawals

- (a) **(No waiver of withdrawal conditions):** Unless the State gives its prior consent to an amendment or waiver of such conditions:
 - (1) Project Co must ensure that withdrawals are only made from the Construction Proceeds Account on the conditions set out in the Finance Documents having been satisfied; and
 - (2) the Agent must not consent to an amendment or waiver of any such conditions to withdrawal from the Construction Proceeds Account.
- (b) **(State consent):** Without limiting the State's discretion under clause 11.3(a), the State will not be obliged to consider a request for its consent under clause 11.3(a) unless:
 - (1) the Agent and either Project Co or Finance Co have provided the State with such information as the State reasonably requires concerning the requested consent, including in the case of the Agent, engaging in a good faith consultation with the State as to why the Financiers propose to give their consent to the amendment or waiver;
 - (2) the State has received confirmation from the Agent that the Agent will consent to the proposed amendment or waiver if the State will give its consent, together with confirmation of any conditions in favour of both the State and the Agent that will be imposed by the Agent;
 - (3) to the extent that the amendment or waiver relates to a failure to satisfy the Cost to Complete Test (as defined in the Facility Agreement), the State is satisfied that either sufficient funding sources are nevertheless reasonably likely to be available to enable the Project to achieve Provisional Acceptance or the shortfall is otherwise reasonably likely to be corrected prior to the Date of Provisional Acceptance;
 - (4) to the extent that the amendment or waiver relates to a default under the Finance Documents, Project Co commits to, and the Agent approves, arrangements to ensure that default is remedied or its consequences are overcome;

- (5) the amounts to be withdrawn from the Construction Proceeds Account will not be used directly or indirectly to pay or repay principal, interest, fees, charges or hedge break costs under the Finance Documents which are not provided for in the Financial Model; and
 - (6) the amounts to be withdrawn from the Construction Proceeds Account will not be used to pay any Distributions.
- (c) **(Application of State Construction Contribution):** The Agent acknowledges that Project Co may only use amounts withdrawn from the Construction Proceeds Account after the date on which the first State Construction Contribution is paid into the Construction Proceeds Account for the payment of SCC Project Costs or GST related to SCC Project Costs in accordance with clause 33.4 (*Payment of State Construction Contributions*) of the Project Agreement.
- (d) **(Simultaneous withdrawals):** Subject to this clause 11, it is the intention of the State and the Agent that withdrawals from the Construction Proceeds Account in respect of Actual Debt and State Construction Contributions will occur simultaneously and only in circumstances where all withdrawal conditions under the Finance Documents and the State Project Documents are satisfied. To the extent that a condition under any such document remains unsatisfied or the balance of the Construction Proceeds Account is or would be insufficient to meet the amount required to be withdrawn, then the Agent must not permit a withdrawal unless and until that condition is satisfied or the account balance is sufficient (as applicable).
- (e) **(No amendment by the State):** The State will not agree to any amendment to the State Construction Contribution Schedule without the prior consent of the Agent.
- (f) **(No amendment by the Agent):** The Agent agrees that, notwithstanding clause 10.1, any consent to an amendment to the Drawdown Schedule under and as defined in the Facility Agreement may be given or withheld by the State in its absolute discretion.
- (g) **(Provision of information):** The State:
 - (1) may from time to time request from the Agent (and provide a copy of such request to Project Co) or Project Co, any information or analyses prepared by the Financiers (other than any confidential internal papers of a Financier) in relation to the manner in which Project Co has applied or may apply funds withdrawn from the Construction Proceeds Account, over and above any information provided in a State Construction Contribution Notice, and the Agent or Project Co (as applicable) will promptly comply with any such request where it is reasonable to do so; and
 - (2) acknowledges that any information or analysis provided under clause 11.3(g)(1) is, unless expressly agreed otherwise, provided on a non-reliance basis, and may be subject to such other conditions (including as to confidentiality) as the disclosing party may reasonably require, and the State may not bring any Claim against Project Co, the Agent, or a Financier in relation to any such information or analysis.

12 Construction Bond

- (a) **(Default by D&C Subcontractor):** Where any obligation of Project Co to pay the State under the Project Agreement has arisen by reason of default by the D&C Subcontractor under the D&C Subcontract, and that obligation is not satisfied within 10 Business Days of receipt of demand, each Project Entity, the Agent and the Security Trustee agree with the State that:
- (1) to the extent that Project Co has a right to set off or deduct an amount owing by the D&C Subcontractor arising from the relevant default from a claim for payment by the D&C Subcontractor due under the D&C Subcontract, which a Project Entity would otherwise be entitled to draw under the Finance Documents, the relevant Project Entity will set off that amount, draw down the equivalent amount and pay it to the State at the time set off is exercised; and
 - (2) to the extent that Project Co does not have a right of set off or deduction as described in clause 12(a)(1) it will comply with:
 - (A) clause 12(b)(1) in relation to the period prior to Provisional Acceptance; and
 - (B) clause 12(b)(2) in relation to the period commencing on the Date of Provisional Acceptance and ending 24 months after Final Acceptance.

- (a) **(ACICA Rules):** Arbitration in accordance with this clause 17 will be conducted in accordance with the arbitration rules of the Australian Centre for International Commercial Arbitration (known as the **ACICA Rules**) as current at the date the Dispute is referred to arbitration and as otherwise set out in this clause 17 with this clause 17 having priority to the extent of any inconsistency.

 - (4) the oral hearing must be conducted on a stop clock basis with the effect that the time available to the parties must be split equally between the parties so that each party has the same time to conduct its case unless in the opinion of the arbitrator, such a split would

breach the rules of natural justice or is otherwise unfair to one of the parties;

- (5) not less than 28 days prior to the date fixed for oral hearing each of the Disputing Parties must give notice of those witnesses (both factual and expert) of each other Disputing Party that it wishes to attend the hearing for cross examination;

- (e) **(Experts):** Unless otherwise ordered each Disputing Party may only rely upon one expert witness in connection with any recognised area of specialisation.

17.5 Proportional liability

18 GST

- (a) **(GST exclusive amounts):** Unless otherwise expressly stated, all amounts referred to in this Deed or any Project Document are exclusive of GST.
- (b) **(GST payable by Supplier):** If GST becomes payable on any Taxable Supply made by a party (**Supplier**) under or in connection with this Deed:
 - (1) any amount payable or consideration to be provided in accordance with any other provision of this Deed for that Taxable Supply (**Agreed Amount**) is exclusive of GST;
 - (2) an additional amount will be payable by the party which is the recipient of the Taxable Supply (**Recipient**), equal to the amount of GST payable on that Taxable Supply as calculated by the Supplier in accordance with the GST Law, which will be payable at the same time and in the same manner as for the Agreed Amount; and
 - (3) the Supplier will provide a Tax Invoice to the Recipient in connection with that supply, either at the time expressly set out in any other provision of this Deed or no later than the time at which the Agreed Amount for that Taxable Supply is to be provided in connection with this Deed. The Recipient is not obliged to pay any amount in accordance with this clause 18(b) unless and until a Tax Invoice is received by the Recipient in connection with the Taxable Supply except where the Recipient is required to issue the Tax Invoice.
- (c) **(Variation in GST payable):** If for any reason, the GST payable by the Supplier in connection with a supply it makes under or in connection with this Deed (incorporating any increasing adjustments or decreasing adjustments relating to that supply) varies from the additional amount it received from the Recipient under clause 18(b) in connection with that supply, the Supplier will provide a refund or credit to, or will be entitled to receive from, the Recipient (as appropriate) the amount of this variation. Where an adjustment event occurs in relation to a supply and except where the Recipient is required to issue the Adjustment Note:

- (e) **(Expert Determination):** If the Recipient is dissatisfied with any calculation to be made by the Supplier in connection with this clause 18 the Recipient may, at its own expense and after notifying the Supplier accordingly, refer the matter to an independent expert nominated by the President of the Institute of Chartered Accountants for expert determination, which will be final and binding on all parties (except in the case of manifest error). The expert will act as an expert and not as an arbitrator and must take into account the terms of this Deed, the matters required to be taken into account by the Supplier in connection with this clause 18 and any other matter considered by the expert to be relevant to the determination. The parties release the expert from any liability in acting as an expert, except in the case of fraud on the part of the expert.
- (f) **(Revenue net of GST):** Any reference in this Deed to price, value, sales, revenue, profit or a similar amount (**Revenue**), is a reference to the GST exclusive component of that Revenue, unless the contrary intention is expressed.
- (g) **(Cost net of GST):** Any reference in this Deed to cost, expense, liability or other similar amount (**Cost**) of a party, is a reference to that Cost reduced by the Input Tax Credits to which the party is entitled in respect of such Cost, unless the contrary intention is expressed.
- (h) **(Recipient Supply):** To the extent that the consideration provided for the Supplier's taxable supply to which clause 18(b) applies is a taxable supply made by the Recipient (**Recipient Supply**), then:
 - (1) the additional amount for GST that would otherwise be payable by the Recipient to the Supplier in accordance with clause 18(b)(2) shall be reduced by the amount of GST payable by the Recipient on the Recipient Supply; and
 - (2) the Recipient must issue to the Supplier a tax invoice for any Recipient Supply at the same time that the Supplier is required to issue a tax invoice to the Recipient for the Supplier's corresponding taxable supply pursuant to clause 18(b)(3).
- (i) **(General obligation):** Each party agrees to do all things, including providing Tax Invoices and other documentation, that may be necessary or desirable to enable or assist the other party in determining its GST payable on any supply made by that other party in connection with this Deed, or any input tax credits, adjustments or refunds in relation to any amount of GST paid or payable in connection with any supply made under or in connection with this Deed.
- (j) **(GST Groups):** For the purposes of this Deed, a reference to GST payable on a Taxable Supply made by a party includes any corresponding GST payable by the representative member of any GST group of which that party is a member and a reference to an input tax credit entitlement of a party includes any corresponding input tax credit entitlement of the representative member of any GST group of which that party is a member, and if a party to this Deed makes a

Taxable Supply by virtue of entering into or performing this Deed and the 'recipient' of that Taxable Supply (within the meaning of the GST Act) is an Associate of another party to this Deed (which for this purpose includes, in relation to the State, MMRA), that other party to this Deed will be obliged either to pay the amount referred to in clause 18(b)(2) or procure that the actual recipient pays the relevant amount, and the payer of that amount shall be the 'Recipient' for the purposes of this clause 18 in relation to the relevant Taxable Supply.

- (k) **(Project Agreement to prevail):** If clause 59 (*Taxes*) of the Project Agreement would apply in connection with a Taxable Supply to which this clause 18 also applies then clause 59 (*Taxes*) of the Project Agreement will apply in connection with that supply and the provisions of this clause 18 (but for this paragraph) will not apply.
- (l) **(Definitions):** In this clause 18, unless otherwise defined in or for the purposes of this Deed, terms used have the meanings given to them in the GST Law.

20.4 Survival of certain provisions

 - (2) only be liable to pay or satisfy any of its obligations or liabilities under this Deed in relation to the relevant CY Trust out of the assets of that CY Trust out of which it is actually indemnified;
 - (3) not be liable to pay or satisfy any of its obligations or liabilities under this Deed in its personal capacity out of any asset held by it personally (other than out of the property the subject of the State Securities); and
 - (4) only be liable to pay or satisfy any of its obligations or liabilities under the Project Documents in its personal capacity out of the property the subject of the State Securities held by it personally.
- (c) **(Circumstances where a CY Trustee is personally liable):**
 - (1) Each CY Trustee will be personally liable under this Deed for any loss or damage which the State may suffer as a result of a breach of this Deed by that CY Trustee where such breach is caused by:
 - (A) fraud of that CY Trustee;
 - (B) wilful default of that CY Trustee;
 - (C) that CY Trustee having committed a breach of trust;
 - (D) that CY Trustee having been negligent in the performance of its duties as trustee of the relevant CY Trust;
 - (E) a representation or warranty given by that CY Trustee under this Deed in respect of itself (in any capacity) or the relevant CY Trust being untrue, incorrect or misleading when made or repeated; or
 - (F) a breach of any undertaking (other than an undertaking to pay) of that CY Trustee given under this Deed.
 - (2) The State may:

- (A) do anything necessary to enforce its rights in connection with any representation or warranty (with respect to the relevant CY Trustee or the relevant CY Trust) or undertaking (other than an undertaking to pay) given by any CY Trustee under this Deed;
 - (B) do anything necessary to enforce its rights under each State Security;
 - (C) take proceedings to obtain an injunction or other order to restrain any breach of this Deed by any CY Trustee or declaratory relief or other similar judgment or order as to the obligations of any CY Trustee under this Deed; and
 - (D) prove in any insolvency proceedings in respect of any CY Trustee only in order to protect and enforce its rights in respect of the property of the relevant CY Trust and the Trustee's Indemnity.
- (3) Nothing in this clause 1.11 prevents the State obtaining any injunctive relief, order for specific performance, declaration or similar relief against any CY Trustee.
- (d) **(Limited recourse):** The State must not, except to the extent a CY Trustee is personally liable under clause 1.11(c)(1) and subject to clauses 1.11(c)(2) and 1.11(e):
 - (1) bring any proceeding for the winding up or liquidation of a CY Trustee;
 - (2) appoint, or seek the appointment of, a receiver or receiver and manager or other controller (as defined in the Corporations Act) to a CY Trustee or its assets or the assets of a CY Trust other than one appointed over any property secured by the State Securities;
 - (3) incur, or permit any receiver, receiver and manager appointed under a State Security, attorney appointed under a State Security or any other person to incur, any obligation binding on a CY Trustee unless the obligation is limited in accordance with this clause 1.11;
 - (4) take any action to obtain a judgment against a CY Trustee or to enforce a judgment against a CY Trustee other than:
 - (A) a judgment required to prove the amount of the Secured Money;
 - (B) a counterclaim in any proceedings commenced by a CY Trustee; or
 - (C) as permitted by clause 1.11(c)(3); or
 - (5) levy or enforce a levy or distress or other execution upon or against any assets of a CY Trustee other than any property secured by the State Securities or the assets of the relevant CY Trustee or CY Trust.
- (e) **(No limitation on enforcement of security provided under the State Securities):** This clause 1.11 does not limit or affect in any way the enforcement of the State Securities and, for the avoidance of doubt, it is acknowledged and agreed by each CY Trustee (in its personal capacity and as trustee for the relevant CY Trust) that the security granted under the State Securities by it constitutes a Security Interest over all of the Trust Property and all of its Trustee's Indemnity.
- (f) **(CY Trustee as Partner):** A reference to a CY Trustee includes a reference to the relevant CY Trustee as a partner in the Cross Yarra Partnership.

2 Conditions precedent

The satisfaction or waiver of the Conditions Precedent in accordance with clause 3 (*Conditions Precedent*) of the Project Agreement, is a condition precedent to the coming into operation of this Deed (other than this clause 2 and clauses 1.1, 1.2, 1.3, 1.8 to 1.10, 5 and 16 to 18).

3 Security Interest

3.1 Creation

- (a) **(Security interest):** Each Grantor grants a security interest in the Collateral to the State to secure the satisfaction of the Obligations and the payment of the Secured Money.
- (b) **(Nature):** This security interest is:
 - (1) a transfer by way of security of Collateral consisting of:
 - (A) accounts or chattel paper which are not, or cease to be, Revolving Assets; or
 - (B) a Project Document; and
 - (2) a charge of the Collateral not so transferred.
- (c) **(Further action):** If any law governing this Deed requires that some action be taken or some consent be obtained before a valid security interest can be granted by a Grantor over any part of the Collateral, then this security interest will only apply to that part of the Collateral once such action is taken or consent is obtained but will at all times apply to the relevant proceeds from that Collateral. Each Grantor agrees to promptly do anything necessary to ensure that the relevant action is taken or consent is obtained and remains in force.

3.2 Nature of security interest over Non PPSA Property

To the extent that any Non PPSA Property subject to this security interest consists of a Revolving Asset, this security interest will operate as a floating charge in respect of that property until it ceases to be a Revolving Asset. This security interest will otherwise operate as a fixed charge over all Non PPSA Property.

3.3 Priority

Subject to the Finance Direct Deed, this security interest is a first ranking security and takes priority over all other Encumbrances given by each Grantor.

3.4 State assumes no obligations

The State will not be deemed by virtue of this Deed to have assumed any obligation of the Grantor under any Law.

4 Dealing with Collateral

4.1 Dealing restrictions

Each Grantor will not without the State's prior consent or as expressly permitted in any other State Project Document:

- (a) **(no encumbrances)**: create, purport or attempt to create or permit to exist any Encumbrance over the Collateral other than a Permitted Encumbrance;
- (b) **(no dealing)**: subject to clause 4.2, Deal with any part of the Collateral; or
- (c) **(not to prejudice)**: do, fail to do or consent to any act, omission or thing as a result of which the Collateral becomes or could become liable to surrender, forfeiture or cancellation, or becomes or could become prejudiced in any manner, or the value to the State of any Encumbrance under this Deed becomes or could become materially lessened.

4.2 Licence to Deal

Subject to clause 4.3, each Grantor may Deal with (but not grant any Encumbrance other than a Permitted Encumbrance over) any Revolving Asset in the ordinary course of its ordinary business.

4.3 Termination of licence to Deal

- (a) **(End of licence)**: A Grantor's licence to Deal with any Revolving Assets under clause 4.2 will come to an end if:
 - (1) that Grantor breaches clause 4.1 or takes any steps which would result in a breach of that clause;
 - (2) an Authority takes a step (including signing a notice or direction) which may result in Taxes ranking ahead of the security interest created by this Deed;
 - (3) an Insolvency Event occurs in relation to that Grantor; or
 - (4) an Enforcement Event occurs.
- (b) **(Reinstatement of licence)**: A Grantor's licence to Deal may be reinstated by the State giving that Grantor a notice stating that, from a date specified in the notice, the Collateral specified in the notice is again subject to the licence to Deal.

4.4 Notice to debtor or contractual counterparty

Each Grantor authorises the State to give notice to any debtor or contractual counterparty under any:

- (a) account or chattel paper which is not, or ceases to be, a Revolving Asset; or
- (b) Project Document transferred under clause 3.1(b)(1)(B).

4.5 Control of inventory

Any inventory which is not, or ceases to be, a Revolving Asset is specifically appropriated to the Security Interest under this Deed. No Grantor may remove any such inventory without obtaining the specific and express authority of the State to do so.

4.6 Finance Direct Deed

Despite any other provision in this Deed, the State's rights in accordance with this Deed, including the exercise of any power by the State, a receiver or an attorney, are subject to the Finance Direct Deed.

5 Representations and warranties by the Grantors

5.1 Representations and warranties

Each Grantor represents and warrants for the benefit of the State that:

- (a) **(good title)**: it has good right and title to grant a security interest in the Collateral in the manner provided in this Deed;
- (b) **(no Encumbrances)**: the Collateral is free of all Encumbrances other than in favour of the State or Permitted Encumbrances; and
- (c) **(information for financing statement)**: the State has received from the Grantor all information reasonably requested by the State to complete the financing statement (or financing change statement if necessary) for this Deed and that information is true and correct in all respects.

5.2 Repetition of representations and warranties

The representations and warranties of each Grantor under clause 5.1 are made and given on the date of this Deed and each of them is taken to be repeated on the first Business Day of each Quarter commencing after the date of this Deed whilst any Secured Money remains outstanding or any Obligation remains unfulfilled (whether or not then due for payment or fulfilment, respectively), with reference to the facts and circumstances then subsisting at those dates.

 - (2) take all steps reasonably necessary to ensure that all Security Interests which it holds are attached, enforceable and continuously perfected under the PPSA until the obligations they secure are satisfied or they are released for value;
 - (3) at the request of the State, effect all registrations that the State, acting reasonably, considers necessary or desirable for the preservation, protection or recovery of the Collateral;
 - (4) as and when reasonably requested by the State, provide the State with written details of any property in which it has rights that is, or is capable of being, subject to a purchase money security interest in favour of any third party and the amount secured;
 - (5) not permit the Collateral, or any part of the Collateral to become:
 - (A) commingled with any asset that is not subject to the Security Interest under this Deed, except in the ordinary course of that Grantor's business; or

 - (2) has been perfected by registration under the PPSA.

9 State's powers

9.1 Exercise of rights

- (a) **(State's rights)**: Subject to clause 9.1(b), while an Enforcement Event subsists the State may without notice and whether or not a Receiver has been appointed:
- (1) exercise all or any of the rights conferred on a Receiver or which would be conferred on a Receiver if appointed, as if those rights had been expressly conferred on the State;
 - (2) exercise all other rights; and
 - (3) appoint an agent or joint and several agents and delegate such powers to it or them (in which case clauses 8.1, 8.4 and 8.6 will apply as if it or they were appointed as the Receiver).
- (b) **(Withdrawal)**: If the State must withdraw the appointment of the Receiver in accordance with clause 8.2(b), the State must as soon as practicable cease to exercise rights under this clause 9.1.

9.2 Act jointly

The State or the Receiver may exercise any of the rights in conjunction with the exercise of similar powers by any other holder of an Encumbrance of the whole or part of the Collateral or by any Receiver appointed by that other holder of an Encumbrance, and may enter into and give effect to agreements and arrangements with that other holder of an Encumbrance or receiver as the State or the Receiver thinks fit.

9.3 Power of attorney

- (a) **(Acts requested by State)**: As from the date of this Deed, for the purpose of doing any act which a Grantor is required to do under this Deed, each Grantor irrevocably appoints the State, and each agent and attorney from time to time of the State, and any Receiver appointed under this Deed, severally, as attorney of the relevant Grantor, with power to:
- (1) do all acts which are required to be done by that Grantor under this Deed and which that Grantor has failed to do within 20 Business Days of being requested by notice to do so by the State; and
 - (2) appoint (and remove at will) at any time any person as a substitute for an attorney.
- (b) **(Acts while certain circumstances subsist)**: Each Grantor irrevocably appoints the State, each agent from time to time of the State, and any Receiver appointed under this Deed, severally, as attorney of the relevant Grantor, with power while an Enforcement Event subsists to:

 - (3) appoint (and remove at will) at any time any person as a substitute for an attorney.
- (c) **(Ratification and confirmation):** Each Grantor ratifies and confirms now and for the future all actions lawfully undertaken by or on behalf of its attorney under this Power of Attorney.
- (d) **(Duration):** Each Grantor declares that this Power of Attorney will continue until the discharge of this Deed.

9.4 Exclusion of PPSA provisions

To the extent permitted by law, and in respect of each Security Interest created by this Deed:

- (a) **(contracting out):** the parties contract out of sections 95, 121(4), 125, 130, 132(3)(d), 132(4), 135, 142 and 143 of the PPSA (to the extent, if any, mentioned in section 115(1) of the PPSA);
- (b) **(waiver under PPSA):** each Grantor waives its rights to receive any information under section 275 of the PPSA and agrees not to make any request under that section or to take any action which would otherwise require the State to make a disclosure under that section; and
- (c) **(waiver of verification statement):** each Grantor irrevocably and unconditionally waives its right to receive any notice of any verification statement in respect of any financing statement or financing change statement relating to this Deed.

9.5 Exercise of rights

If the State exercises a right in connection with this Deed, that exercise will be taken to be an exercise of the right under the general law unless the right is only available under the PPSA or the State states otherwise at the time of exercise.

10 Time periods

10.1 Exclusion of time periods

Neither the State nor any Receiver need give any Grantor any notice or demand or allow time to elapse before exercising a right under this Deed or conferred by Law (including a right to sell) unless the notice, demand or lapse of time is required by Law and cannot be excluded, or is otherwise expressly required by this Deed.

10.2 Mandatory notice period

If the Law requires that a period of notice must be given or a lapse of time must occur or be permitted before a right under this Deed or conferred by Law may be exercised, then:

- (a) **(mandatory period)**: when a period of notice or lapse of time is mandatory, that period of notice must be given or that lapse of time must occur or be permitted by the State; or
- (b) **(fixed period)**: when the Law provides that a period of notice or lapse of time may be stipulated or fixed by this Deed, then one day is stipulated and fixed as that period of notice or lapse of time including (if applicable) as the period of notice or lapse of time during which:
 - (1) default must continue before a notice is given or requirement otherwise made for payment of the Secured Money or the observance of other obligations under this Deed; and
 - (2) a notice or request for payment of the Secured Money or the observance of other obligations under this Deed must remain not complied with before the State or a Receiver may exercise its rights.

11 Application of money

11.1 Priority of payments

Subject to the Finance Direct Deed, all money received by the State or by the Receiver as a result of the exercise of the rights may be applied:

- (a) **(incidental to exercise of rights)**: in payment of all fees, costs, charges, expenses and disbursements incurred in or incidental to the exercise or performance or attempted exercise or performance of any of the rights;
- (b) **(outgoings)**: in payment of any other outgoings as the State or the Receiver thinks fit;
- (c) **(payment of prior encumbrances)**: in payment of other Encumbrances of which the State is aware to the extent to which they have priority to this Deed, in the order of their priority;
- (d) **(payment of Secured Money)**: in payment of the Secured Money then owing or contingently or prospectively owing, whether or not due and payable;
- (e) **(subsequent encumbrances)**: in payment of subsequent Encumbrances of which the State is aware to the extent to which they have priority after this Deed, in the order of their priority; and
- (f) **(surplus)**: if there is any surplus (which will belong to the relevant Grantor but will not carry interest), in payment to the relevant Grantor.

11.2 Money received

In applying any money towards satisfaction of the Secured Money, each Grantor will be credited only with so much of the money available for that purpose as will be actually received by the State or the Receiver in relation to the relevant Collateral and not required for whatever reason to be disgorged, any credit to be dated from the time of receipt. It is acknowledged that the amount of money actually received in relation to relevant Collateral may be a function of the amount attributed to the Collateral by the State or the Receiver.

11.3 Application of payments or credits

Each of the State and the Receiver has an absolute discretion to apply any payment or credit received by it under this Deed (and, to the extent relevant, attributed to the Secured Money) in reduction of any part or parts of the Secured Money, whenever and on whatever account the Secured Money became secured, notwithstanding any principle or presumption of Law to the contrary or any direction given at the time of receipt, and without the need to communicate its election to any person.

11.4 Reliance on certificate

In making any payment to any other holder of an Encumbrance under clause 11.1, the State and the Receiver may rely on a certificate from that holder of an Encumbrance as to the amount secured, and are not bound to enquire as to the accuracy of the certificate or whether the amount referred to is validly secured by the Encumbrance.

12 Liability and release

12.1 Continuing obligation

Subject to clause 12.5, this Deed constitutes a continuing obligation regardless of any settlement of account, intervening payment, express or implied revocation, or any other matter or thing. Without limiting the generality of the foregoing, each indemnity in this Deed is a separate additional and continuing obligation and will survive the discharge of this Deed. Unless otherwise agreed, payment by the State will not be a pre-condition to liability under any indemnity.

12.2 Personal liability

No grant of full or partial satisfaction of or discharge from this Deed by the State will, unless it expressly provides otherwise, release a Grantor from personal liability under this Deed or under any other State Project Document until none of the Secured Money is owing (whether actually, contingently or prospectively) and it is not reasonably foreseeable that there could be any Secured Money owing in the future.

12.3 Settlement conditional

- (a) **(Conditions on settlement):** Any settlement or discharge between the State and a Grantor is conditional on any security or payment given or made to the State by the relevant Grantor or any other person in relation to the Obligations relating to a Grantor not being avoided, repaid or reduced by virtue of any Insolvency Provision. If the security or payment is avoided, repaid or reduced, the State is entitled to recover the value or amount of such security or payment avoided, repaid or reduced from the Grantors subsequently as if that settlement or discharge had not occurred.
- (b) **(Consequences of settlement):** If:
 - (1) the State has at any time released or discharged:
 - (A) a Grantor from its Obligations; or
 - (B) any assets of a Grantor from this Deed,

- in either case in reliance on a payment, receipt or other transaction to or in favour of the State; or
- (2) any payment, receipt or other transaction to or in favour of the State has the effect of releasing or discharging:
 - (A) a Grantor from its Obligations; or
 - (B) any assets of a Grantor from this Deed; and
 - (3) that payment, receipt or other transaction is subsequently claimed by any person to be void, voidable or capable of being set aside for any reason, including under an Insolvency Provision or under any other law; and
 - (4) that claim is upheld or is conceded or compromised by the State, then:
 - (5) the State will immediately become entitled against the relevant Grantor to all rights as it had immediately before that release or discharge; and
 - (6) the relevant Grantor must, to the extent permitted by law:
 - (A) immediately do all things and execute all documents as the State, acting reasonably, may require to restore to the State all those rights; and
 - (B) indemnify the State against all costs, damages, claims, demands and actions suffered or incurred by it in or in connection with any negotiations or proceedings relating to the claim or as a result of the upholding, concession or compromise of the claim.

12.4 Grantors' liability not affected

This Deed and the Liability and responsibility of each Grantor and the State's rights against each Grantor under this Deed or otherwise according to Law, will not be affected or discharged by any of the following:

- (a) **(indulgence)**: the granting to any Grantor or to any other person of any time or other indulgence or consideration;
- (b) **(Project Documents)**: the State failing or neglecting to recover by the realisation of any Project Documents, other Encumbrance or otherwise any of the Secured Money relating to any Grantor;

12.5 Release of Collateral

The State will, upon application by a Grantor, grant a release of the relevant Collateral from this Deed, if at the time the release is to be provided, the State is satisfied that none

of the Secured Money is owing (whether actually, contingently or prospectively) and none of the Obligations remain to be performed.

13 Liability and indemnity

13.1 Waiver by Grantors

To the extent permitted by Law, each Grantor waives in favour of the State:

- (a) any requirement that the State take any action or exhaust any right against any other person before enforcing this Deed against any Grantor;

- (c) promptness and diligence on the part of the State; and
- (d) all rights inconsistent with the provisions of this Deed.

13.2 No liability for loss

To the extent permitted by Law, neither the State, nor any Receiver will have any Liability for any omission, delay or mistake or any loss or irregularity in or about the exercise or attempted exercise, non-exercise or purported exercise of any right, except for fraud or wilful act or omission.

13.3 No liability to account

To the extent permitted by Law, neither the State nor any Receiver will, by reason of the State or the Receiver entering into possession of the whole or part of the Collateral, be liable to account as mortgagee or secured party in possession, or for anything except actual receipts (and, if relevant, attributed to the Collateral), or be liable for any loss on realisation or for any default, omission, delay or mistake for which a mortgagee or secured party in possession might be liable.

13.4 No conflict

The State and any Receiver may exercise any right notwithstanding that the exercise of that right involves a conflict between any duty owed to a Grantor by the State or that Receiver and any duty owed by the State or that Receiver to any other person, or the interests of the State or that Receiver. No contract will be void or voidable by virtue of any such conflict of duty or interest, nor will the State or any Receiver be liable to account to any Grantor or any other person for any money or property as a result of such conflict.

13.5 No notice or enforcement

The State need not give any notice of the security created by this Deed to any debtor of any Grantor, or to any purchaser, or to any other person, or to enforce payment of any money payable to any Grantor, or realise any of the Collateral, or to take any steps or proceedings for that purpose.

13.6 Indemnity

The Grantors bear all risks with respect to and must indemnify the State and the Receiver on demand against any Claim or Liability (including any Claim made by, or Liability to, a third party) which the State or any Receiver suffers or incurs arising out of or in respect of or in connection with:

- (a) **(exercise of right)**: the exercise, attempted exercise or non-exercise of any right under this Deed, including (without limitation) those consequent on any mistake, oversight, error of judgment or want of prudence on the part of the State or any Receiver, unless the same is due to fraud or wilful act or omission;
- (b) **(Enforcement Event)**: a consequence of the occurrence of an Enforcement Event; and
- (c) **(act or omission)**: any act or omission for which the State or any Receiver is exonerated by this Deed.

No person acquiring any money or asset from, or paying or handing over any money or asset to, or otherwise dealing with, the State, the Receiver or any attorney appointed under this Deed, or to whom is tendered for registration an instrument executed by the State, the Receiver or any attorney appointed under this Deed, will be:

- (a) **(inquiries)**: bound to inquire:
 - (1) whether the State or the Receiver has the right to dispose of any money or asset;
 - (2) whether an Enforcement Event has occurred;
 - (3) whether any of the Secured Money is owing or payable;
 - (4) whether the Receiver or an attorney has been properly appointed;
 - (5) as to the propriety or regularity of the exercise or purported exercise of any right; or
 - (6) as to any other matter or thing;
- (b) **(actual or constructive notice)**: affected by actual or constructive notice that any transaction, document or other dealing is unnecessary or improper; or
- (c) **(application of money or asset)**: concerned to see to the application of any money or asset, or be answerable or accountable for any loss or misapplication of any money or asset,

and the irregular, improper or unnecessary exercise of any right will be, as regards the protection of any such person, deemed to be authorised by each Grantor and valid.

14 Payments

14.1 Money repayable as agreed or on demand

Unless otherwise provided in the Project Agreement, the Secured Money will be payable by the Grantors to the State in Australian dollars on the due date (or if no date is specified immediately on demand by the State).

14.2 Payment of interest

The Grantors will pay interest on the Secured Money which is due and payable to the State but unpaid in accordance with any State Project Document or, in the absence of any relevant provision, at the Overdue Rate calculated daily from, but excluding, the date upon which or the expiration of the period within which they should have been paid to, and including, the date upon which the moneys are paid.

14.3 Capitalisation of interest

The State may capitalise any interest which has become due and owing in accordance with any State Project Document or, in the absence of any relevant provision, then at such periods of not less than one Month and from such dates as the State elects. The accumulation of capitalised interest may continue until the Secured Money has been paid in full notwithstanding any composition, compromise judgment or order in respect of any person or any other thing.

14.4 Merger

If the liability of a Grantor to pay to the State any of the Secured Money becomes merged in any judgment or order, as an independent obligation that Grantor will pay interest at the rate which is the higher of that payable under this Deed and that fixed by or payable under that judgment or order.

14.5 No deduction for taxes and no set off or counterclaim

All payments by a Grantor under any State Project Document, whether of principal, interest or other amounts, will (except as provided for in a Project Document) be:

- (a) **(no set off or counterclaim)**: free of any set off or counterclaim; and
- (b) **(no deduction or withholding)**: without deduction or withholding for any present or future Tax unless that Grantor is compelled by law to deduct or withhold the same, in which case that Grantor will pay to the State any additional amounts necessary to enable the State to receive, after all deductions and withholding for such Tax, a net amount equal to the full amount which would otherwise have been payable had no such deduction or withholding been required to be made.

15 Termination of this Deed

- (a) **(Termination)**: This Deed will terminate on the latest of:
 - (1) performance and satisfaction of all of the Obligations; and
 - (2) the date on which all Secured Money has been repaid in full.

If any dispute or difference of opinion arises between the parties under this Deed, each party may refer any such matter for resolution in accordance with this clause 17 and the dispute or difference of opinion must be resolved in the same manner that disputes or differences of opinion under the Project Agreement are resolved. Accordingly, the provisions of clause 46 (*Dispute Resolution*) and clause 47 (*Arbitration*) of the Project Agreement are incorporated into this Deed but as if:

- (c) **(No waiver of another breach):** No waiver of a breach of a term of this Deed operates as a waiver of another breach of that term or of a breach of any other term of this Deed.

18.12 Proportionate liability

- (a) **(Excluded operation of Wrongs Act):** The operation of Part IVAA of the *Wrongs Act 1958* (Vic) is excluded in relation to all and any rights, obligations or liabilities of either party under this Deed whether such rights, obligations or liabilities are sought to be enforced in contract, tort or otherwise.
- (b) **(Rights, obligations and liabilities):** Without limiting clause 18.12(a), the rights, obligations and liabilities of the parties (including those relating to proportionate liability) are as specified in this Deed and not otherwise, whether such rights, obligations or liabilities are sought to be enforced in contract, tort or otherwise.

- (b) The D&C Subcontractor acknowledges and agrees that:
 - (i) it nominated the Delegate pursuant to clause 5.1 (*Delegation*) of the Early Works Services Agreement;
 - (ii) the Delegate remains an employee of a member of the D&C Subcontractor, and is authorised by the D&C Subcontractor to perform the Delegation Activities; and

- (iii) it will provide the Delegate with adequate resources and support to perform the Delegation Activities; and

- (c) The Delegate accepts the appointment by the State to perform the Delegation Activities.

3. Purpose of delegation

- (a) The Delegate must perform the Delegation Activities diligently and the parties acknowledge that the purpose of the Delegation Activities is for the Delegate to assume active control and management of the delivery of the Early Works to facilitate the Early Works Managing Contractor delivering the Early Works in a timely manner including by directing the Early Works Managing Contractor to make changes to the Early Works so as to minimise and mitigate the potential for further delay to the Early Works (including any relevant Stage Completion Date under the Early Works Managing Contractor Agreement) by reference to the Early Works Managing Contractor's program dated 4 October 2017 (**Early Works Current Program**) and the Tunnel and Stations PPP component of the Project.
- (b) The Delegate is authorised to perform the Delegation Activities:
 - (i) so as to minimise and mitigate delay to the Early Works (including any relevant Stage Completion Date under the Early Works Managing Contractor Agreement) and the Tunnel and Stations PPP component of the Project; and
 - (ii) without limiting the Delegate's rights under paragraph 3(b)(i), to the extent reasonably possible, in a manner that minimises additional costs payable by the State in connection with the Works, including by complying with all timeframes set out in the Early Works Managing Contractor Agreement which are relevant to the performance of the Delegation Activities.

- (i) the State must not unreasonably withhold or delay giving its consent;
 - (ii) without otherwise limiting the State's right to withhold or delay giving its consent, it will be unreasonable for the State to withhold or delay giving its consent solely on the basis that such consent will increase the cost of the Early Works; and

- (f) The Delegate may not delegate the Delegation Activities to any other person.
- (g) The Delegate must:

6.7 D&C Subcontractor Statements to be conclusive evidence

- (a) (**Reliance**): Each Statement Beneficiary is entitled to rely on a D&C Subcontractor Statement for the purpose of determining the extent of the matters occurring prior to a Default Event which are required to be remedied and the requirements to effect the remedy of that Default Event by a Statement Beneficiary.
- (b) (**Conclusive evidence**): A D&C Subcontractor Statement will, to the extent provided for in clause 6.4 and 6.5, be conclusive evidence in favour of any Statement Beneficiary that the D&C Subcontractor has waived and abandoned all Claims then known or which ought reasonably to have been known to the D&C Subcontractor arising in connection with the D&C Subcontract prior to the date of the Default Event Notice other than the Claims disclosed in the D&C Subcontractor Statement.
- (c) (**Claims against Project Co**): Clauses 6.5(b), 6.7(a) and 6.7(b) are without prejudice to the rights of the D&C Subcontractor to pursue any Claims against Project Co following the end of the Step-In Period or termination of the D&C Subcontract.
- (d) (**Disputes**): For the avoidance of doubt, a D&C Subcontractor Statement will not prevent any Statement Beneficiary from disputing the amount of any Claim or other relief sought by the D&C Subcontractor or the existence of any default by Project Co under the D&C Subcontract. In the case of any such dispute:

- (1) the time periods set out in clause 6.2(d) will continue to apply to those amounts and obligations (if any) which are not in dispute;
- (2) the dispute must be referred to dispute resolution under clauses 9 to 10; and
- (3) during the period of dispute resolution, all parties must continue to perform their obligations under this Deed and the Project Documents.

7 Step-In by the State

7.1 Step-In Right

- (a) **(Exercise):** Following receipt of a State Cure Notice or if the State is entitled to exercise any of the rights referred to in clause 3.2 or otherwise as permitted under any Project Document, the State may:
- (1) if permitted under the State Security and the Finance Direct Deed, appoint a Receiver over Project Co or any or all of its assets (including the D&C Subcontractor Documents);
 - (2) itself enter into possession of any or all of the assets of Project Co;
 - (3) take such other action as it is permitted to take under the terms of the Project Documents; or
 - (4) by notice to the D&C Subcontractor (**Additional Obligor Step-In Notice**), procure that an Additional Obligor assumes jointly and severally with Project Co all of Project Co's rights and obligations under the D&C Subcontractor Documents,
- (each a **Step-In Right**).
- (b) **(Step-In Period):** The period from the date on which the D&C Subcontractor receives notice of the exercise of any Step-In Right to the earliest of:
- (1) the Additional Obligor Step-Out Date;
 - (2) the date on which the D&C Subcontractor terminates the D&C Subcontract;
 - (3) the date of any transfer under clause 8;
 - (4) the date which the State has notified the D&C Subcontractor will be the date that the State ceases to exercise its Step-In Rights; and
 - (5) any other date on which the State ceases to continue to exercise its Step-In Rights,
- is the **Step-In Period**.
- (c) **(Acknowledgment):** The D&C Subcontractor Parties each acknowledge that the exercise by the State of a Step-In Right in the manner contemplated by this Deed will not of itself contravene the D&C Subcontractor Documents, or constitute a Default Event under the D&C Subcontract or entitle a D&C Subcontractor Party to exercise any right (including termination) under a D&C Subcontractor Document.

7.2 Step-In by the State

- (a) **(Rights):** Subject to the Finance Direct Deed, the State may at any time during a Step-In Period, exercise all or any of its rights and carry out all or any of the obligations of Project Co in connection with the D&C Subcontractor Documents, as if it were Project Co to the exclusion of Project Co.
- (b) **(No Liability):** Project Co and the D&C Subcontractor Parties each agree that, subject to clause 7.3(b):
- (1) none of the State or its Associates will have any Liability; and
 - (2) none of Project Co or the D&C Subcontractor Parties will be entitled to make, continue or enforce any Claim against the State or any of its Associates,

arising in connection with the D&C Subcontractor Documents or this Deed by reason only of the State or any of its Associates exercising any of Project Co's rights, or performing any of Project Co's obligations under the D&C Subcontractor Documents other than, and then only to the extent of, Liability for fraudulent, reckless, unlawful or malicious acts or omissions, or wilful misconduct of the State or any State Associate.

7.3 Step-In using Additional Obligor

- (a) **(Assumption Date):** If clause 7.1(a)(4) applies, the Additional Obligor will become a party to the D&C Subcontractor Documents on the date on which the Additional Obligor Step-In Notice is given to the D&C Subcontractor or such later date as the D&C Subcontractor and the State may agree (**Assumption Date**).
- (b) **(Rights and obligations of Additional Obligor):** During a Step-In Period in respect of which the State has exercised a Step-In Right under clause 7.1(a)(4):
- (1) subject to clause 7.3(b)(2), the Additional Obligor and Project Co will be jointly and severally:
 - (A) entitled to exercise the rights of Project Co under the D&C Subcontractor Documents (excluding any accrued rights of Project Co in respect of any damage, loss, cost, charge, expense, outgoing or payment to the extent that the rights arose prior to the Assumption Date) (**Project Co's Rights**); and
 - (B) liable for the performance or non-performance of all Project Co's obligations under the D&C Subcontractor Documents arising on or after the Assumption Date except as released in accordance with clause 7.3(e);
 - (2) as between Project Co, the D&C Subcontractor Parties and the Additional Obligor, only the Additional Obligor is authorised to deal with the D&C Subcontractor Parties and to exercise Project Co's Rights;
 - (3) Project Co acknowledges that it will be legally bound by all the acts and omissions of the Additional Obligor in so dealing with the D&C Subcontractor Parties and in exercising Project Co's Rights;
 - (4) the Additional Obligor will be bound by any earlier decision, directions, approvals, notices or consents given or made prior to the Assumption Date;

- (5) clause 14 will apply to the D&C Subcontractor Parties and the Additional Obligor as if the address and email address of the Additional Obligor (as notified to the D&C Subcontractor Parties and Project Co) were set out in addition to those of Project Co; and
 - (6) the D&C Subcontractor Parties will owe their respective obligations under the D&C Subcontractor Documents to Project Co and the Additional Obligor jointly but the performance by a D&C Subcontractor Party in favour of either Project Co or the Additional Obligor will be a good discharge of the relevant obligations under the D&C Subcontractor Documents.
- (c) **(No Liability)**: Without prejudice to the D&C Subcontractor's rights under clauses 6.2 and 6.3, the Additional Obligor will have no obligation to, and no Liability in respect of, remedying any default or breach of Project Co under the D&C Subcontractor Documents arising prior to the Assumption Date.
- (d) **(Additional Obligor Step-Out Date)**: The Additional Obligor may at any time give the D&C Subcontractor notice terminating the Additional Obligor's rights and obligations under the D&C Subcontractor Documents (without affecting the continuation of Project Co's obligations or liabilities towards the D&C Subcontractor Parties under the D&C Subcontractor Documents). Such notice must specify the date on which it takes effect, which must be:
- (1) at least 30 days after the date of the notice; or
 - (2) if a Novation Notice has been given, the Novation Notice Date,
- (Additional Obligor Step-Out Date)**.
- (e) **(Release)**: On and from the Additional Obligor Step-Out Date, as between the D&C Subcontractor Parties and the Additional Obligor only, each of the D&C Subcontractor Parties and the Additional Obligor will be released from all obligations under the D&C Subcontractor Documents (except for those obligations owed to each other which have arisen during the relevant Step-In Period), whether or not a Claim has been made in respect of those obligations or they have not fallen due to be performed or have not been performed. For the avoidance of doubt, on and from the Additional Obligor Step-Out Date, the D&C Subcontractor Parties will continue to owe their obligations under the D&C Subcontractor Documents to:
- (1) Project Co; or
 - (2) if a Novation Notice has been given, to the Substitute Party.

7.4 Indemnity

Project Co must indemnify the State, its Associates and any Additional Obligor against any Claim or Liability (including any Claim made by, or Liability to, a third party) the State, any of its Associates or any Additional Obligor suffers or incurs arising in connection with taking any action under clause 7.2 or clause 7.3, except to the extent that such Claim or Liability is caused or contributed to by any of the events set out in clause 42.11 (*Limits on Project Co liability to indemnify and release*) of the Project Agreement.

8 State's option to novate to the State or third party

8.1 Option

- (a) **(Novation Notice)**: The State may require a novation of the D&C Subcontractor Documents upon the termination of the Project Agreement by giving a notice **(Novation Notice)** to the D&C Subcontractor Parties. The Novation Notice must specify the person to whom the State intends to novate the D&C Subcontractor Documents whether this be the State or another person **(Substitute Party)**.
- (b) **(D&C Subcontractor's obligations to continue)**: If the State issues a Novation Notice then (without prejudice to the D&C Subcontractor's rights under clauses 6.2 and 6.3) the D&C Subcontractor Parties, until the Novation Notice Date, must continue to perform their respective obligations under the D&C Subcontractor Documents.
- (c) **(D&C Subcontractor to continue work)**: If the D&C Subcontractor has exercised any rights it has to suspend the performance of any of its obligations under the D&C Subcontract, the D&C Subcontractor must recommence performance of those obligations from the Novation Notice Date or the date on which the cause of the suspension is remedied (whichever is the earlier).
- (d) **(Novation Notice not a Default Event)**: The D&C Subcontractor Parties each acknowledge that the giving of a Novation Notice by the State will not of itself contravene, or constitute a Default Event under, a D&C Subcontractor Document, or entitle the D&C Subcontractor Party to exercise any power (including termination) under it.

8.2 Novation to Substitute Party

- (a) **(Effect of novation)**: Subject to clause 8.3, with effect from the Novation Notice Date:
 - (1) the Substitute Party will assume (and if the Substitute Party is not the State, the State will procure that the Substitute Party assumes):
 - (A) any obligation of Project Co under the D&C Subcontract arising before the Novation Notice Date insofar as it relates to the payment of an amount of money that:
 - 1) is due and payable under the terms of the D&C Subcontract; and
 - 2) is not the subject of a dispute under the D&C Subcontract (or is the subject of a dispute under the D&C Subcontract in which case the Substitute Party will, on the determination of such dispute, assume such obligations in accordance with that determination); and
 - (B) the obligations of Project Co under the D&C Subcontractor Documents arising on and from the Novation Notice Date (including obligations in relation to the payment of amounts which become due and payable in respect of work performed before the Novation Notice Date) subject to any amendments to the D&C Subcontractor Documents agreed in accordance with clause 8.2(a)(6);

- (2) without prejudice to any then accrued rights against Project Co (other than termination), any D&C Subcontractor's right to suspend under the D&C Subcontract which exists at the Novation Notice Date will be of no further effect;
 - (3) subject to any amendments agreed to the D&C Subcontractor Documents in accordance with clause 8.2(a)(6), the Substitute Party will have all the rights of Project Co under the D&C Subcontractor Documents (excluding any accrued rights of Project Co in respect of any damage, loss, cost, charge, expense, outgoing or payment to the extent that those rights arose prior to the Novation Notice Date and are the subject of any unresolved dispute referred to in clause 8.2(a)(1)(A)2));
 - (4) subject to clause 8.2(a)(3) and any amendments agreed to the D&C Subcontractor Documents in accordance with clause 8.2(a)(6), the D&C Subcontractor Parties will:
 - (A) be bound by and must comply with the provisions of the D&C Subcontractor Documents as if the Substitute Party were Project Co; and
 - (B) be entitled to any extensions of time and other entitlements which accrued to the D&C Subcontractor prior to the Novation Notice Date;
 - (5) Project Co is released from all of its obligations and Liabilities under the D&C Subcontractor Documents, excluding any accrued obligations or Liabilities of Project Co to the extent that those accrued obligations or Liabilities:
 - (A) arose in connection with events occurring prior to the Novation Notice Date; and
 - (B) are not obligations and Liabilities assumed by the Substitute Party under clause 8.2(a)(1);
 - (6) the D&C Subcontractor Parties and the Substitute Party will promptly negotiate in good faith, any amendments to the D&C Subcontractor Documents that are necessary to reflect the termination of the Project Agreement; and
 - (7) for the avoidance of doubt, any caps on Liability in the D&C Subcontractor Documents will continue to apply, but so that any Liability of the D&C Subcontractor Parties incurred to Project Co prior to the Novation Notice Date is taken into account in respect of any ongoing Liability of the D&C Subcontractor Parties to the Substitute Party.
- (b) **(No set off):** Neither D&C Subcontractor Party is entitled to exercise any right of set off, deduction, abatement or counterclaim against the Substitute Party if, and to the extent that, such right arose prior to the Novation Notice Date.
- (c) **(Novation Deed):** Subject to clause 8.3(b), Project Co, the D&C Subcontractor Parties and the Substitute Party must enter into an agreement in form and substance reasonably requested by the Substitute Party reflecting the novation of the D&C Subcontractor Documents as contemplated in clause 8.2(a) and take such other action as is required to vest in the Substitute Party full legal and equitable title to any retention account, bank guarantee, performance bond, letter of credit or other security held by Project Co to secure the obligations of a D&C Subcontractor Party under the D&C Subcontractor Document.

- (d) **(Attorney):** For valuable consideration, Project Co and the D&C Subcontractor Parties each irrevocably appoint the State, on its behalf and in its name or otherwise, as its attorney to do anything which Project Co or a D&C Subcontractor Party is obliged to do (but has not done within 5 Business Days of request) under clause 8.2(c). Each of Project Co and the D&C Subcontractor Parties ratifies and confirms and agrees to ratify and confirm whatever any such attorney lawfully does in the exercise of the power of attorney in this clause 8.2(d).

8.3 Novation to a Substitute Party other than the State

- (a) **(Information to be provided by the State):** If the State gives a Novation Notice that states that Project Co must novate the D&C Subcontract Documents to a Substitute Party other than the State or a State Associate, the State must, at the time it gives the Novation Notice, provide to the D&C Subcontractor Parties the following particulars of the Substitute Party:
- (1) its name, place of incorporation and identity of shareholder(s) (including, unless a shareholder is listed on a securities exchange, the ultimate shareholders);
 - (2) if available, its most recent published audited accounts; and
 - (3) sufficient particulars of the finance available to the Substitute Party to enable each D&C Subcontractor Party to decide whether to grant its consent to the Substitute Party.
- (b) **(Consent by the D&C Subcontractor):** A novation to, and the giving of a Novation Notice with respect to, a Substitute Party other than the State or a State Associate in accordance with this clause 8 will only be effective, and the D&C Subcontractor Parties will only be required to enter into a novation agreement under clause 8.2(c), if the D&C Subcontractor Parties each consent to that novation (such consent not to be unreasonably withheld or delayed) or are deemed to have consented in accordance with clause 8.3(d).
- (c) **(Further information):** The State must as soon as practicable supply the D&C Subcontractor Parties with such additional information to that provided under clause 8.3(a) as the D&C Subcontractor Parties each reasonably require to enable it to decide whether to grant consent under clause 8.3(b), and the D&C Subcontractor Parties must each consider such information expeditiously and inform the State promptly if it reasonably requires further information.
- (d) **(Deemed consent):** The D&C Subcontractor Parties' consent to the novation will be deemed to be given if the D&C Subcontractor Parties have not notified the State under clause 8.3(e)(2) within 15 Business Days of the later of:
- (1) the receipt of the Novation Notice; and
 - (2) the receipt of the State's response to the D&C Subcontractor Parties' request for information under clause 8.3(c).
- (e) **(Unreasonably withholding consent):** A D&C Subcontractor Party is not entitled to refuse consent to the novation unless:
- (1) the grounds for refusal are reasonable and are based on:
 - (A) the proposed novation deed referred to in clause 8.2(c) for the Substitute Party to assume the rights and obligations of Project Co under the D&C Subcontractor Documents not being effective to substitute the Substitute Party for Project Co;

- (B) the Substitute Party not having the legal capacity, power and authorisation to become a party to and perform the obligations of Project Co in accordance with the D&C Subcontractor Documents including any necessary authorisations and consents;
 - (C) the technical competence or financial standing of the Substitute Party being insufficient for it to meet the obligations of Project Co in accordance with the D&C Subcontractor Documents; or
 - (D) a D&C Subcontractor Party being placed in breach of any Laws by the proposed novation; and
- (2) it has notified the State of such reasons.
- (f) **(If the D&C Subcontractor withholds consent):** If either D&C Subcontractor Party withholds its consent to a Novation Notice under this clause 8.3, this will not prejudice the ability of the State to give one or more subsequent Novation Notices, and information under clause 8.3(a), containing changed particulars relating to the same Substitute Party or particulars relating to another Substitute Party.

8.4 Accrued obligations and liabilities

Clause 8.2 does not operate to:

- (a) **(State not to assume):** require the State to assume any obligations or Liabilities arising from, or which are required to be performed in connection with the D&C Subcontractor Documents prior to the Novation Notice Date unless expressly required to do so in clause 8.2; or
- (b) **(Release Project Co):** release Project Co from such obligations or Liabilities unless expressly provided for in clause 8.2.

9 Dispute Resolution

9.1 Procedure for resolving disputes

- (a) **(Disputes to be resolved):** Any dispute arising under this Deed must be resolved by the parties to that dispute (**Disputing Parties**) in accordance with clause 9 and clause 10.
- (b) **(Procedure):** The procedure that is to be followed to resolve a dispute is as follows:
 - (1) firstly, the dispute must be the subject of negotiation as required by clause 9.2;
 - (2) secondly, if the dispute remains unresolved (in whole or in part) after the expiration of the period for negotiation referred to in clause 9.2(c)(1) the Disputing Parties may agree that the dispute will be referred to an expert for determination in accordance with clauses 9.4 to 9.9 or to arbitration under clause 10; and
 - (3) thirdly, if:
 - (A) the dispute remains unresolved (in whole or in part) after the expiration of the period for negotiation referred to in

- clause 9.2(c)(1) and irrespective of whether the Disputing Parties failed to meet as required by that clause or whether having so met the Disputing Parties failed to agree whether the Dispute should be referred to an expert or to arbitration within 20 Business Days after the expiration of the period for negotiation referred to in clause 9.2(c)(1);
- (B) the dispute has been referred to expert determination and a determination is not made by the expert within 30 days after the expert's acceptance of appointment; or
 - (C) the dispute is referred to expert determination and a notice of dissatisfaction is given in accordance with clause 9.6(a),
- (4) then the dispute must be referred to arbitration in accordance with clause 10.

9.2 Negotiation

- (a) **(Notification)**: If a dispute arises then a party may give notice to each other Disputing Party requesting that the dispute be referred for resolution by negotiation between the Chief Executive Officers (or equivalent) of the Disputing Parties (**Representatives**).
- (b) **(Contents of Notice)**: A notice under clause 9.2(a) must:
 - (1) state that it is a notice under this clause 9; and
 - (2) include or be accompanied by particulars of the matters which are the subject of the dispute.
- (c) **(Attempt to resolve Dispute)**: If a dispute is referred for resolution by negotiation under clause 9.2(a), then:
 - (1) the Representatives must meet and attempt in good faith to resolve the dispute (in whole or in part) within 10 Business Days of the date on which the notice under clause 9.2(a) is received (or such later date as the Disputing Parties may agree); and
 - (2) any agreement reached between the Representatives will be reduced to writing, signed by or on behalf of each Disputing Party and will be contractually binding on the Disputing Parties.

9.3 Expert determination

If:

- (a) **(dispute unresolved by Representatives)**: a dispute which has been referred to the Representatives for negotiation in accordance with clause 9.2(a) remains unresolved (in whole or in part) after the expiration of the period for negotiation referred to in clause 9.2(c)(1); and
- (b) **(referral to expert)**: the Disputing Parties agree within 20 Business Days after the expiration of the period for negotiation referred to in clause 9.2(c)(1), that the dispute be referred to an expert for determination,

then those parts of the dispute which remain unresolved will be referred to an expert for determination under clauses 9.4 to 9.9. For the avoidance of doubt, a dispute may only be referred to an expert for determination by agreement of the Disputing Parties.

9.4 Selection of expert

- (a) **(Exchange of lists of 3 preferred experts):** Within 7 Business Days after the date on which the Disputing Parties agree to refer a dispute to an expert for determination under clause 9.3, the Disputing Parties must exchange lists of 3 persons (in order of preference) who, if appointed, would satisfy the requirements of clause 9.4(d), from whom the expert is to be chosen.
- (b) **(Appointment of person who appears on both lists):** Any person who appears on the list of all Disputing Parties exchanged under clause 9.4(a) will be appointed as the expert to determine a dispute and if more than one person appears on the list of all Disputing Parties, the person given the highest order of priority by the party who gave the notice under clause 9.2(a) will be appointed.
- (c) **(Appointment if no person appears on both lists):** If no person appears on the list of all the Disputing Parties, the party which gave the notice under clause 9.2(a) must procure:
- (1) the president (or the senior non-executive officer, howsoever described) of the institute or governing body for the technical or professional discipline the subject of the relevant dispute to nominate the expert, having regard to, but not being bound by, those persons proposed by the Disputing Parties under clause 9.4(a); or
 - (2) if there is no governing body for the technical or professional discipline the subject of the relevant dispute or the Disputing Parties cannot agree the technical or professional discipline relevant to the dispute or such governing body advises that it will not nominate an expert, the Australian Centre for International Commercial Arbitration to nominate a person to act as the expert, having regard to, but not being bound by, those persons proposed by the Disputing Parties under clause 9.4(a),
- within 7 Business Days of the exchange of notices under clause 9.4(a).
- (d) **(Appropriate skills):** It is the intention of the parties that the expert appointed to determine a dispute will be an independent person with appropriate skills having regard to the nature of the matters in dispute.
- (e) **(No entitlement to challenge appointment):** No Disputing Party will be entitled to challenge the appointment of an expert under this clause 9.4 on the basis that the expert does not satisfy the requirements of clause 9.4(d).
- (f) **(Not an arbitration agreement):** Any agreement for expert determination under this Deed will not constitute an arbitration agreement for the purposes of the *Commercial Arbitration Act 2011 (Vic)*.
- (g) **(Agreement):** Once an expert is appointed, the Disputing Parties must enter into an agreement with the expert on the terms of the Expert Determination Agreement or such other reasonable terms as the expert may require.

9.5 Rules of expert determination

The expert determination process will be administered, and the expert will be required to act, under the terms of the Expert Determination Agreement.

9.6 Expert finding

- (a) **(Notification):** The determination of the expert must be in writing and will be final and binding on the Disputing Parties unless, within 10 Business Days of

receipt of the determination, a Disputing Party gives notice to each other Disputing Party of its dissatisfaction and intention to refer the matter to arbitration in accordance with clause 10.

- (b) **(Amendment to determination):** Upon submission by any Disputing Party, the expert may amend the determination to correct:
 - (1) a clerical mistake;
 - (2) an error from an accidental slip or omission;

 - (4) a defect in form.

9.7 Liability of expert

- (a) **(Liability of expert):** The Disputing Parties agree:
 - (1) that the expert will not be Liable in connection with the expert determination, except in the case of fraud on the part of the expert; and
 - (2) to indemnify the expert against any Claim or Liability in connection with the expert determination, except in the case of fraud on the part of the expert, in which case a Claim may be made against him or her by any person who is a party to the dispute.
- (b) **(Engagement):** The Disputing Parties will jointly engage the expert services in connection with the expert determination proceedings and each Disputing Party will seek a separate Tax Invoice equal to its share of the cost of the expert.

- (b) **(engagement):** pay an equal portion of the costs of the expert.

9.9 Proportionate Liability

To the extent permitted by Law, the Expert will have no power to apply or to have regard to the provisions of any proportionate liability legislation which might in the absence of this clause 9.9, have applied to any dispute referred to the Expert in accordance with this clause 9.

10 Arbitration

10.1 Reference to Arbitration

- (a) **(Dispute):** If:
 - (1) a dispute:
 - (A) which has been referred to the Disputing Parties' Representatives for negotiation in accordance with

clause 9.2(a) remains unresolved (in whole or in part) after the expiration of the period for negotiation referred to in clause 9.2(c)(1); and

- (B) the Disputing Parties do not agree to refer the dispute to an expert for determination; or
- (2) in the case of a dispute which the Disputing Parties agree to refer to expert determination under clause 9.3:
 - (A) a determination is not made within 30 days of the expert's acceptance of the appointment; or
 - (B) a notice of dissatisfaction is given in accordance with clause 9.6(a),

then any Disputing Party may notify the other Disputing Parties that it requires the dispute to be referred to arbitration.

- (b) **(Referral):** Upon receipt by a Disputing Party of a notice under clause 10.1(a), the dispute will be referred to arbitration.

10.2 Arbitration

- (a) **(ACICA Rules):** Arbitration in accordance with this clause 10 will be conducted in accordance with the arbitration rules of the Australian Centre for International Commercial Arbitration (known as the ACICA Rules) as current at the date the Dispute is referred to arbitration and as otherwise set out in this clause 10 with this clause 10 having priority to the extent of any inconsistency.
- (b) **(Seat):** The seat of the arbitration will be Melbourne, Victoria.
- (c) **(Language):** The language of the arbitration will be English.

10.3 Appointment of arbitrator

The parties will endeavour to agree on the arbitrator or arbitrators (if the parties agree to appoint three arbitrators), but if no such agreement is reached within 14 Business Days of the dispute being referred to arbitration in accordance with clause 10.1(b), the arbitrator or arbitrators will be appointed in accordance with the ACICA Rules.

10.4 General Principles for conduct of arbitration

- (a) **(Conduct of arbitration):** The Disputing Parties agree that:
 - (1) they have chosen arbitration for the purposes of achieving a just, quick and cost-effective resolution of any dispute;
 - (2) any arbitration conducted in accordance with this clause 10 will not necessarily mimic court proceedings of the seat of the arbitration or the place where hearings take place (if different), and the practices of those courts will not regulate the conduct of the proceedings before the arbitrator; and
 - (3) in conducting the arbitration, the arbitrator must take into account the matters set out in clauses 10.4(a)(1) and 10.4(a)(2).
- (b) **(Evidence in writing):** All evidence in chief must be in writing unless otherwise ordered by the arbitrator.
- (c) **(Evidence and discovery):** The rules for evidence and discovery will be the IBA Rules on the Taking of Evidence in International Arbitration current at the

date of arbitration (or if there are no current rules, the most recent version of those rules).

- (d) **(Oral hearing):** The oral hearing must be conducted as follows:
- (1) any oral hearing must take place in Melbourne, Victoria and all outstanding issues must be addressed at the oral hearing;
 - (2) the date and duration of the oral hearing must be fixed by the arbitrator at the first preliminary conference. The arbitrator must have regard to the principles set out in clause 10.4(a) when determining the duration of the oral hearing;
 - (3) oral evidence in chief at the hearing will be permitted only with the permission of the arbitrator for good cause;
 - (4) the oral hearing must be conducted on a stop clock basis with the effect that the time available to the Disputing Parties must be split equally between the Disputing Parties so that each party has the same time to conduct its case unless, in the opinion of the arbitrator, such a split would breach the rules of natural justice or is otherwise unfair to one of the Disputing Parties;
 - (5) not less than 28 days prior to the date fixed for oral hearing each of the Disputing Parties must give notice of those witnesses (both factual and expert) of each other Disputing Party that it wishes to attend the hearing for cross examination;
 - (6) in exceptional circumstances the arbitrator may amend the date of hearing and extend the time for the oral hearing set in accordance with clause 10.4(d)(2);
 - (7) a Disputing Party will not be bound to accept the written evidence of a witness submitted on behalf of an opposing Disputing Party which is not challenged in cross examination; and
 - (8) each Disputing Party is expected to put its case on significant issues in cross examination of a relevant witness called by the other Disputing Party or, where it seeks to challenge the evidence of a witness not called for cross-examination by reference to other evidence, to identify that evidence in its written opening submissions so that the other Disputing Party may know the nature of and basis for the challenge to the witness' written evidence.
- (e) **(Experts):** Unless otherwise ordered each Disputing Party may only rely upon one expert witness in connection with any recognised area of specialisation.

10.5 Proportional liability

To the extent permitted by Law, the arbitrator will have no power to apply or to have regard to the provisions of any proportional liability legislation which might, in the absence of this clause 10.5, have applied to any dispute referred to arbitration in accordance with this clause 10.

10.6 Extension of ambit of arbitration proceedings

- (a) **(Extending Disputes):** Where:
- (1) a dispute between the Disputing Parties to this Deed is referred to arbitration in accordance with this clause 10; and

- (2) there is some other dispute also between the Disputing Parties to and in accordance with this Deed (whenever occurring),

the arbitrator may, upon application being made to the arbitrator by one or more of the Disputing Parties at any time before a final award is made in relation to the first-mentioned dispute, make an order directing that the arbitration be extended so as to include the other dispute.

- (b) **(Arbitrator's order)**: An arbitrator may make an order in accordance with clause 10.6(a) on such terms and conditions (if any) as the arbitrator thinks fit.

10.7 Award final and binding

10.8 Continue to perform

Notwithstanding the existence of a dispute, each Disputing Party must continue to carry out its obligations in accordance with this Deed.

10.9 Governing law of arbitration agreement

The Law governing this arbitration agreement is the law of Victoria, Australia.

10.10 Interlocutory relief

Clause 9 and clause 10 do not prevent a Disputing Party from seeking urgent interlocutory relief from a court of competent jurisdiction where, in that Disputing Party's reasonable opinion, that action is necessary to protect that Disputing Party's rights.

11 Termination of this Deed

- (a) **(Satisfaction of obligations under the D&C Subcontract)**: This Deed will terminate upon the performance and satisfaction of all of the obligations under the D&C Subcontractor Documents.
- (b) **(Does not affect rights of parties)**: The termination of this Deed does not affect the rights of any party which have accrued to that party before the date of termination.

12 Insurances

- (a) **(Insurances)**: Notwithstanding anything else contained in the D&C Subcontractor Documents or this Deed, the D&C Subcontractor will:
- (1) take out all insurances as are required to be taken out by it under the D&C Subcontract; and

- (2) otherwise comply with all of its obligations in relation to insurance in the D&C Subcontract.
- (b) **(Not to prejudice)**: Project Co and the D&C Subcontractor must each ensure that it does not do or omit to do anything or does not permit anything to be done or omitted to be done whereby any insurance policy required under the D&C Subcontract may be prejudiced.
- (c) **(Void or Voidable)**: If any default occurs by the D&C Subcontractor in effecting or maintaining such insurance policy or if any such insurance policy becomes void or voidable, the State may (but is not obliged to) effect or maintain that Insurance policy at the cost of the D&C Subcontractor or, failing it, Project Co.
- (d) **(State to be covered)**: If required by the Project Agreement, in respect of any insurance contract entered into by the D&C Subcontractor as contemplated by clause 12(a), the D&C Subcontractor must ensure that the State and the State's Associates are specified as a person to whom the insurance cover provided by that contract extends.
- (e) **(All documents, evidence and information)**: Project Co and the D&C Subcontractor must each do all things necessary and provide all documents, evidence and information necessary to enable the State to collect or recover any moneys due or to become due to the State in respect of any insurance policy required under the D&C Subcontract at the cost of the D&C Subcontractor or, failing it, Project Co.
- (f) **(Cancellation, lapse or material change)**: Without prejudice to clauses 12(a) to 12(e), neither Project Co nor the D&C Subcontractor will cause or take any steps to bring about the cancellation, lapse, material change, reduction or any rescinding of any such insurance policy unless it has first obtained the consent of the State.
- (g) **(Notify the State)**: Project Co and the D&C Subcontractor must each immediately notify the State of any cancellation, lapse, material change, reduction, or any rescinding of any such insurance policy, and of the occurrence of any event giving rise to any claim under any such insurance policy in respect of the Project.
- (h) **(Several obligations)**: Notwithstanding clause 1.3(o), but subject to the obligations of Project Co under the terms of the Project Agreement, the obligations of Project Co and the D&C Subcontractor in this clause 12 are several.

13 Goods and Services Tax (GST)

- (a) **(GST exclusive amounts)**: Unless otherwise expressly stated, all amounts referred to in this Deed, the D&C Subcontractor Documents, or any Project Document are exclusive of GST.
- (b) **(GST payable by Supplier)**: If GST becomes payable on any Taxable Supply made by a party (**Supplier**) under or in connection with this Deed:
 - (1) any amount payable or consideration to be provided in accordance with any other provision of this Deed for that supply (**Agreed Amount**) is exclusive of GST;
 - (2) an additional amount will be payable by the party which is the recipient of the Taxable Supply (**Recipient**), equal to the amount of GST payable on that Taxable Supply as calculated by the Supplier in

accordance with the GST Law, payable at the same time and in the same manner as for the Agreed Amount; and

- (3) the Supplier will provide a Tax Invoice to the Recipient in connection with that supply, either at the time expressly set out in any other provision of this Deed or no later than the time at which the Agreed Amount for that Taxable Supply is to be provided in accordance with this Deed. The Recipient is not obliged to pay any amount in accordance with this clause 13(b) unless and until a Tax Invoice is received by the Recipient in connection with the Taxable Supply except where the Recipient is required to issue the Tax Invoice.
- (c) **(Variation in GST payable):** If for any reason, the GST payable by the Supplier in connection with a supply it makes under or in connection with this Deed (incorporating any increasing adjustments or decreasing adjustments relating to that supply) varies from the additional amount it received from the Recipient under clause 13(b) in connection with that supply, the Supplier will provide a refund or credit to, or will be entitled to receive from, the Recipient (as appropriate) the amount of this variation. Where an adjustment event occurs in relation to a supply and except where the Recipient is required to issue the Adjustment Note:
 - (1) the Supplier will issue an Adjustment Note to the Recipient in connection with that supply within 14 days after becoming aware of that adjustment event occurring; and
 - (2) no additional amount will be payable by the Recipient unless and until an Adjustment Note is received by the Recipient.
- (d) **(GST ceasing to be payable):** No amount is payable by a party in accordance with clause 13(b) or 13(c) to the extent that the GST to which the amount relates has ceased to be payable by or refundable to the Supplier by the Commissioner of Taxation under the GST Law.
- (e) **(Expert determination):** If the Recipient is dissatisfied with any calculation to be made by the Supplier in accordance with this clause 13 the Recipient may, at its own expense and after notifying the Supplier accordingly, refer the matter to an independent expert nominated by the President of the Institute of Chartered Accountants for expert determination, which will be final and binding on all parties (except in the case of manifest error on the face of the expert determination). The expert will act as an expert and not as an arbitrator and must take into account the terms of this Deed, the matters required to be taken into account by the Supplier in accordance with this clause 13 and any other matter considered by the expert to be relevant to the determination. The parties release the expert from any liability in acting as an expert, except in the case of fraud on the part of the expert.
- (f) **(Revenue net of GST):** Any reference in this Deed to price, value, sales, revenue, profit or a similar amount (**Revenue**) is a reference to the GST exclusive component of that Revenue, unless the contrary intention is expressed.
- (g) **(Cost net of GST):** Any reference in this Deed to cost, expense, liability or other similar amount (**Cost**) of a party is a reference to that Cost reduced by the Input Tax Credits to which the party is entitled in respect of such Cost, unless the contrary intention is expressed.
- (h) **(General obligation):** Each party agrees to do all things, including providing Tax Invoices and other documentation, that may be necessary or desirable to enable or assist the other party in determining its GST payable on any supply made by that other party in connection with this Deed, or any input tax credits,

adjustments or refunds in relation to any amount of GST paid or payable in connection with any supply made in connection with this Deed.

- (i) **(GST Groups):** For the purposes of this Deed, a reference to GST payable on a Taxable Supply made by a party includes any corresponding GST payable by the representative member of any GST group of which that party is a member and a reference to an input tax credit entitlement of a party includes any corresponding input tax credit entitlement of the representative member of any GST group of which that party is a member.
- (j) **(Project Agreement to prevail):** If clause 59 (*Taxes*) of the Project Agreement would apply in respect of a Taxable Supply to which this clause 13 also applies then clause 59 (*Taxes*) of the Project Agreement will apply in respect of that supply and the provisions of this clause 13 (but for this clause 13(j)) will not apply.
- (k) **(Definitions):** In this clause 13 unless otherwise defined in this Deed, terms used have the meanings given to them in the GST Law.

- (d) **(deed of accession)**: it will not novate, assign or substitute any of its rights, obligations or interest in a Maintenance Subcontractor Document without first procuring that the proposed novatee, assignee or substitute executes a deed in favour of the State (in form and substance approved by the State) pursuant to which the novatee, assignee or substitute agrees to accept and be bound by this Deed as if it were the Maintenance Subcontractor or the Parent Guarantor (as the case may be);
- (e) **(attend meetings and inspections)**: it will (when reasonably requested by the State):
- (1) attend meetings with the State or any of its Associates;
 - (2) provide the State, any of its Associates and other authorised personnel (including the Independent Reviewer) with:

 - (2) supply the State and any of its Associates with a copy of any such report or document which they may require from time to time.

5.2 State access to Site

When entering the Site in accordance with clause 5.1(e)(2)(A), the State agrees to comply with, and ensure that its Associates and the authorised personnel comply with, clause 16.3 (*State's right to enter, inspect and test*) of the Project Agreement.

5.3 Appointment of Maintenance Subcontractor as principal contractor

On the Date of Final Acceptance, to the extent "construction work" within the meaning of regulation 5.12 of the OHS Regulations is carried out in connection with the Maintenance Activities:

- (a) **(appointment)**: the State appoints the Maintenance Subcontractor as Principal Contractor for all works undertaken and activities carried out during the Maintenance Phase until the end of the Term in connection with the Maintenance Services and the Maintained Assets and authorises the Maintenance Subcontractor to manage or control the Licensed Maintenance Areas to the extent necessary to discharge the duties of a Principal Contractor under the OHS Legislation;

- (a) **(appointment)**: the State appoints the Maintenance Subcontractor as Principal Contractor for all works undertaken and activities carried out during the Maintenance Phase until the end of the Term in connection with the Maintenance Services and the Maintained Assets and authorises the Maintenance Subcontractor to manage or control the Licensed Maintenance Areas to the extent necessary to discharge the duties of a Principal Contractor under the WHS Regulations;

- (c) **(Revised appointment)**: the Maintenance Subcontractor accepts any revised appointment as Principal Contractor that may be necessary as a result of a Change in Mandatory Requirements the subject of a Modification Order.

6 Right to cure before termination of the Subcontract

6.1 State's cure rights

- (a) **(Provide State with notices)**: The Maintenance Subcontractor must give the State:
- (1) Default Event Notices; and
 - (2) State Cure Notices,
- as required by clause 6.2.
- (b) **(State Cure Notice)**: On receiving a State Cure Notice, and subject to the Finance Direct Deed, the State may (but is not obliged to) take steps to:
- (1) remedy, or procure the remedy of, that Default Event; or
 - (2) if the Default Event is not capable of remedy, commence and continue to perform the obligations of Project Co under the Subcontract.

6.2 Termination or suspension with cause

The Maintenance Subcontractor may only exercise a right under the Maintenance Subcontract to terminate, rescind, accept the repudiation of, or (subject to clause 6.3) suspend the performance of any or all of its obligations under the Maintenance Subcontract if:

- (a) **(prior notice)**: the Maintenance Subcontractor has given to the State prior notice setting out details of the Default Event giving rise to that proposed exercise in accordance with clause 6.4 (**Default Event Notice**);
- (b) **(expiration of remedy period)** any remedy period available to the Financiers in respect of the Default Event under the Maintenance Subcontractor Consent Deed has expired without a remedy being achieved;
- (c) **(State cure notice)**: the Maintenance Subcontractor has given notice to the State (**State Cure Notice**) confirming that any remedy period available to the Financiers in respect of the Default Event under the Maintenance Subcontractor Consent Deed has expired without a remedy being achieved; and
- (d) **(Default Event remedy)**: where:
- (1) the Default Event is capable of remedy within 20 Business Days after the date on which the State received the State Cure Notice, the Default Event has not been remedied within that 20 Business Day period;
 - (2) the Default Event is capable of remedy within a period longer than 20 Business Days after the date on which the State received the State Cure Notice, the State (or an Additional Obligor or Receiver appointed under clause 7) has not commenced remedying the Default Event within that 20 Business Day period or, having commenced remedying, has not continued to diligently pursue that remedy;

- (3) the Default Event is not capable of remedy and the Default Event Notice contains a claim for reasonable compensation for the Default Event, Project Co or the State (or another person on behalf of either of them) has not paid or otherwise provided that compensation to the Maintenance Subcontractor:
 - (A) to the extent that the relevant amount of compensation has been referred to dispute resolution under clauses 9 to 10, within 20 Business Days after that dispute is resolved; or
 - (B) otherwise within 20 Business Days after the date on which the State received the State Cure Notice;
- (4) the Default Event is not capable of remedy and the Default Event Notice does not contain a claim for reasonable compensation for the Default Event, the State (or an Additional Obligor or Receiver appointed under clause 7) does not commence and continue to perform Project Co's obligations under the Maintenance Subcontract within 20 Business Days after the date on which the State received the State Cure Notice; or
- (5) the State notifies the Maintenance Subcontractor that it elects not to remedy, or procure the remedy of, the Default Event.

6.3 Early suspension of Maintenance Subcontractor's obligations

If:

- (a) **(right to suspend)**: the Maintenance Subcontractor, but for the operation of clause 6.2, would have a right to suspend the performance of its obligations under the Subcontract;
 - (b) **(State Cure Notice)**: the Maintenance Subcontractor has issued a State Cure Notice to the State with respect to that Default Event;
 - (c) **(dispute, non-payment or expired period)**: either:
 - (1) the State has not undertaken to pay to the Maintenance Subcontractor the amounts payable under the Maintenance Subcontract within 10 Business Days of:
 - (A) subject to clause 6.3(c)(2), the date of receipt of the State Cure Notice; or
 - (B) if the State refers the amounts in the Default Event Notice to dispute resolution under clauses 9 to 10, the dispute being determined; or
 - (2) without limiting clause 6.2(d), the State has undertaken to pay the Maintenance Subcontractor amounts payable under the Maintenance Subcontract for a stated period and that period has expired without the State paying such amounts or without that period being extended by the State (acting reasonably); and
 - (d) **(not remedied)**: the Default Event has not otherwise been remedied,
- then the Maintenance Subcontractor may suspend performance of its obligations under the Subcontract.

6.4 Maintenance Subcontractor Statements

As part of any Default Event Notice, the Maintenance Subcontractor must include a statement of:

- (a) **(all amounts due and payable)**: all amounts due and payable to the Maintenance Subcontractor under the Maintenance Subcontract on or before the date of the Default Event Notice but remaining unpaid at such date;
- (b) **(Claim)**: the nature and, to the best of the Maintenance Subcontractor's knowledge and belief, the amount of any Claim asserted by the Maintenance Subcontractor arising in connection with the Maintenance Subcontract against Project Co; and
- (c) **(Intention to terminate)**: where the Maintenance Subcontractor intends to terminate the Maintenance Subcontract due to a default or breach of condition of a non-financial nature or intends to claim damages or to seek some other form of relief:
 - (1) the provisions of the Maintenance Subcontract alleged to have been breached or not fulfilled;
 - (2) sufficient information to enable the State to identify the material facts;
 - (3) the steps reasonably required to remedy the Default Event (if reasonably capable of remedy);
 - (4) the time within which the specified steps can reasonably be expected to be taken;
 - (5) if applicable, the amount of damages claimed and the manner in which they have been calculated; and
 - (6) if applicable, the other relief to be sought,

(being the **Maintenance Subcontractor Statement**).

6.5 Warranty of accuracy and waiver

The Maintenance Subcontractor:

- (a) **(warranty)**: warrants to the State that each Maintenance Subcontractor Statement will, subject to unintended error which the Maintenance Subcontractor agrees to rectify, be a true, complete and accurate statement of the amounts or other relief to which the Maintenance Subcontractor considers itself entitled; and
- (b) **(waiver)**: waives and abandons all Claims then known or which ought reasonably to have been known to the Maintenance Subcontractor arising in connection with the Maintenance Subcontract prior to the date of the Default Event Notice other than the claims disclosed in the Maintenance Subcontractor Statement.

6.6 Verification of Maintenance Subcontractor Statements

The State may appoint one or more independent chartered accountants, technical advisers or other appropriately qualified persons to verify (at the cost of Project Co) a Maintenance Subcontractor Statement, and the Maintenance Subcontractor must, subject to such persons executing an appropriate confidentiality agreement as the Maintenance Subcontractor may reasonably request, permit such persons to have access to and to make copies of all records, documents, data and accounting and other information not

subject to legal (including, without limitation, solicitor and own client) and other professional privilege which is reasonably required with a view to confirming the accuracy and completeness of such Maintenance Subcontractor Statement.

6.7 Maintenance Subcontractor Statements to be conclusive evidence

- (a) **(Reliance)**: Each Statement Beneficiary is entitled to rely on a Maintenance Subcontractor Statement for the purpose of determining the extent of the matters occurring prior to a Default Event which are required to be remedied and the requirements to effect the remedy of that Default Event by a Statement Beneficiary.
- (b) **(Conclusive evidence)**: A Maintenance Subcontractor Statement will, to the extent provided for in clause 6.4 and 6.5, be conclusive evidence in favour of any Statement Beneficiary that the Maintenance Subcontractor has waived and abandoned all Claims then known or which ought reasonably to have been known to the Maintenance Subcontractor arising in connection with the Maintenance Subcontract prior to the date of the Default Event Notice other than the Claims disclosed in the Maintenance Subcontractor Statement.
- (c) **(Claims against Project Co)**: Clauses 6.5(b), 6.7(a) and 6.7(b) are without prejudice to the rights of the Maintenance Subcontractor to pursue any Claims against Project Co following the end of the Step-In Period or termination of the Subcontract.
- (d) **(Disputes)**: For the avoidance of doubt, a Maintenance Subcontractor Statement will not prevent any Statement Beneficiary from disputing the amount of any Claim or other relief sought by the Maintenance Subcontractor or the existence of any default by Project Co under the Subcontract. In the case of any such dispute:
 - (1) the time periods set out in clause 6.2(d) will continue to apply to those amounts and obligations (if any) which are not in dispute;
 - (2) the dispute must be referred to dispute resolution under clauses 9 to 10; and
 - (3) during the period of dispute resolution, all parties must continue to perform their obligations under this Deed and the Project Documents.

7 Step-In by the State

7.1 Step-In Right

- (a) **(Exercise)**: Following receipt of a State Cure Notice or if the State is entitled to exercise any of the rights referred to in clause 3.2 or otherwise as permitted under any Project Document, the State may:
 - (1) if permitted under the State Security and the Finance Direct Deed, appoint a Receiver over Project Co or any or all of its assets (including the Maintenance Subcontractor Documents);
 - (2) itself enter into possession of any or all of the assets of Project Co;
 - (3) take such other action as it is permitted to take under the terms of the Project Documents; or

- (4) by notice to the Maintenance Subcontractor (**Additional Obligor Step-In Notice**), procure that an Additional Obligor assumes jointly and severally with Project Co all of Project Co's rights and obligations under the Maintenance Subcontractor Documents,
- (each a **Step-In Right**).
- (b) (**Step-In Period**): The period from the date on which the Maintenance Subcontractor receives notice of the exercise of any Step-In Right to the earliest of:
- (1) the Additional Obligor Step-Out Date;
 - (2) the date on which the Maintenance Subcontractor terminates the Subcontract;
 - (3) the date of any transfer under clause 8;
 - (4) the date which the State has notified the Maintenance Subcontractor will be the date that the State ceases to exercise its Step-In Rights; and
 - (5) any other date on which the State ceases to continue to exercise its Step-In Rights,
- is the **Step-In Period**.
- (c) (**Acknowledgment**): The Maintenance Subcontractor Parties each acknowledge that the exercise by the State of a Step-In Right in the manner contemplated by this Deed will not of itself contravene the Maintenance Subcontractor Documents, or constitute a Default Event under the Maintenance Subcontract or entitle a Maintenance Subcontractor Party to exercise any right (including termination) under a Maintenance Subcontractor Document.

7.2 Step-In by the State

- (a) (**Rights**): Subject to the Finance Direct Deed, the State may at any time during a Step-In Period, exercise all or any of its rights and carry out all or any of the obligations of Project Co in connection with the Maintenance Subcontractor Documents, as if it were Project Co to the exclusion of Project Co.
- (b) (**No Liability**): Project Co and the Maintenance Subcontractor Parties each agree that, subject to clause 7.3(b):
- (1) none of the State or its Associates will have any Liability; and
 - (2) none of Project Co or the Maintenance Subcontractor Parties will be entitled to make, continue or enforce any Claim against the State or any of its Associates,

arising in connection with the Maintenance Subcontractor Documents or this Deed by reason only of the State or any of its Associates exercising any of Project Co's rights, or performing any of Project Co's obligations under the Maintenance Subcontractor Documents other than, and then only to the extent of, Liability for fraudulent, reckless, unlawful or malicious acts or omissions, or wilful misconduct of the State or any State Associate.

7.3 Step-In using Additional Obligor

- (a) (**Assumption Date**): If clause 7.1(a)(4) applies, the Additional Obligor will become a party to the Maintenance Subcontractor Documents on the date on which the Additional Obligor Step-In Notice is given to the Maintenance

Subcontractor or such later date as the Maintenance Subcontractor and the State may agree (**Assumption Date**).

- (b) (**Rights and obligations of Additional Obligor**): During a Step-In Period in respect of which the State has exercised a Step-In Right under clause 7.1(a)(4):
- (1) subject to clause 7.3(b)(2), the Additional Obligor and Project Co will be jointly and severally:
 - (A) entitled to exercise the rights of Project Co under the Maintenance Subcontractor Documents (excluding any accrued rights of Project Co in respect of any damage, loss, cost, charge, expense, outgoing or payment to the extent that the rights arose prior to the Assumption Date) (**Project Co's Rights**); and
 - (B) liable for the performance or non-performance of all Project Co's obligations under the Maintenance Subcontractor Documents arising on or after the Assumption Date except as released in accordance with clause 7.3(e);
 - (2) as between Project Co, the Maintenance Subcontractor Parties and the Additional Obligor, only the Additional Obligor is authorised to deal with the Maintenance Subcontractor Parties and to exercise Project Co's Rights;
 - (3) Project Co acknowledges that it will be legally bound by all the acts and omissions of the Additional Obligor in so dealing with the Maintenance Subcontractor Parties and in exercising Project Co's Rights;
 - (4) the Additional Obligor will be bound by any earlier decision, directions, approvals, notices or consents given or made prior to the Assumption Date;
 - (5) clause 14 will apply to the Maintenance Subcontractor Parties and the Additional Obligor as if the address and email address of the Additional Obligor (as notified to the Maintenance Subcontractor Parties and Project Co) were set out in addition to those of Project Co; and
 - (6) the Maintenance Subcontractor Parties will owe their respective obligations under the Maintenance Subcontractor Documents to Project Co and the Additional Obligor jointly but the performance by a Maintenance Subcontractor Party in favour of either Project Co or the Additional Obligor will be a good discharge of the relevant obligations under the Maintenance Subcontractor Documents.
- (c) (**No Liability**): Without prejudice to the Maintenance Subcontractor's rights under clauses 6.2 and 6.3, the Additional Obligor will have no obligation to, and no Liability in respect of, remedying any default or breach of Project Co under the Maintenance Subcontractor Documents arising prior to the Assumption Date.
- (d) (**Additional Obligor Step-Out Date**): The Additional Obligor may at any time give the Maintenance Subcontractor notice terminating the Additional Obligor's rights and obligations under the Maintenance Subcontractor Documents (without affecting the continuation of Project Co's obligations or liabilities towards the Maintenance Subcontractor Parties under the Maintenance Subcontractor Documents). Such notice must specify the date on which it takes effect, which must be:

- (1) at least 30 days after the date of the notice; or
 - (2) if a Novation Notice has been given, the Novation Notice Date,
(Additional Obligor Step-Out Date).
- (e) **(Release)**: On and from the Additional Obligor Step-Out Date, as between the Maintenance Subcontractor Parties and the Additional Obligor only, each of the Maintenance Subcontractor Parties and the Additional Obligor will be released from all obligations under the Maintenance Subcontractor Documents (except for those obligations owed to each other which have arisen during the relevant Step-In Period), whether or not a Claim has been made in respect of those obligations or they have not fallen due to be performed or have not been performed. For the avoidance of doubt, on and from the Additional Obligor Step-Out Date, the Maintenance Subcontractor Parties will continue to owe their obligations under the Maintenance Subcontractor Documents to:
- (1) Project Co; or
 - (2) if a Novation Notice has been given, to the Substitute Party.

7.4 Indemnity

Project Co must indemnify the State, its Associates and any Additional Obligor against any Claim or Liability (including any Claim made by, or Liability to, a third party) the State, any of its Associates or any Additional Obligor suffers or incurs arising in connection with taking any action under clause 7.2 or clause 7.3, except to the extent that such Claim or Liability is caused or contributed to by any of the events set out in clause 42.11 (*Limits on Project Co liability to indemnify and release*) of the Project Agreement.

8 State's option to novate to the State or third party

8.1 Option

- (a) **(Novation Notice)**: The State may require a novation of the Maintenance Subcontractor Documents upon the termination of the Project Agreement by giving a notice (**Novation Notice**) to the Maintenance Subcontractor Parties. The Novation Notice must specify the person to whom the State intends to novate the Maintenance Subcontractor Documents whether this be the State or another person (**Substitute Party**).
- (b) **(Maintenance Subcontractor's obligations to continue)**: If the State issues a Novation Notice then (without prejudice to the Maintenance Subcontractor's rights under clauses 6.2 and 6.3) the Maintenance Subcontractor Parties, until the Novation Notice Date, must continue to perform their respective obligations under the Maintenance Subcontractor Documents.
- (c) **(Maintenance Subcontractor to continue work)**: If the Maintenance Subcontractor has exercised any rights it has to suspend the performance of any of its obligations under the Subcontract, the Maintenance Subcontractor must recommence performance of those obligations from the Novation Notice Date or the date on which the cause of the suspension is remedied (whichever is the earlier).
- (d) **(Novation Notice not a Default Event)**: The Maintenance Subcontractor Parties each acknowledge that the giving of a Novation Notice by the State will not of itself contravene, or constitute a Default Event under, a Maintenance

Subcontractor Document, or entitle the Maintenance Subcontractor Party to exercise any power (including termination) under it.

8.2 Novation to Substitute Party

- (a) **(Effect of novation):** Subject to clause 8.3, with effect from the Novation Notice Date:
- (1) the Substitute Party will assume (and if the Substitute Party is not the State, the State will procure that the Substitute Party assumes):
 - (A) any obligation of Project Co under the Maintenance Subcontract arising before the Novation Notice Date insofar as it relates to the payment of an amount of money that:
 - 1) is due and payable under the terms of the Subcontract; and
 - 2) is not the subject of a dispute under the Maintenance Subcontract (or is the subject of a dispute under the Maintenance Subcontract in which case the Substitute Party will, on the determination of such dispute, assume such obligations in accordance with that determination); and
 - (B) the obligations of Project Co under the Maintenance Subcontractor Documents arising on and from the Novation Notice Date (including obligations in relation to the payment of amounts which become due and payable in respect of work performed before the Novation Notice Date) subject to any amendments to the Maintenance Subcontractor Documents agreed in accordance with clause 8.2(a)(6);
 - (2) without prejudice to any then accrued rights against Project Co (other than termination), any Maintenance Subcontractor's right to suspend under the Maintenance Subcontract which exists at the Novation Notice Date will be of no further effect;
 - (3) subject to any amendments agreed to the Maintenance Subcontractor Documents in accordance with clause 8.2(a)(6), the Substitute Party will have all the rights of Project Co under the Maintenance Subcontractor Documents (excluding any accrued rights of Project Co in respect of any damage, loss, cost, charge, expense, outgoing or payment to the extent that those rights arose prior to the Novation Notice Date and are the subject of any unresolved dispute referred to in clause 8.2(a)(1)(A)2));
 - (4) subject to clause 8.2(a)(3) and any amendments agreed to the Maintenance Subcontractor Documents in accordance with clause 8.2(a)(6), the Maintenance Subcontractor Parties will:
 - (A) be bound by and must comply with the provisions of the Maintenance Subcontractor Documents as if the Substitute Party were Project Co; and
 - (B) be entitled to any extensions of time and other entitlements which accrued to the Maintenance Subcontractor prior to the Novation Notice Date;

- (5) Project Co is released from all of its obligations and Liabilities under the Maintenance Subcontractor Documents, excluding any accrued obligations or Liabilities of Project Co to the extent that those accrued obligations or Liabilities:
 - (A) arose in connection with events occurring prior to the Novation Notice Date; and
 - (B) are not obligations and Liabilities assumed by the Substitute Party under clause 8.2(a)(1);
- (6) the Maintenance Subcontractor Parties and the Substitute Party will promptly negotiate in good faith, any amendments to the Maintenance Subcontractor Documents that are necessary to reflect the termination of the Project Agreement; and
- (7) for the avoidance of doubt, any caps on Liability in the Maintenance Subcontractor Documents will continue to apply, but so that any Liability of the Maintenance Subcontractor Parties incurred to Project Co prior to the Novation Notice Date is taken into account in respect of any ongoing Liability of the Maintenance Subcontractor Parties to the Substitute Party.
- (b) **(No set off):** Neither Maintenance Subcontractor Party is entitled to exercise any right of set off, deduction, abatement or counterclaim against the Substitute Party if, and to the extent that, such right arose prior to the Novation Notice Date.
- (c) **(Novation Deed):** Subject to clause 8.3(b), Project Co, the Maintenance Subcontractor Parties and the Substitute Party must enter into an agreement in form and substance reasonably requested by the Substitute Party reflecting the novation of the Maintenance Subcontractor Documents as contemplated in clause 8.2(a) and take such other action as is required to vest in the Substitute Party full legal and equitable title to any retention account, bank guarantee, performance bond, letter of credit or other security held by Project Co to secure the obligations of a Maintenance Subcontractor Party under the Maintenance Subcontractor Document.
- (d) **(Attorney):** For valuable consideration, Project Co and the Maintenance Subcontractor Parties each irrevocably appoint the State, on its behalf and in its name or otherwise, as its attorney to do anything which Project Co or a Maintenance Subcontractor Party is obliged to do (but has not done within 5 Business Days of request) under clause 8.2(c). Each of Project Co and the Maintenance Subcontractor Parties ratifies and confirms and agrees to ratify and confirm whatever any such attorney lawfully does in the exercise of the power of attorney in this clause 8.2(d).

8.3 Novation to a Substitute Party other than the State

- (a) **(Information to be provided by the State):** If the State gives a Novation Notice that states that Project Co must novate the Maintenance Subcontract Documents to a Substitute Party other than the State or a State Associate, the State must, at the time it gives the Novation Notice, provide to the Maintenance Subcontractor Parties the following particulars of the Substitute Party:
 - (1) its name, place of incorporation and identity of shareholder(s) (including, unless a shareholder is listed on a securities exchange, the ultimate shareholders);
 - (2) if available, its most recent published audited accounts; and

- (3) sufficient particulars of the finance available to the Substitute Party to enable each Maintenance Subcontractor Party to decide whether to grant its consent to the Substitute Party.
- (b) **(Consent by the Maintenance Subcontractor):** A novation to, and the giving of a Novation Notice with respect to, a Substitute Party other than the State or a State Associate in accordance with this clause 8 will only be effective, and the Maintenance Subcontractor Parties will only be required to enter into a novation agreement under clause 8.2(c), if the Maintenance Subcontractor Parties each consent to that novation (such consent not to be unreasonably withheld or delayed) or are deemed to have consented in accordance with clause 8.3(d).
- (c) **(Further information):** The State must as soon as practicable supply the Maintenance Subcontractor Parties with such additional information to that provided under clause 8.3(a) as the Maintenance Subcontractor Parties each reasonably require to enable it to decide whether to grant consent under clause 8.3(b), and the Maintenance Subcontractor Parties must each consider such information expeditiously and inform the State promptly if it reasonably requires further information.
- (d) **(Deemed consent):** The Maintenance Subcontractor Parties' consent to the novation will be deemed to be given if the Maintenance Subcontractor Parties have not notified the State under clause 8.3(e)(2) within 15 Business Days of the later of:
- (1) the receipt of the Novation Notice; and
 - (2) the receipt of the State's response to the Maintenance Subcontractor Parties' request for information under clause 8.3(c).
- (e) **(Unreasonably withholding consent):** A Maintenance Subcontractor Party is not entitled to refuse consent to the novation unless:
- (1) the grounds for refusal are reasonable and are based on:
 - (A) the proposed novation deed referred to in clause 8.2(c) for the Substitute Party to assume the rights and obligations of Project Co under the Maintenance Subcontractor Documents not being effective to substitute the Substitute Party for Project Co;
 - (B) the Substitute Party not having the legal capacity, power and authorisation to become a party to and perform the obligations of Project Co in accordance with the Maintenance Subcontractor Documents including any necessary authorisations and consents;
 - (C) the technical competence or financial standing of the Substitute Party being insufficient for it to meet the obligations of Project Co in accordance with the Maintenance Subcontractor Documents; or
 - (D) a Maintenance Subcontractor Party being placed in breach of any Laws by the proposed novation; and
 - (2) it has notified the State of such reasons.
- (f) **(If the Maintenance Subcontractor withholds consent):** If either Maintenance Subcontractor Party withholds its consent to a Novation Notice under this clause 8.3, this will not prejudice the ability of the State to give one or more subsequent Novation Notices, and information under clause 8.3(a), containing changed particulars relating to the same Substitute Party or particulars relating to another Substitute Party.

8.4 Accrued obligations and liabilities

Clause 8.2 does not operate to:

- (a) **(State not to assume)**: require the State to assume any obligations or Liabilities arising from, or which are required to be performed in connection with the Maintenance Subcontractor Documents prior to the Novation Notice Date unless expressly required to do so in clause 8.2; or
- (b) **(Release Project Co)**: release Project Co from such obligations or Liabilities unless expressly provided for in clause 8.2.

9 Dispute Resolution

9.1 Procedure for resolving disputes

- (a) **(Disputes to be resolved)**: Any dispute arising under this Deed must be resolved by the parties to that dispute (**Disputing Parties**) in accordance with clause 9 and clause 10.
- (b) **(Procedure)**: The procedure that is to be followed to resolve a dispute is as follows:
 - (1) firstly, the dispute must be the subject of negotiation as required by clause 9.2;
 - (2) secondly, if the dispute remains unresolved (in whole or in part) after the expiration of the period for negotiation referred to in clause 9.2(c)(1) the Disputing Parties may agree that the dispute will be referred to an expert for determination in accordance with clauses 9.4 to 9.9 or to arbitration under clause 10; and
 - (3) thirdly, if:
 - (A) the dispute remains unresolved (in whole or in part) after the expiration of the period for negotiation referred to in clause 9.2(c)(1) and irrespective of whether the Disputing Parties failed to meet as required by that clause or whether having so met the Disputing Parties failed to agree whether the Dispute should be referred to an expert or to arbitration within 20 Business Days after the expiration of the period for negotiation referred to in clause 9.2(c)(1);
 - (B) the dispute has been referred to expert determination and a determination is not made by the expert within 30 days after the expert's acceptance of appointment; or
 - (C) the dispute is referred to expert determination and a notice of dissatisfaction is given in accordance with clause 9.6(a),
 - (4) then the dispute must be referred to arbitration in accordance with clause 10.

9.2 Negotiation

- (a) **(Notification)**: If a dispute arises then a party may give notice to each other Disputing Party requesting that the dispute be referred for resolution by

negotiation between the Chief Executive Officers (or equivalent) of the Disputing Parties (**Representatives**).

- (b) **(Contents of Notice)**: A notice under clause 9.2(a) must:
 - (1) state that it is a notice under this clause 9; and
 - (2) include or be accompanied by particulars of the matters which are the subject of the dispute.
- (c) **(Attempt to resolve Dispute)**: If a dispute is referred for resolution by negotiation under clause 9.2(a), then:
 - (1) the Representatives must meet and attempt in good faith to resolve the dispute (in whole or in part) within 10 Business Days of the date on which the notice under clause 9.2(a) is received (or such later date as the Disputing Parties may agree); and
 - (2) any agreement reached between the Representatives will be reduced to writing, signed by or on behalf of each Disputing Party and will be contractually binding on the Disputing Parties.

9.3 Expert determination

If:

- (a) **(dispute unresolved by Representatives)**: a dispute which has been referred to the Representatives for negotiation in accordance with clause 9.2(a) remains unresolved (in whole or in part) after the expiration of the period for negotiation referred to in clause 9.2(c)(1); and
- (b) **(referral to expert)**: the Disputing Parties agree within 20 Business Days after the expiration of the period for negotiation referred to in clause 9.2(c)(1), that the dispute be referred to an expert for determination,

- (k) where, under this Agreement, the State has a discretion to give, withhold, make, not make, exercise or not exercise any action, approval, consent or decision that discretion is absolute and unfettered, except to the extent this Agreement provides otherwise;

- (l) if the date on or by which any act must be done under this Agreement is not a Business Day, the act must be done on or by the next Business Day; and
- (m) where time is to be calculated by reference to a day or event, that day or the day of that event is excluded.

23.5 Headings

In this Agreement, headings (including any heading at the beginning of any subclause) are for convenience only and do not affect interpretation.

23.6 Representations and Warranties

Insofar as:

- (a) a party has, under a Project Document, made a representation or warranty in favour of another party or other parties; and
- (b) the representation or warranty relates to:
 - (i) the party's power to, or actions authorising the party to, enter into, execute, deliver or perform a (or any) Project Document; or
 - (ii) the capacity in which the party enters into a (or any) Project Document,

then the party (in the case of the Trustee, both in its own capacity and in its capacity as trustee of the Asset Trust) repeats that representation and warranty:

- (c) in favour of the party or parties in whose favour it was initially made;
- (d) as at the date of this Agreement and as at the date this Agreement becomes operative under clause 1.3; and
- (e) as if the representation and warranty also related to this Agreement and the Direct Interface Agreement.

23.7 Trustee's limitation of liability

- (a) The Trustee enters into this Agreement only in its capacity as trustee of the CityLink Trust and in no other capacity and references to the Trustee in this Agreement are references to it only in this capacity. A liability arising under or in connection with this Agreement is limited to and can be enforced against the Trustee only to the extent which it can be satisfied out of the property of the CityLink Trust out of which the Trustee is actually indemnified for the liability. This limitation of the Trustee's liability applies despite any other provision of this Agreement and extends to all liabilities and obligations of the Trustee in any way connected with any representation, warranty, conduct, omission, agreement or transaction related to this Agreement.
- (b) The State may not sue the Trustee in any capacity other than as trustee of the CityLink Trust, including seeking the appointment of a receiver (except in relation to property of the CityLink Trust), a liquidator, an administrator or any similar person to the Trustee or prove in any liquidation, administration or arrangement of or affecting the Trustee (except in relation to the property of the CityLink Trust).
- (c) The provisions of this clause 23.7 do not apply to any obligation or liability of the Trustee to the extent that it is not satisfied because under the trust deed for the CityLink Trust or by operation of law there is a reduction in the extent of the Trustee's indemnification out of the assets of the CityLink Trust, as a result of the Trustee's fraud, negligence or breach of trust.

- (d) No attorney, agent or receiver or manager appointed in accordance with this Agreement has authority to act on behalf of the Trustee in a way which exposes the Trustee to any personal liability and no act or omission of any such person will be considered fraud, negligence or breach of trust of the Trustee for the purpose of clause 23.7(c).
- (e) The Trustee is not obliged to do or refrain from doing anything under this Agreement (including incur any liability) unless the Trustee's liability is limited in a manner satisfactory to the Trustee in its absolute discretion.

23.8 Several obligations

- (a) The obligations of the Company and the Trustee under this Agreement are several.
- (b) Without limitation to their respective obligations or to the extent of their respective liability under this Agreement, an obligation which is expressed to bind both the Company and the Trustee is deemed to be a several reference to:
 - (i) the Trustee in relation to the Trust Road, the Trust Land, the Trust Leases and the Trust Concurrent Leases or (insofar as the obligation does not relate to land) the specified obligation as it relates to the Trustee in each case (as the case may be); and
 - (ii) the Company in relation to the Company Road, the Company Land and each Company Lease or (insofar as the obligation does not relate to land) the specified obligation as it relates to the Company in each case (as the case may be) including the obligation to operate and maintain CityLink.

23.9 Benefits held on trust

- (a) The State holds on trust for its Associates the benefit of:
 - (i) each indemnity, promise and release given by the CityLink Parties under this Agreement in favour of the State's Associates; and
 - (ii) each right in this Agreement to the extent that such right is expressly stated to be for the benefit of the State's Associates.
- (b) The CityLink Parties acknowledge the existence of such trusts and consent to:
 - (i) the State exercising rights in relation to, or otherwise enforcing such indemnities, releases and rights on behalf of its Associates; and
 - (ii) the State's Associates exercising rights in relation to, or otherwise enforcing the indemnities, promises, releases and those rights as if they were a party to this Agreement.
- (c) The parties agree that the State does not require the consent of any State Associate to amend or waive any provision of this Agreement.

- (a) the State and the Lessee continue to be bound by the Lease in respect of the Surrendered Area up to and including the Surrender Date; and

 - (i) the Lease in relation to the Surrendered Area; and
 - (ii) the State's decision to enter into this deed,

arising after the Surrender Date, provided that nothing in this deed is a waiver of any breach of the Lease by the Lessee or of any obligation of the Lessee under the Lease required to be performed on or before the Surrender Date in relation to the Surrendered Area (even if the

State does not discover the breach or make a claim in connection with the breach until after the Surrender Date).

 - (i) the Lease in relation to the Surrendered Area; and
 - (ii) the Lessee's decision to enter into this deed,

arising after the Surrender Date, provided that nothing in this deed:

- (c) is a waiver of any breach of the Lease by the State;
- (d) is a waiver of any obligation of the State under the Lease required to be performed on or before the Surrender Date in relation to the Surrendered Area (even if the Lessee does not discover the breach or make a claim in connection with the breach until after the Surrender Date); or
- (e) limits any indemnity given by the State under this Deed, the State Interface Agreement, or the Concession Deed, to the extent a Claim under such indemnity relates to MMR Interface Works undertaken on the Surrendered Area.

In this clause 6.2, State Interface Agreement means the agreement titled " Metro Tunnel - State Interface Agreement" between the State and the Company and the Trustee (each as defined in the Concession Deed) dated on or about 14 December 2017.

6.3 Bar to proceedings

Either party may plead this deed as a complete defence to any proceedings arising from or in connection with the matters the subject of the release in clauses 6.1 and/or 6.2 (as applicable).

6.4 Indemnities

Each party is liable for and indemnifies the other party against all liability, loss, costs and expenses (including legal fees, costs and disbursements on the higher of a full indemnity basis and a solicitor and own client basis, determined without taxation, assessment, or similar process and whether incurred by or awarded against the relevant party) arising from or incurred in connection with:

- (b) A waiver or consent given by a party under this deed is only effective and binding on that party if it is given or confirmed in writing by that party.
- (c) No waiver of a breach of a term of this deed operates as a waiver of another breach of that term or of a breach of any other term of this deed.

7.6 Further acts and documents

Each party must promptly do all further acts and execute and deliver all further documents (in form and content reasonably satisfactory to that party) required by law or reasonably requested by another party to give effect to this deed.

7.7 Consents

A consent required under this deed from a party may be given or withheld, or may be given subject to any conditions, as that party (in its absolute discretion) thinks fit, unless this deed expressly provides otherwise.

7.8 Counterparts

This deed may be executed in any number of counterparts and by the parties on separate counterparts. Each counterpart constitutes the deed of each party who has executed and delivered that counterpart.

7.9 No representation or reliance

- (b) Each party acknowledges and confirms that it does not enter into this deed in reliance on any representation or other inducement by or on behalf of any other party, except for representations or inducements expressly set out in this deed.

7.10 Stamp duties and registration fees

- (a) The Lessee:
 - (i) must pay on time all stamp duties and registration fees and (to the extent the Lessee's act or omission has contributed to the same) any related fines and penalties in respect of this deed, and each transaction effected by or made under this deed;

To the extent permitted by law, in relation to its subject matter, this deed:

- (a) embodies the entire understanding of the parties, and constitutes the entire terms agreed by the parties; and

8. GST

8.1 Definitions and interpretation

In this clause 8:

Agreed Price means the amount the Recipient is required to pay under any provision of this deed (except this clause 8) for a supply;

Recipient means a party who provides or is liable to provide consideration under this deed for a supply; and

Supplier means a party who makes a supply whether as agent or otherwise,

and unless the context indicates a contrary intention:

- (a) a reference to a supply is to a supply under this deed;
- (b) a reference to GST payable by the Supplier includes any GST payable by the representative member of any GST group of which the Supplier is a member; and
- (c) words and phrases used that are also used in the A New Tax System (Goods and Services Tax) Act 1999 have the same meaning as in that Act.

8.2 Payment

Despite the other provisions of this deed, if the Supplier is or becomes liable to pay GST in respect of any supply:

- (a) the Agreed Price for that supply is exclusive of GST;
- (b) the Recipient must pay an additional amount for GST, as reasonably calculated by the Supplier, at the same time and in the same way as the Recipient must pay the Agreed Price; and
- (c) the Supplier must issue a tax invoice to the Recipient in respect of that supply within [not disclosed] days after the Supplier receives a payment in respect of that supply.

8.3 Reimbursement

Subject to clause 8.2, if the Recipient must reimburse the Supplier for any amount paid by the Supplier to a third person, the Recipient must reimburse the Supplier that amount less the amount of any input tax credits the Supplier is entitled to in respect of any acquisition to which that amount relates.

8.4 Variation

If the amount the Supplier recovers from the Recipient on account of GST on a supply differs for any reason from the amount of GST paid or payable by the Supplier on that supply, then the Recipient must pay to the Supplier on demand (or the Supplier must credit the Recipient with) the amount of that difference. If any adjustment event occurs in relation to a supply, the Supplier must give the Recipient an adjustment note within [not disclosed] days after the date of the adjustment event.

8.5 Penalties

If the Recipient does not comply with its obligations under this deed or with its obligations under the GST law in connection with this deed and because of this the Supplier becomes subject to penalties or interest for late payment of GST, then the Recipient must pay the Supplier on demand an amount equal to the amount of the penalties and interest.

Form of Performance Bond

Performance Bond

Each Performance Bond must meet the requirements set out in this Schedule unless the State, in its discretion, agrees otherwise.

Form of Bond

- TO:** Coordinator-General of the Major Transport Infrastructure Program, a duly authorised officer of the Melbourne Metro Rail Authority, for and on behalf of the Crown in Right of the State of Victoria (the **State**),
(the **Principal**)
- FOR:** The unincorporated joint venture comprising Lendlease Engineering Pty Limited (ACN 000 201 516), John Holland Pty Limited (ABN 11 004 282 268) and Bouygues Construction Australia Pty Ltd (ABN 37 144 013 801) (the **D&C Subcontractor**),
[insert] (the **Customer**)
- DATE:** [insert]

This bond relates to the advanced works deed between the State and the D&C Subcontractor dated [insert date] (**Advanced Works Deed**) to, among other things, perform the AW Activities as defined in the Advanced Works Deed.

At the request of the Customer and in respect of the Customer and the D&C Subcontractor's obligations under the Advanced Works Deed, [Name of Issuer] [ABN #] of [#] (the **Issuer**) unconditionally and irrevocably undertakes to pay to the Principal, on written demand by the Principal, any sum or sums which may from time to time be demanded by the Principal to a maximum aggregate sum of A\$[insert] million (**Maximum Aggregate Sum**).

Payment or payments under this undertaking must be made by the Issuer to the Principal:

1. without reference to the Customer or D&C Subcontractor, any other person (other than the Issuer) or the Advanced Works Deed;
2. without enquiring into the performance or non-performance of the Advanced Works Deed;
3. despite any notice by the Customer or D&C Subcontractor or any other person to the Issuer not to pay the whole or any part of the Maximum Aggregate Sum;

4. despite anything which but for this provision may operate to release, prejudicially affect or discharge or in any way relieve the Issuer from any obligation including, without limitation:
 - (a) any variation or alteration to any contract between either Principal and the Customer or D&C Subcontractor and the Advanced Works Deed; or
 - (b) the grant to any person of any time, waiver or other indulgence, or the discharge or release of any person; and
5. to the account of the Principal as follows:

Bank Account Name: [not disclosed]

Bank Name: [not disclosed]

Account Number: [not disclosed]

If, at any time, the Issuer receives more than one demand and the total of the demands exceeds the Maximum Aggregate Sum (taking into account amounts previously paid under this bond), the Issuer has absolute discretion in respect of which demand or demands it will pay.

This undertaking expires on the earlier of:

1. **[insert date]**;
2. the date the Principal notifies the Issuer in writing that this undertaking is no longer required; or
3. the date the Issuer has paid the Maximum Aggregate Sum to the Principal.

The Issuer will have no liability in respect of any claim under this undertaking after the date upon which this undertaking expires.

[To be retained only where required by the issuer] However, the Issuer may at any time without being required to do so pay to the Principal the Maximum Aggregate Sum less any amount or amounts it may previously have paid under this undertaking or such lesser sum as may be required and specified by the Principal and thereupon the liability of the Issuer hereunder shall immediately cease.

The Principal may not assign or otherwise transfer its rights under this undertaking without the written consent of the Customer and the Issuer.

A demand issued under this bond may be made on any Business Day to the Issuer at any branch of the Issuer in Melbourne. The Issuer agrees that payment or payments due to the Principal will be payable to the credit of the Principal's bank account referred to in Item 5 above in same day funds on the same Business Day (being a day on which banks are customarily open for business in Melbourne but not a Saturday or Sunday) as the written demand is made, unless the demand is made after 12.00pm Melbourne time, in which case the payment must be made by 3.00pm Melbourne on the next Business Day.

Draft Project Agreement including PS&TR

2 Project Agreement

For the purposes of this Deed the Draft Project Agreement is the version of the Project Agreement marked 'preferred bidder phase CYP' issued by the State on 20 July 2017, provided that Schedule 25 and Part 28 (Independent Reviewer's Certificate of Certified Design) of Schedule 8 to that document are replaced with the versions of Schedule 25 and Part 28 of Schedule 8 attached to this Exhibit 1.

The parties agree that the Executed Project Agreement will include the following clause 3.7:

- (a) The parties acknowledge and agree that the Advanced Works Activities form part of the Works to be delivered by Project Co under this Agreement.
- (b) The parties acknowledge that the Advanced Works Activities:
 - (1) are subsumed within the scope of the D&C Subcontract; and
 - (2) form part of the "Works" as defined under the D&C Subcontract.
- (c) Project Co:
 - (1) acknowledges that the Advanced Works Deed has been terminated in accordance with its terms;
 - (2) accepts all Liabilities of the D&C Subcontractor accrued under or in connection with the Advanced Works Deed as such Liabilities existed immediately prior to termination of the Advanced Works Deed, as if Project Co had originally been named in the Advanced Works Deed as a party instead of the D&C Subcontractor;
 - (3) agrees that any obligation or Liability of the State, including in respect of payment, arising under or in connection with the Advanced Works Deed is satisfied and discharged by the State at the time of Financial Close; and
 - (4) agrees that Project Co has no Claim against the State in relation to any matter arising under or in connection with the Advanced Works Deed.

The parties agree that the principles in respect of the Advanced Works for incorporation into the Funds Flow Statement are as follows:

Upon the occurrence of Financial Close:

- (a) Project Co will pay to the State the sum of:
 - (1) all amounts paid to the D&C Subcontractor under the Advanced Works Deed including the AW Fee; and
 - (2) [not disclosed] of the Independent Reviewer's costs and expenses incurred pursuant to the Independent Reviewer Deed of Appointment (Advanced Works) including the Independent Reviewer's professional

fees and any costs incurred in exercising or purporting to perform its obligations under the Independent Reviewer Deed of Appointment (Advanced Works); and

- (b) Project Co will pay to the D&C Subcontractor the sum of:
- (1) any amounts certified under the D&C Subcontract as amounts that would have been payable under the terms of the Advanced Works Deed if the D&C Subcontractor was entitled to submit a Monthly Statement (as that term is defined in the Advanced Works Deed) on Financial Close; and
 - (2) any amounts otherwise due and payable to the D&C Subcontractor under the Advanced Works Deed that have not been paid by the State by Financial Close.

3 PS&TR

- (a) As at the date of this Deed, the Draft PS&TR comprises the PS&TR Version 6 issued by the State acknowledging section (b) to (e) inclusive below.
- (b) The parties have identified a number of proposed amendments to the PS&TR Version 6 including:
- (1) the departures identified in List A in the document titled "TAS – PS&TR Departures – List A (resolved) [CYP response 14 Sep 17]" reissued by the State on 14 September 2017 (**Resolved Departures**); and
 - (2) the departures identified in List B in the document titled "TAS – PS&TR Departures – List B (unresolved) [CYP response 14 Sep 17]" reissued by the State on 14 September 2017 (**Unresolved Items**).
- (c) The parties will use their best endeavours to resolve the Unresolved Items prior to 30 September 2017 (failing which the State Representative and the D&C Subcontractor Representative must meet and agree a further timetable for expediting their resolution).
- (d) The parties agree that:
- (1) the Resolved Departures; and
 - (2) the Unresolved Items, as and when they are agreed (and become resolved) between the parties,
- will be incorporated into the PS&TR in accordance with and subject to the change control process. Upon notification by the State of completion of the change control process, the updated version of the PS&TR (which will be labelled Version 7) will become the "Draft PS&TR" for the purpose of this Deed.
- (e) The parties agree that:
- (1) the Independent Reviewer will be provided with details of the Resolved Departures and Unresolved Items;
 - (2) the D&C Subcontractor is entitled to (and it will be documented in the Independent Reviewer's Deed of Appointment (Advanced Works) that the D&C Subcontractor is entitled to) proceed at its risk, subject to section (e)(3), with the AW Activities (including any design works), based on the Draft PS&TR as if amended by the Unresolved Items in

the manner proposed by the D&C Subcontractor and the Resolved Departures, as the D&C Subcontractor considers appropriate, pending incorporation in accordance with paragraph (d) once and if agreed;
and

- (3) the D&C Subcontractor must include in any Design Documentation issued to the Independent Reviewer for review a summary of any Unresolved Items and Resolved Departures that have been incorporated into the Design Documentation.

- (4) proceeding with such construction; and
- (5) the risk that the relevant Design Documentation is subsequently not certified by the Independent Reviewer and the Independent Reviewer notifies Project Co of any actual or potential non-compliances with the requirements of the Agreement and section 2.9(c) applies.

- (c) If Project Co has used the IFC Design Documentation for construction purposes in accordance with section 2.9(b) and the Independent Reviewer subsequently notifies Project Co of any actual non-compliances or where the IFC Design Documentation relates to Temporary Works only, any potential non-compliances with the requirements of the Agreement:
